BOLDLY.
INTENTIONALLY.

You're looking for a university that understands you. A place that will leverage your career intentions and be your partner along the way. A university where faculty are ready to share their knowledge and convictions and direct you on the right course, and where graduates have carved a path to follow.

We are proud of our unique ways and it's this drive that makes Algoma University the right place for you, your future, your mark.

PROUDLY.
UNIQUE.

**FUTURE.
FOCUSED.**

When you look back at your Algoma experience, our hope is that it will be defined by more than what you've learned in the classroom. It will be the experience of life moments that will shape you and the creation of bonds that will last.

It will be the shared laughter with people that see things the way you do. The standing ovations while cheering for your team in the finals. The times you realize that every decision, unsure at the time, will acknowledge that you're on the right path.

This and more is what you can expect at Algoma. Where you'll connect with the most diverse student body in Ontario. Where you'll benefit from dedicated and caring faculty. Where you'll find your true self and more.

Hold tight, this is going to be an adventure.

SUPPORTIVE CAMPUS ENVIRONMENT

According to the National Survey of Student Engagement (NSSE) a significantly higher proportion of Algoma University students claim that the campus environment is more supportive compared to students at other universities.

SOO. MUCH.

Algoma U is located in Sault Ste. Marie, a city of 75,000 people in Northern Ontario. “The Soo”, as locals call it, has all the amenities of a big city – shopping, entertainment, sports teams, festivals, and cultural activities – but without the hassle of traffic.

We’re lucky enough to live in a city surrounded by the great outdoors. With Lake Superior and the St. Mary’s River literally just steps from our front door, there’s always something to do. You can catch some sun at the beach or walk our beautiful boardwalk. Plus, the hills of the Canadian Shield are right at our back door. With the highest elevation in Ontario, Searchmont Resort is a popular winter destination for our students, offering great alpine skiing and snowboarding.

Our city is small enough to get around on foot or bike. In fact, it’s only a 30-minute walk from campus to downtown or a 10-minute bike or bus ride. The Hub Trail, which runs through Algoma U, connects the city, allowing you access to any major destination on foot, bike, or roller blades. Don’t need that much fresh air? Don’t worry. The Sault Transit makes regular stops on our campus and can take you anywhere you want to go.

[algoma.ca/ssm](https://www.algoma.ca/ssm)

SAULT STE. MARIE CAMPUS

Wide. Open. From walks on the trails to fitting in a hard workout post-studying, to escaping to the outdoors on the weekend, Algoma and the Soo have it all.

As a student at Algoma U, you can relax at night in the student centre, The Speakeasy, where you can listen to a band, sing your heart out in karaoke, or dance the night away at a themed pub night. If the pub isn't your scene, there's plenty of student clubs with a wide variety of interests – everything from gaming, social activism, gardening, and photography.

The activities you participate in on- and off-campus also help build your résumé with volunteer experience. Your experiences can be added to Algoma U's Co-Curricular Record, which is an official record of your community engagement, volunteerism, and service leadership.

INTERNATIONAL SAFE COMMUNITY

While we pride ourselves on our friendly and intimate campus where people smile, say hello, and know your name, we are dedicated to protecting the rights of everyone on campus while providing a professional, respectful, and safe campus environment.

ALL. BUSINESS.

The School of Business and Economics at Algoma University delivers high calibre business education in two great locations, Sault Ste. Marie and Brampton. The School builds on the success of the business and economics programs and the long-standing commitment of the University to provide access to top-quality academic programming while developing business- and socially-conscious leaders.

You'll benefit from personal and professional growth opportunities through experiential learning, including:

The Annual Northern Ontario Business Case Competition

Co-operative education

Internships

Research positions

and more

PROGRAMMING

Programs available in:

- Accounting
- Business Administration:
*Specializations include:
Accounting, Economics, Human Resources Management, and Marketing*
- Economics
- Finance and Economics

TWO GREAT LOCATIONS

Our Sault Ste. Marie campus offers a truly northern experience in the heart of the Great Lakes. Our Brampton campus provides students with an urban experience located in the centre of one of Canada's fastest growing cities. Both locations provide students with the academic background and experiences required to succeed in today's economy

ALL. IN.

There are plenty of opportunities to get involved and have fun outside of the classroom. You can run for student government, be an Orientation Week leader, and so much more. You'll meet new friends and these experiences will help build your résumé. Plus, your leadership and volunteerism on- and off-campus are recognized on our Co-Curricular Record!

Join in Orientation Week and Frost Week

Join one of over 30+ student clubs

Run for the Algoma University Students' Union (AUSU)

Take part in the Algoma U Colour Dash

Get dressed up for a themed Thursday night pub

Plant and harvest The Peoples' Garden

... and so much more!

THUNDERBIRDS. RULE.

ALGOMATHUNDERBIRDS.CA

“At bigger universities you don’t get to know your professors like this. They wouldn’t know I was interested in going to medical school and help me get there. Here, they did just that. They wrote me incredible reference letters. They helped me every step of the way.”

Caleb Charlebois
Honours Bachelor of Science in Biology graduate, NOSM MEd 2022, Algoma Thunderbirds soccer player

VARSITY SPORTS

The Algoma Thunderbirds compete at the highest level of university sport in Canada, in the Ontario University Athletics (OUA) and U Sports. If you think you’ve got what it takes to be a Thunderbird, email info@algonau.ca.

