76

Scholarships & Financial Aid

We are #1 in scholarships in Canada and the best investment you can make in your future.

A note to the reader

Today is proof that the future is impossible to predict. When Trent was founded over 50 years ago, the University experience looked different than it does today. But while the future isn't something to predict, we believe it is something to shape.

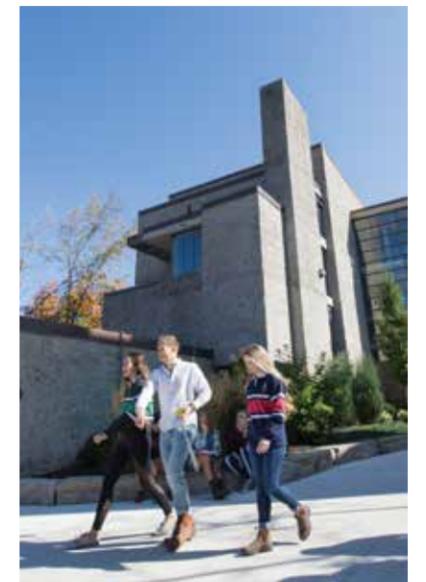

Whether you are exploring Trent University as an on-campus option, virtual opportunity, or a combination of the two, know that your experience will be grounded in our dedication to learning. Our anthem, **Challenge the way you think**, is a call to discover your perspective, challenge it, rebuild it, and share it.

Together, we are a community of scholars grounded in diversity – brought together from around the world, with different ideas, and different inspirations. Individually, every Trent student is a symbol of opportunity. Every Trent student is given the opportunity to experience their education in a way that inspires them to grow and find meaning in their pursuits.

We don't know what tomorrow will look like, but we know it will be shaped by Trent thinkers.

OUR CAMPUS ON THE BANKS OF THE OTONABEE

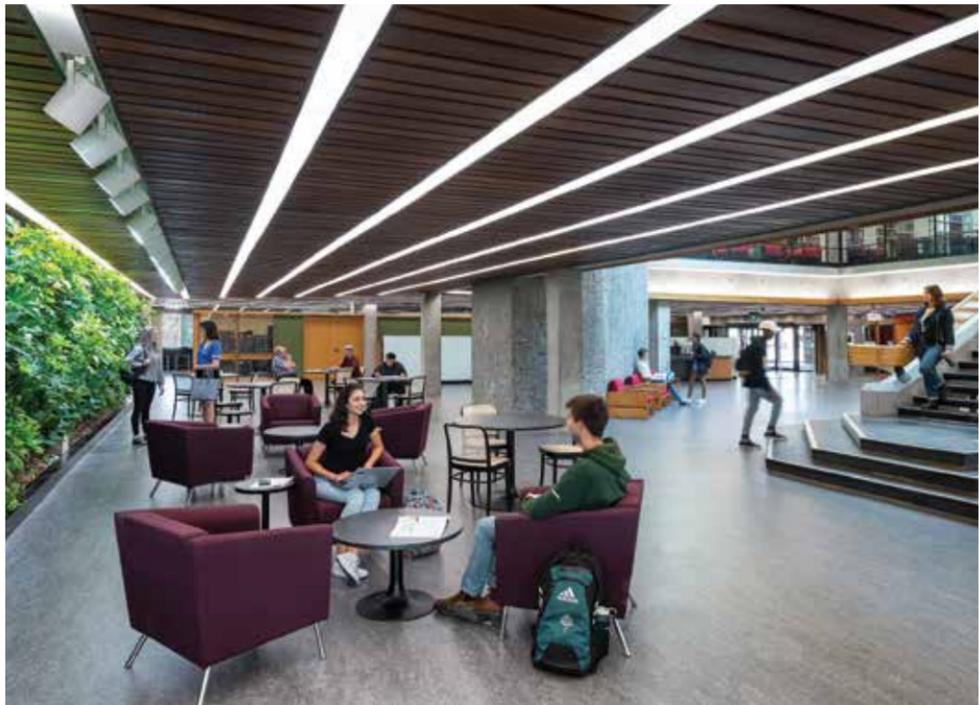

An interesting note about Peterborough: The Electric City

The City of Peterborough blends a thriving arts, culture, and entertainment scene with the breathtaking natural landscapes of the famed Kawartha Lakes region. This relaxed and friendly community offers the perfect backdrop for students who want both an ideal place to study and a chance to make lasting memories with new friends at the city's trendy restaurants, cafés, pubs, and festivals. Whether you're a nature lover, adventure seeker, foodie, or all of the above, Peterborough is a wonderful place to live, study, and gain valuable work experience.

Separated by a river, joined by a bridge, Trent's Peterborough Campus is a place of possibility, curiosity, and beauty. Our breathtaking campus provides a spectacular natural and architecturally-inspiring backdrop for tomorrow's groundbreaking ideas.

Just 90 minutes from downtown Toronto, Trent's Peterborough Campus offers an impressive range of academically rigorous programs across the arts and sciences, as well as professional programs in business, law, medicine, the environment and more. Here, academic excellence combines with state-of-the-art facilities, opportunities to get involved and robust career experiences in a personal close-knit community to create a truly transformative student experience.

QUICK FACTS

- 8,753** undergraduate students
- 1,000** international students from **79** countries
- 1,400 acre** campus with **30 km** of hiking trails
- 12x per day** GO buses running from campus to Toronto
- 141,357** population of Greater Peterborough Area

OUR CAMPUS IN A DYNAMIC URBAN SETTING

At Trent University Durham Greater Toronto Area, your education unfolds on a personal scale.

One of the best student-to-faculty ratios of any university in Ontario combines with the extraordinary commitment of our professors to teaching undergrad students to set Trent University Durham apart. Learn from expert faculty using the latest in theory and practice in unique programs such as Logistics and Supply Chain Management, Communications, Child & Youth Studies, Journalism & Creative Writing and Policing & Community Well-Being. Benefit from a vast array of joint majors and innovative approaches to renowned programs such as Business Administration, Law, Psychology, Social Work, English, Sociology and Philosophy.

If you value a close-knit, scholarly community in a diverse, urban environment, Trent Durham is the vibrant university campus community you have been looking for. Spark your intellectual development with engaging instructors in small classes, and kick off your career with abundant hands-on career experience and opportunities to get involved.

A note about your new hometown

Home to the Trent Durham GTA campus, the City of Oshawa in the Durham Region offers the best of both worlds: a smaller community in the Greater Toronto Area, where Canada's largest and most culturally-diverse city provides endless placement and employment opportunities. Outdoor enthusiasts will appreciate the Region's natural beauty, greenbelt and extensive network of trails. You can also enjoy sports facilities, premier shopping centres and a thriving arts and entertainment scene. For students who want to be close to the action while enjoying the charm of a close-knit community, the GTA is the ideal place to live, learn and thrive.

QUICK FACTS

- 1,632** undergraduate students
- Brand new** student residence & academic building opened 2020
- 40 mins** to Union Station in Downtown Toronto
- 130+** parks and trails in Oshawa
- 645,862** population of Durham Region

VIEWS

Sense of place. Sense of possibility.

At Trent, there is something revolutionary about how we look at the world around us. Discover an appreciation for award-winning architecture; experience the power of state-of-the-art research facilities. And feel the connection to our land by walking through our campuses.

When you find your favourite outdoor study spot, work side-by-side with your prof in one of the world's leading labs or research centres, and collaborate with fellow students on your latest assignment over coffee in our cafés, you'll understand that here at Ontario's top undergrad university, the best experiences are all about balance. When you feel the energy of the people connecting with purpose and meaning, you'll understand you've found your place at Trent.

09

- 01 The home of leading academic programs, our close-knit Trent Durham GTA campus neighbours Canada's largest city.
- 02 Fireside chats with friends or profs in the Celie pub – this is just one of many dynamic spaces to socialize and study on campus.
- 03 The Student Centre – built for our students, by our students – is the heart of the Trent student experience.
- 04 The Bata Library at the centre of campus is both a library of the future and a true architectural gem.
- 05 Just imagine where in the world you could go as a Trent student studying abroad. Opportunities to expand your education are boundless at Trent.
- 06 In our new visualization labs, students engage with art and technology through new mediums, including VR and 3D printing.
- 07 No matter what the season, our campus is truly spectacular. Fall may be our favourite though.
- 08 On campus or in the community, hands-on learning and real-world experience are cornerstones of the Trent experience.
- 09 Our wind tunnel is just one of many state-of-the-art research facilities students have access to – starting as an undergrad.

THE COLLEGIATE Experience

Trent University is home to five, one-of-a-kind colleges – communities with distinct identities and diverse, passionate individuals, like you.

Five colleges. Five communities. One Trent.

Founded on the idea of self-discovery while providing a supportive community, the five colleges of Trent will form the social bedrock of your university experience.

The philosophy

"The philosophy which inspires Trent is based upon the conviction that education is, inescapably, an individual experience. This philosophy ... is reflected in the decision that Trent should be a collegiate university ... In this way, through the colleges, members of the University may be helped to preserve a sense of individual identity as the University grows larger, and to find richer personal associations and a greater measure of academic assistance than would otherwise be the case." Founding President **Thomas H.B. Symons**

Each college is run by a principal who leads a team of dynamic academic support staff offering personalized assistance for all students. From orientation to convocation, your Trent college will be there to support your educational journey.