The Algoma Thunderbirds compete in:

Basketball

Cross-Country Running

Curling

Nordic Skiing

Soccer

Wrestling

INTRAMURALS

We’re adding new intramural programming every year. Intramurals happen in the George Leach Centre (GLC) and throughout the city. We offer a variety of sports from volleyball and hockey to Powderpuff Football, cricket, and everything in between. And if you can’t find something that interests you, you can start your own league.

GEORGE LEACH CENTRE VOTED #1 FITNESS CENTRE IN SAULT STE. MARIE

Did you know that access to Algoma U’s athletics complex, the George Leach Centre, is included in your tuition? This 49,000 square foot facility features a state-of-the-art weight room, spin studio, a basketball court used by NBA All-Stars, and more.

HERITAGE. HONOURERD.

WE ARE SITUATED IN THE CENTRE OF THE GREAT LAKES ON THE TRADITIONAL TERRITORY OF THE OJIBWE. SAULT STE. MARIE IS KNOWN TO THE ORIGINAL INHABITANTS AS BAWATING, MEANING FAST RUSHING WATERS (RAPIDS). THIS AREA HAS BEEN A GATHERING PLACE FOR MANY GENERATIONS.

The spirit of sharing and coming together continues on our campus today. Algoma U, located on the former Shingwauk Indian Residential School site, offers a unique and historically rich setting for a cross-cultural community in which Anishinaabe (First Nation, Métis, and Inuit), Canadian, and international students and faculty learn with each other and from one another in a spirit of friendship and respect.

ANISHINAABE PEOPLES' COUNCIL (APC)

APC is a committee of the Board of Governors and represents the communities of Batchewana and Garden River First Nations, SASA, the Children of Shingwauk Alumni Association, the Métis Nation of Ontario, and the Sault Ste. Marie Historic Métis Community. It also includes representation from the Sault Indian Friendship Centre, Neechkewehn Homes, and the North Shore Tribal Council. APC supports the delivery of specific services to Anishinaabe students through the Anishinaabe Initiatives.

SHINGWAUK ANISHINAABE STUDENTS' ASSOCIATION (SASA)

The Shingwauk Anishinaabe Students' Association (SASA) is an organization run by students for students. It works to ensure that all Anishinaabe students' voices are recognized including all First Nation, Status, Non-Status, Métis, and Inuit. As a former residential school, it is important that space be provided to be heard and accessible amongst the Algoma U community. SASA promotes the academic and cultural needs of Anishinaabe students and offers related activities for all students. They also represent Anishinaabe students on various boards and committees at the University.

SHINGWAUK KINOOMAAGE GAMIG (SKG)

As part of our commitment to providing a respectful, inclusive, and innovative educational environment for Anishinaabe students, we signed a Covenant with the Shingwauk Education Trust (SET). SET has established Shingwauk Kinooaage Gamig (SKG), which offers courses and programs of particular interest to Anishinaabe students. These courses and programs are fully credited through Algoma U. Algoma students are welcome to take SKG courses.

ANISHINAABE INITIATIVES

The Anishinaabe Initiatives provides academic and cultural support to Anishinaabe students and Algoma U community members. Events and programming are delivered to encourage student success and help promote and celebrate Anishinaabe culture on campus.

To encourage a cross-cultural experience, Algoma offers numerous opportunities for all students to experience Anishinaabe culture, including:

Gathering at the Rapids Pow Wow

Anishinaabe Speaker Series

Sharing Circles

Ceremonial Feasts/Soup & Bannock Days

Elders'/Youth Gatherings

Ceremonial Arbour

Visiting Elder Program

Biennial Anishinaabe Inendamowin Research Symposium

"Gdo Akiiminaan Ganawendandaan" (Taking Care of our Land) Symposium

GUARANTEED SINGLE ROOM IN RESIDENCE

Just one of the perks you'll experience as a first-year student at Algoma University!

**SUITE.
VIEW.**

As a student, you'll have plenty of options in regards to residence. Our residences are centrally located on our campus and are within a two-minute walk to classes, computer labs, the George Leach Centre, The Speakeasy, cafeteria, and major transit routes.

All feature high-speed wireless Internet, local phone services, laundry and mail facilities, and include weekly cleaning services in all bathrooms and common areas. Dorms are wheelchair accessible, have 24-hour video surveillance, and are staffed with Residence Advisors and Residence Dons.

ALGOMA DORMITORY

As a first-year student coming out of high school, enjoy the following amenities in our 95-bed dormitory:

-
- Guaranteed single room, including twin bed, full wardrobe and desk
-
- Shared bathroom with one dorm mate
-
- Shared common rooms with entertainment centre and microwave
-
- Shared common kitchen space
-
- Required meal plan
-

SPIRIT VILLAGE TOWNHOUSES

For upper-year, mature, and international students:

-
- Five bedrooms (each room includes twin bed, full wardrobe, and desk)
-
- Two shared bathrooms
-
- Fully furnished shared kitchen (table, chairs, refrigerator, and oven)
-
- Meal plan optional
-

SPIRIT VILLAGE INTERNATIONAL DORMITORY

For upper-year, mature, and international students:

-
- 45-bed dormitory
-
- Room includes twin bed, wardrobe, and desk
-
- Shared kitchen space
-
- Shared bathroom with one dorm mate
-
- Required meal plan

PROGRAMS

At the core of everything we do are academic programs that span across the humanities, social sciences, and sciences. Plus, with no graduate programs, our students have opportunities to assist with faculty research projects – an advantage like no other.

STUDY. PLAN.

“After enrolling as a French language student, my first experience with the accounting program changed my educational journey. In my first year, I took an introductory accounting class and I could not have been more intrigued. I am now pursuing a double major in both French and accounting. I have always enjoyed the fun and challenging courses at Algoma U.”

Jordan Trudeau
3rd Year, Double
Major, Bachelor of
Arts, Accounting,
French

ACCOUNTING

What Will I Learn?

What it takes to be a creative, independent problem solver who can be relied on to get, the job done right the first time.

All the necessary skills and theory to prepare you to write the CPA exams.

What's Special About it?

This three-year degree offers a pathway into an array of accounting career opportunities for those with an aptitude for numbers, organizing, and analytical problem-solving skills.

This is done in an environment where the knowledge culture is founded on continual learning and improvement - the foundation of a career in accounting.

Even More to Explore:

Our program will provide you with the opportunity to pursue the Chartered Professional Accountant (CPA) designation after graduation and our courses are also recognized by the Aboriginal Financial Officers Association of Canada (AFOA), which can prepare you to become a Certified Aboriginal Financial Manager (CAFM).

algomau.ca/accounting

ANISHINAABE STUDIES

What Will I Learn?

Our Anishinaabe Studies, offered in partnership through Shingwauk Kinoomaage Gamig, explores the history of the Anishinaabe peoples. Through a culture-based curriculum, you will learn Anishinaabe history, philosophy, and worldview.

What's Special About it?

You will develop broad cross-cultural understanding and experience both traditional and contemporary Anishinaabe research methodologies, as they relate to other research paradigms.

Even More to Explore:

Due to the holistic style of delivery, an emphasis is placed on cultural values. You will also be immersed in a traditional Anishinaabe community.

algomau.ca/anishinaabe-studies

“Throughout my four years at Algoma, I worked alongside Dr. Isabel Molina conducting cutting edge research. Because of this, I was able to go to San Diego, California for two summers, where I worked with other top researchers as part of the Plant Genome Research Project. I am now better prepared for grad school and plan to one day become a physician.”

Christine Caron
Graduate, Honours
Bachelor of Science
in Biology

ANISHINAABEMOWIN (OJIBWE)

What Will I Learn?

Our program will teach you basic- to advanced-level instruction in Anishinaabemowin - the Ojibwe language and culture. You will gain a functional level of fluency in the language and will investigate the challenges of the written word.

What's Special About it?

Our program is the only one of its kind in Canada. With more language speakers, we're helping to keep the Anishinaabe language alive and well in Canada.

Even More to Explore:

Complement your degree by participating in a variety of cultural activities on campus, including the Gathering at the Lake Pow Wow, one of the largest in the regions. Other activities include: full moon ceremonies, the Elders' Gathering, feasts, and more.

algomau.ca/anishinaabemowin

BIOLOGY

What Will I Learn?

In our Biology program, you will take courses that will teach you the scientific method, and how to use it. You'll also take courses that expose you to the main sub-disciplines within Biology. Our program takes a problem-solving approach to the sciences, preparing students for all areas of graduate studies. Graduates from our program have successfully gone on to graduate school, medicine, pharmacy, law, dentistry, optometry, and to veterinary school.

What's Special About it?

We work hard to ensure that our students feel like scientists at the end of their degree. You'll have more opportunities to actually participate in biological research. Approximately 25% of our students volunteer or work in faculty research labs each year, and many publish the work they do in scientific journals.

Even More to Explore:

You'll have loads of practical science opportunities in our Biology program. We offer two internship courses that allow students to explore science-related fields directly, and many of our courses have weekly labs that will allow you to get your hands dirty doing actual science.

algomau.ca/biology

“There are many opportunities for students at Algoma. For example, we have one-on-one interactions with professors, who are all very friendly. Making new friends is easy because of small class sizes, and there are many jobs on campus – one of the important needs for all students.”

Kazi Faisal Atahar
Graduate, Bachelor
of Business
Administration

Business students have a very high employment rate in their field, and a 95% success rate on the Chartered Accountancy exam on their first attempt on the UFE.

BUSINESS ADMINISTRATION

What Will I Learn?

Our Bachelor of Business Administration (BBA) program will give you the opportunity to conduct research, sharpen your critical thinking skills, network with businesses and professionals, and increase your skills in oral and written business communication, critical thinking, and problem solving.

What's Special About it?

In your fourth year, you'll be ready to apply what you've learned by participating in the Northern Ontario Business Case Competition, which enables all BBA students to showcase their knowledge and skills before local business judges and national celebrities. Algoma U's BBA program is designed to increase your business knowledge and prepare you for future leadership opportunities in various business sectors and prepare you for graduate degree opportunities.

Even More to Explore:

If you want to expand your studies even further, add a single or double specialization in Accounting, Economics, Human Resources Management, or Marketing – multiple possibilities to design your own BBA degree!

BUSINESS SPECIALIZATIONS:

Accounting
Economics
Human Resources Management
Marketing

algomau.ca/business

COMMUNITY DEVELOPMENT

What Will I Learn?

You will learn to work alongside people in communities to effect change by helping to identify common concerns and solutions, and to build relationships with organizations and those in positions of power.

What's Special About it?

Our program has a specific focus on northern, rural, remote communities, and Indigenous populations. You will be adequately prepared to be a Community Development Practitioner in Northern Ontario, and to work with a diverse and cross-cultural group of people.

Even More to Explore:

In your third year, you'll have the opportunity to expand your classroom learning in a 150-hour field placement that links concepts, values, and theories to practice.

algomau.ca/cd

PROGRAM PROFILE

Psychology

Our Psychology program offers two different degrees, tailored to your strengths and interests. The Bachelor of Science degree requires you to complete a greater number of biological-based courses compared to the Bachelor of Arts degree.

We offer courses on a wide range of topics in psychology. The majority of courses fall under one of two categories: those that focus on the social bases of behaviour, and those that focus on the biological bases of behaviour.

While it is widely known that psychology can involve the identification of and counselling for abnormal thoughts and behaviours, there are many other areas of psychology that are less widely known. For example, we offer courses which teach you how and why we are susceptible to visual illusions and why individuals follow group behaviours. Beyond the study of humans, we

also offer courses which teach how non-human animals (such as birds and bats) have evolved to find food and communicate in the most efficient manner.

In your fourth year of studies, you will have the opportunity to research at length any area of psychology that piques your interest for your honours thesis. We believe in cultivating your interests and giving you the freedom to explore your own ideas. You will select your own topic, and with assistance from one or more professors, design your own experiment, collect and analyze the data, and finally, present your research at the Algoma University Annual Psychology Thesis Conference. This is the culminating project of your time at Algoma U, and highlights the refined, polished work our undergraduates are capable of producing. It is also no surprise to note, that some of our students' theses are published – a rarity for undergraduates!

algomau.ca/psychology

FUTURE. FOCUSED.

“We receive a lot of hands-on experience and placement opportunities outside of the classroom, which really helps to apply what we are learning in real-life situations.”

Johnathan Lalonde
4th Year, Bachelor of Arts in Community, Economic, and Social Development

COMMUNITY, ECONOMIC, AND SOCIAL DEVELOPMENT (CESD)

What Will I Learn?

In our Community, Economic, and Social Development program, more commonly known as CESD, you will develop a holistic perspective of the world around you, and develop the knowledge and skills to fight for positive change, economic and social equality, and defend human rights.

What's Special About it?

Our program is the only one of its kind in Canada and has a special focus on northern, rural, remote, and Indigenous populations.

Even More to Explore:

You'll have the opportunity to put your skills and learning into practice in your third- and fourth-year when you complete two field placements in the community. Graduates are also eligible for certification by the Economic Developers Association of Canada (EDAC) and the Council for the Advancement of Native Development Officers (CANDO).

algonau.ca/cesd

COMPUTER SCIENCE

What Will I Learn?

In our Computer Science program, you will gain a strong theoretical and practical foundation in the study of algorithms, programming languages, and construction of computer systems and applications. You will have a solid foundation in data structure, programming, assembly language programming, computer organization, operating systems, theory, software engineering, algorithms, and computer networking.

What's Special About it?

You have the option to complete a fourth year honours thesis, which can be used to build a portfolio to highlight your skills and abilities to potential employers after graduation.

Even More to Explore:

Enhance your learning by choosing one of three specializations: Computer Game Technology, Computer Game Technology - Creative Arts, or Mobile Software Engineering.

COMPUTER SCIENCE SPECIALIZATIONS:

Computer Game Technology
Computer Game Technology – Creative Arts
Mobile Software Engineering

algonau.ca/computer-science

The Engineering pathway provides students access to a first year of study at Algoma University in Sault Ste. Marie, followed by a seamless transition to the second year of Engineering at Laurentian University in Sudbury in either Mechanical, Chemical, or Mining Engineering.

ECONOMICS

What Will I Learn?

You will learn the analytical and critical thinking skills necessary to interact with policy makers at the local, national, and international level for both for-profit and not-for profit organizations. In our program, you will learn various tools for a deep understanding of individual and market behaviour as well as the roles of government in improving economic and societal well-being.

What's Special About it?

You will help create knowledge by participating in conferences locally, nationally and internationally, as appropriate.

Even More to Explore

By the time you graduate from the Economics program, you are ready to enter the workforce or continue with higher studies.

algonau.ca/economics

ENGINEERING (1ST YEAR)

What Will I Learn?

Our first year Engineering pathway provides qualifying students with a first year of study followed by a seamless transition to the second year of Laurentian University's Bachelor of Engineering program. You will study in areas such as mathematics, chemistry, and physics in preparation for a degree in either Mechanical, Mining, or Chemical Engineering.

What's Special About it?

You will benefit from the best of both worlds – an intimate and highly supported first year experience at Algoma University followed by a transition to the Bharti School of Engineering with faculty from a variety of disciplines, strong industry connections, and brand-new facilities. If you pursue co-operative education, you may have the option of being placed in Sault Ste. Marie working with local industry partners.

Even More to Explore:

There is a growing need to recruit and retain professional engineers in Northern Ontario and beyond. Join the next generation of professionals with opportunity for long and successful careers in an area of high demand.

algonau.ca/engineering

NEW. SCIENCE.

THERE'S MORE
HERE THAN
WHAT MEETS
THE EYE.

PROGRAM PROFILE

Biology/Environmental Science

Our four-year Biology and Environmental Science programs will help you develop skills that allow you to contribute solutions to the current environmental, social, and economic challenges facing society in the twenty-first century.

Both programs are housed in the Essar Convergence Centre (ECC). The ECC is our campus' newest building and comes fully equipped with state-of-the-art laboratories for teaching and research.

Students studying Biology or Environmental Science at Algoma can expect to examine the impacts of climate change, the

spread and threats of invasive species, the continued loss of biodiversity, as well as all of the major sub-disciplines of Biology (genetics, cellular biology and biochemistry).

You'll also benefit from unique access to the natural environment. Algoma is located in the heart of the great lakes with freshwater lakes and boreal forests all just minutes from campus. This unique combination of modern facilities and access to the natural environment draws many researchers and students from all over the world to Sault Ste. Marie.

IN THE FIELD

Benefit from hands-on learning experiences. A wide range of natural resources and research facilities are located close to the University, providing the ideal setting in which to conduct laboratory and field research.

IN THE CLASS

Develop critical thinking skills to prepare you to contribute solutions to the environmental, social, biological, and economic challenges facing humanity in the twenty-first century.

IN THE LAB

We work hard to ensure that our students feel like scientists. Over 25% of our students volunteer or work in faculty research labs each year.

algomau.ca/biology

algomau.ca/environmental-science

“My degree in English molded my path to becoming a Librarian... I am fortunate to have been a part of the English Department family at Algoma University. The close relationships I built with my professors, and the one-on-one attention that I received from them, allowed me to develop my writing significantly over a period of four years, and become the professional I am today.”

Erika Provenzano
BA Honours, English (Algoma 2012), MLIS (UWO, 2013)

ENGLISH

What Will I Learn?

In our program, you will study literature, language, and ideas from Shakespeare to Margaret Atwood, and explore a variety of genres such as fiction, drama, poetry, creative nonfiction, film, and criticism.

What's Special About it?

You will gain an understanding of diverse perspectives and values and learn how language and literature continue to shape human experience, as well as an appreciation of the power of words and ideas. In learning to write critically, creatively and convincingly, you will hone your ability to think clearly and to analyze attentively, abilities that greatly appeal to employers, professional schools, and graduate programs.

Even More to Explore:

Courses in writing and film allow you to explore further aspects of creativity. You can also take your learning outside of the classroom by getting involved in research being conducted by our faculty through paid work placements.

algomau.ca/english

ENVIRONMENTAL SCIENCE

What Will I Learn?

In the Environmental Science program, you'll learn what science is, how science is done, and how science can be used to address global problems such as climate change, invasive species, biodiversity loss, and habitat destruction fragmentation and degradation. You'll develop critical thinking skills that will allow you to contribute to the current environmental, social, and economic challenges facing humanity in the twenty-first century.

What's Special About it?

Our program is interdisciplinary - you'll take courses in biology, chemistry, geography, but can also take relevant courses in political science, sociology, economics, and law and justice.

Even More to Explore:

In your third year, you'll complete an 80-hour internship with an industry leader. In your fourth year, you can complete an honours thesis research project and/or complete another internship in the field of environmental science

algomau.ca/environmental-science

“Algoma U's Geography program helped me to understand the complexities of the human-human and human-environment relationships, that have been invaluable in my field.”

Brad Lloyd
BA Honours,
Geography (2010)

FINANCE AND ECONOMICS

What Will I Learn?

Our program is a blended program combining major theories in finance and economics and their applications. It is designed to equip you with a broad-based understanding of the tools and skills required for successful careers in the financial sector. You will learn the analytical and critical thinking skills necessary to interact with policy makers at the local, national, and international level for both for-profit and not-for profit organizations.

What's Special About it?

You will help create knowledge by participating in conferences locally, nationally, and internationally, as appropriate.

Even More to Explore:

By the time you graduate from our program, you are ready to enter the workforce or continue with higher studies.

algomau.ca/finance-economics

GEOGRAPHY

What Will I Learn?

Our program focuses on four tracts of geography: physical, human, and human-environmental geography, and geomatics. You have the opportunity to study in two of these tracts.

What's Special About it?

Due to the University's location, you will have the opportunity to study in a region with a rich diversity of peoples and natural environments, and you can explore these options through field courses and the Co-operative Education program.

Even More to Explore:

You will have the opportunity to interact with local businesses, including the Sault Ste. Marie Innovation Centre, Community Geomatics Centre, and NORDIK Institute, and can work alongside faculty conducting cutting-edge research on food security in the region.

algomau.ca/geography

PROGRAM PROFILE

Law and Justice/Political Science

Our four-year Law and Justice and Political Science programs prepare you well for law school and the workforce. Housed together on campus, many students complete double majors in both programs for a more holistic and transformative educational experience.

In our Law and Justice program, you will learn about the pattern of law and legal institutions required to regulate our political, social, and economic relations. You'll study many areas of law, including criminal law, family law, corporate law, constitutional law, and contract law. By the time of graduation, you'll also have investigated conventional, traditional, and alternative forms of justice and dispute resolution.

Our Political Science program has three key streams: international relations and comparative politics; Canadian government, politics, and public policy; and political theory. You'll learn about the key political institutions and actions, along with the forces and ideas that work to shape society and influence transformative political action.

Being located on the site of the former Shingwauk Indian Residential School, our programs have a special focus on Indigenous content, including treaty relations, colonialism, and more.

Both degrees equip you with high level critical thinking skills, excellent written and verbal communication skills, and research skills - all needed for law school and other graduate programs, as well as the work world.

LOCAL

You'll have opportunities to show off your knowledge in municipal and regional elections by getting involved in debates and getting involved in the Law and Politics Student Society.

PROVINCIAL

Take your learning further by participating in the Model United Nations held in Toronto, where you'll network and connect with other like-minded students from across Ontario. We send an Algoma team yearly!

INTERNATIONAL

Don't forget your passport when you come to Algoma! Twice a year, we hold the Can-Am Debates with Lake Superior State University in the United States, where we debate critical and current issues affecting both countries.

algomau.ca/law-justice
algomau.ca/political-science

**STRONG.
DEBATE.**

“I valued the one-on-one experience with professors – they know you by name and not by a number. I also appreciated learning about the Anishinaabe culture, and the history of this site as a former residential school.”

Pauline E. Danquah
3rd Year, Double Major in Bachelor of Arts in Political Science, Law and Justice with a Minor in Sociology

HISTORY

What Will I Learn?

Our history program has courses covering a wide range of topics, including the history of First Nations, women's history, colonial history through an Indigenous lens, history and film, witches and witch-hunts, the history of ideas, and more. New courses in public history and archival studies will allow you to explore ideas and projects on history as it's made available in museums, historical sites, and archives.

What's Special About it?

You'll get up close with various primary sources and historical writings in highly-interactive classroom learning experiences. You'll also get the opportunity to work with an expert faculty member to develop a project and write a thesis in an area of interest that you can choose for yourself.

Even More to Explore:

Did you know that Algoma U houses a number of important archives on campus, including those of the Shingwauk Indian Residential School? Explore the history of the University and delve into over 100 years of archives right on campus.

algonau.ca/history

LAW AND JUSTICE

What Will I Learn?

In Law and Justice, you will acquire knowledge of the pattern of law and legal institutions required to regulate our political, social and economic relations.

What's Special About it?

We take a more holistic approach in that you will study many areas of the law including civil law, criminal law, family law, corporate law, constitutional law and contract law. We also investigate conventional, traditional and alternative forms of justice and dispute resolution.

Even More to Explore:

You will come to understand law as a multidimensional and complex social phenomenon. You will also acquire skills in critical thinking, written and verbal communication and high calibre research making you an excellent candidate for law school and graduate programs.

algonau.ca/law-justice

“The region needs more young people to speak up and announce how different we are. We need more people advocating for the north. We need to work together to achieve those goals and bring Northern Ontario onto the same level as cities like Toronto.”

Bushra Asghar
Graduate, Honours Bachelor of Political Science, 2018

MUSIC

What Will I Learn?

In our program, you will develop the fundamentals of performance, theory, and musicianship. We offer courses in performance, music theory, music history, popular music, sociology of music, Indigenous music, world music, audio arts, conducting, elementary school music, and music business. We also provide an extensive variety of jazz-based courses.

What's Special About it?

Development of reliable performance skill is nurtured through weekly performance classes. Plus, you will study and perform in a historic building, outfitted with the best instruments and faculty who are leading musicians in their field.

Even More to Explore:

Take your learning outside of the classroom by participating in one of our ensembles. The Algoma University Choir, Jazz Ensemble, and Music Theatre Ensemble, are active within the local community, and give you ample opportunity to perform.

algonau.ca/music

POLITICAL SCIENCE

What Will I Learn?

In our program, you will learn the about the key political institutions and actors, along with the forces and ideas that work to shape society and influence transformative political action. You will examine the concepts of power, sovereignty, identity, equality, freedom, justice, authority, democracy, ideology, political violence, revolution, globalization, political economy, development, and more.

What's Special About it?

Our program is built around three streams: international relations and comparative politics; Canadian government, politics, and public policy; and political theory. Due to our location on the site of the former Shingwauk Indian Residential School, our program has a special focus on Indigenous content, including the implications of treaty relations, the Truth and Reconciliation Calls to Action, and colonialism.

Even More to Explore:

Take your learning outside of the classroom by participating in various activities, including the twice-annual Can-Am Debate with students from Lake Superior State University in the United States. You can also participate in municipal, provincial, and federal election debates and take part in the Model United Nations in Toronto, all organized by the Law and Politics Student Society.

algonau.ca/political-science

CREATIVE. MINDS.

PROGRAM PROFILE Visual Arts/Music

Whether you prefer a paintbrush in hand or the piano keys at your fingertips, we will cultivate your creativity and transform your passion.

Our Visual Arts program is ideal if you have a passion for contemporary studio practices in painting, drawing, printmaking, and mixed media. Core studio courses are supported by academic studies in art history and theory. Courses also explore site specific sculpture, installation and land art, digital social media, bookbinding, and Indigenous art. Our program culminates with an end-of-the-year group exhibition at the Art Gallery of Algoma, allowing you the rare opportunity to curate an exhibition before graduation.

Our Music program provides an excellent foundation if you wish to explore the

fundamentals of performance, theory, and musicianship. We offer courses in performance, audio arts, conducting and a variety of music theory courses. We also provide an extensive variety of jazz-based courses. Performance courses are offered in the following areas: piano, organ, guitar, voice, violin, viola, cello, string bass, flute, oboe, clarinet, saxophone, bassoon, trumpet, horn, trombone, tuba, percussion, jazz piano, and jazz guitar. Development of reliable performance skill is nurtured through weekly performance classes, where you will discover and develop your musical voice.

“As a sociology student at Algoma U, I have gained insight into the social constructs that shape the world. I have engaged with peers and knowledgeable faculty to unpack the social inequalities that exist and explored the ideologies that influence oppression with the intention to create positive change. As a student, I have expanded my own awareness of intersectional identities resulting in self-growth.”

Lucia Luciani
4th Year, Bachelor of Arts, Sociology

PSYCHOLOGY

What Will I Learn?

You will learn about the history of psychology and explore how the brain contributes to human and non-human behaviour. You can earn a Bachelor of Arts or a Bachelor of Science in Psychology.

What's Special About it?

Most psychology courses offered at Algoma U fall under one of three categories: social and personality psychology, clinical psychology, and neuropsychology. In your fourth-year, you will have the opportunity to complete an honours thesis and will conduct original research. You will then present your findings at our annual institutional conference.

Even More to Explore:

Our students have the opportunity to work as research assistants conducting cutting edge research alongside faculty.

algomau.ca/psychology

SOCIOLOGY

What Will I Learn?

Sociology enables you to think critically about the world in which we live in; to explore the existing power structures that we are part of; dismantle and unpack the taken-for-granted. We focus on social inequality, through the examining the impacts of colonization, racialization and identity-politics.

What's Special About it?

When you enter the program, you will learn alongside faculty who are committed to social change. Our small class size creates an environment for engagement, dialogue, and interrogation of social issues and problems. You will be encouraged throughout the program to investigate a research problem of your own. A sociology degree provides you with an excellent foundation in critical thinking, research skills, and analyzing complex social dynamics.

Even More to Explore:

Our graduates are equipped to be active participants in changing the world we live in. Some graduates of our program have gone onto law school, teaching, addiction counselling, community activism, project management and evaluation, and positions in industry and government.

algomau.ca/sociology

“Algoma U has given me opportunities to make a real impact through the social work program. Through learning and working in an environment of like-minded social activists, and connecting classroom education with hands-on experience, I have a new direction for future activist work.”

Marissa Ditoro
4th Year, Bachelor of Social Work

SOCIAL WORK

What Will I Learn?

Our generalist social work program will prepare you to practice anti-oppressive social work with diverse populations. You will use structural, Anishinaabe, and feminist approaches to critically analyze the ways that social contexts shape personal and social problems.

What's Special About it?

Our program has a particular focus on social work in and with northern, rural, remote, Indigenous, and franco-Ontarian communities. Our program advocates for social justice and equips you with the intellectual, practical, and professional skills needed to promote the individual and collective well-being of individuals, families, groups, and communities.

Even More to Explore:

You'll have the opportunity to take your learning even further in your fourth year when you participate in a 700-hour field placement that will link your classroom learning to real life situations.

algomau.ca/social-work

VISUAL ARTS

What Will I Learn?

Our Visual Arts program focuses on contemporary studio practices in painting, drawing, printmaking, and mixed media.

What's Special About it?

In your first two years of studies, you'll receive structured, intense, and project-based studio courses that develop basic visual vocabulary, observational drawing skills, and an overview of art history. Upper year courses involve increasingly varied approaches that allow for more independent and personal development. This individuality is reflected in our end of studies thesis, which results in a professionally curated annual group exhibition at the Art Gallery of Algoma.

Even More to Explore:

There are countless opportunities to show off your work around town at local businesses and various gallery spaces, like 180 Galleries. Even better, most of these spaces are free!

algomau.ca/visual-arts

ADD. ON.

GET MORE OUT OF YOUR DEGREE; MINOR OR SPECIALIZE IN A SUBJECT YOU LOVE.

YOU CAN CHOOSE TO MINOR* IN MOST OF OUR DEGREE PROGRAMS. YOU CAN ALSO MINOR OR SPECIALIZE IN THE FOLLOWING UNIQUE SUBJECT AREAS.

M = MINOR **S** = SPECIALIZATION

* Minors are options that can be added to any degree program. Specializations are associated with a specific degree program.

CANADIAN GOVERNMENT, PUBLIC POLICY, AND ADMINISTRATION

M This minor concerns the study of Canadian politics and government, public policy, and public administration, with particular emphasis on decision-making at the federal and provincial levels, Indigenous politics, Canadian identity and nationalism, federal-provincial relations, and foreign policy.

COMPUTER GAME TECHNOLOGY

S You will apply foundational programming knowledge to the design and development of video game software. The specialization focuses on a complete overview of game development, from the initial code to the finished product. You will develop skills in the analysis, design, programming, and testing of computer consoles, mobiles, PC, and hand-held video games.

COMPUTER GAME TECHNOLOGY/ CREATIVE ARTS

S This specialization enables you to get involved in the artistic aspects of computer games, such as the writing of plots, the development of game flow, and the development of graphics and music to extend your analysis and design skills.

ENVIRONMENTAL SUSTAINABILITY

M This minor provides you with an interdisciplinary approach to understanding environmental sustainability, drawing on critical ecological theory, diverse issues in environmental justice and ecological economics, and applied approaches to ecological and community resilience. You will explore diverse strategies to solving sustainable community development problems, and the building of collaborative and inclusive environmental initiatives that emphasize a re-localization of economies.

FRENCH

M The French minor emphasizes the written and spoken word, allowing you the opportunity to perfect your language skills. An array of courses on francophone literature introduces you to the thought and culture of French-speaking Canada, France, and the wider francophone world.

GEOMATICS

M This minor provides you with information in regards to the gathering, storing, processing, and delivering of geographic information, or spatially referenced information. You will be introduced to the world of cartography, geographic information systems (GIS), remote sensing of the environment, and air photo interpretation.

HUMAN DEVELOPMENT

M This minor provides you with the opportunity to study a range of areas, perspectives, and issues in human development. It can be used to provide a basic understanding of some human developmental issues that would be relevant if you wish to work with children, youth, or families in various fields.

HUMAN RESOURCES MANAGEMENT

(MS) A minor or specialization in human resources management will prepare you for a career in compensation, training and development, recruitment and selection, strategic human resource planning, industrial relations, and health and safety.

INTERNATIONAL RELATIONS

(M) International Relations concerns the study of war and peace, the distribution of power at the regional and global levels, and the causes and consequences of international organization, cooperation, and law. You will gain insight into the nature of diplomacy, foreign policy, decision-making, problem-solving, and key trends and transformations that have come to shape contemporary world politics.

MARKETING

(MS) A minor or specialization in marketing offers you an opportunity to combine your business skills and creativity. You will cover general and advanced marketing concepts, and investigate how these concepts are used in various businesses and markets.

MATHEMATICS

(M) The mathematics minor covers topics such as the applications of math and data analysis, as well as highly theoretical and abstract concepts. You will discover how mathematical methods are being applied to ever-widening fields of knowledge and play a prominent role in guiding and stimulating research in science and other fields.

MOBILE SOFTWARE ENGINEERING

(S) This specialization enables you to develop expertise in what is becoming a predominant part of the application of computer technology. You will study the range of applications of mobile devices and will learn to develop applications on a variety of mobile platforms. Graduates will be able to apply the use of mobile devices in business, industry, social media, and gaming.

SOCIAL JUSTICE AND GLOBALIZATION

(M) This minor provides you with a critical focus on globalization and its impact on communities within a holistic, interdisciplinary framework. You will explore multiple conceptual and theoretical bases for community development knowledge and practice, including the social construction of theory and practice that may reflect social injustices.

EMBRACE. DIFFERENCES.

UNITED. TOGETHER. You're looking for a university that understands you. A place that will leverage your goals and be your partner along the way, broadening perspectives as well as horizons. You're looking for a university where faculty are ready to share their knowledge with you, grow with you, adapt with you. You're looking for a network of people who will share perspectives, challenge ideas, celebrate differences. You're looking for a rich history of graduates who have carved a path to follow.

With over 25% of our student body coming from outside of Canada and from over 40 different countries around the globe, our campus stands out as one of the most diverse in Canada. We embrace and foster diversity. We appreciate and celebrate what makes us unique and the ways that they unite us. When you step foot on campus at Algoma University, you clearly see what we mean when we say "All. Welcome."

Like

CELEBRATING CULTURE

We hold cultural events year-round allowing you to share your culture and traditions with others. We share food, music, dance, and experiences. Celebrating each other unites us. We also have a multi-faith prayer room allowing you to continue to practice and exercise your beliefs in a safe and welcoming environment.

PERSONAL SUPPORT

We have a vibrant and welcoming International Student Orientation Program (ISOP) that will ease your transition into life in Canada. From making instant connections with new students to getting a mobile phone plan, we are here to help. We also have an active and engaging peer mentorship program, the Algoma Student Ambassador Program, that partners a new student with an upper year student, fostering lifelong friendship and support from fellow-students.

THE WORLD IN ONE CLASSROOM

Within one classroom at Algoma University, you can experience a glimpse of what the global marketplace encompasses: diverse worldviews with the goal of mutual understanding. Whether it be on the topic of economics, music, literature, geology, environmental sciences, or software development, you will wrestle with topics and negotiate ideas that will challenge your thinking, develop your skills, and prepare you for your future, whatever it might hold.