Surround yourself with fellow thinkers from across the academic spectrum who will challenge your ideas, encourage your ambitions, and help shape your path forward. Housed in timeless architecture, the walls of Trent's colleges provide room to explore your ideas, build relationships, and find your community.

THE COLLEGES OF TRENT

World-class architecture, memorable mascots and time-honoured traditions: the colleges of Trent are the centre of the Trent student experience. Trent's colleges are more than residences, dining halls and classroom spaces. They are communities that promote learning, embrace diversity, and foster meaningful connections among students, faculty and staff.

Choosing your college

All Trent students, in all years, whether you live in residence or not, get to choose a college. Spend a little time deciding which college at Trent is right for you. We'll help you find your perfect fit.

Our Collegiate Community in Durham

The collegiate environment also extends into the GTA at our Durham campus, where all students are part of a close-knit community of scholars.

Otonabee College

At Otonabee College, we agree with the ancient saying that you cannot step into the same river twice – because it is always changing. OC students are known to lead change with heart. Their passion exemplifies the name of our river and our college – “the Otonabee” – an Ojibwe word meaning “the river that beats like a heart.” We honour the steady beat of the river and its impact on surrounding life with our vision for developing a strong sense of belonging and innovation.

MOTTO

Tempora mutantur nos et mutamur in illis (The times are changing and we change with them)

MASCOT

Ottie the Otter

ARCHITECTURE

With its distinctive red roof, intended to reflect the warmth of the community inside, Otonabee College was intentionally built to look to the horizon and over the river. Its position symbolizes how we can keep change in our fast-paced lives while honouring our hearts.

WHAT WE'RE KNOWN FOR

OCers take the lead in organizing two signature college events: the popular East vs West charity hockey tournament and the Last Lecture, where students, staff and alumni share words of wisdom with newest grads.

LIVING LEARNING COMMUNITIES

Forensics; Nursing

Gzowski College

Gzowski College is named after the distinguished Canadian broadcaster and former Trent Chancellor, Peter Gzowski. Adored by Canadians, he was most famous as someone who listened and welcomed conversation and diverse opinions. That makes it fitting that Gzowski College is housed within Trent's Enwayaang Building, an Anishnaabek word meaning “the way we speak together.” Indigenous knowledge is central to our spirit and influences our programming and collaborations with departments in our collegiate community.

MOTTO

Nendimowinan eniigaanbidegin zhidchigaadenoon nongwa (The minds of the future are made great today)

MASCOT

BAMM the Moose; students are members of our Gzowski “Bammily” (family!)

ARCHITECTURE

The Enwayaang building was designed to rest gently on the land, offer a respectful community and act as a beacon. The colours of the building are derived from the Anishinaabe medicine wheel. Affectionately called “the Big Cheese”, our building is known for its bright yellow colour, “Ochre Number 33.”

WHAT WE'RE KNOWN FOR

Field trips, craft fairs and community lunches held alongside guest lectures and workshops to support our students' academic development, career aspirations, leadership and sense of belonging.

LIVING LEARNING COMMUNITIES

Business; Endahying/Indigenous Leadership; Environmental Sustainability

Champlain College

At Champlain, the oldest college on the Symons Campus, we balance academic excellence with proud spirit. Our name recognizes Samuel de Champlain's travels through the region and is a symbol of close relations with Québec and the blending of cultures and traditions. Champlainers are known for an abundance of tradition and heart, together with values emphasizing active living and global perspectives.

MOTTO

Continue mes decouvertes (Continue my discoveries)

MASCOT

PAX, a six-foot beloved gorilla

ARCHITECTURE

Legendary Canadian architect Ron Thom designed Champlain. Our college buildings are renowned for their avante garde use of natural materials and traditional elements in modernist form. Walking through its winding paths and staircases, or through the courtyards or to the banks of the river, you'll feel how the architecture creates a feeling of community, takes inspiration from the natural environment, and provides a perfect backdrop for intellectual discovery.

WHAT WE'RE KNOWN FOR

Bon Temps Winter Carnival (Winter College Weekend) – broomball anyone?

LIVING LEARNING COMMUNITIES

Active Living; Global Perspectives

Lady Eaton College

At Lady Eaton College, tradition meets youthful passion in a welcoming, energetic community that bursts with “LEC” pride and the spirit of Gemütlich (feeling comfortably at home, welcomed by friends). Our namesake is a brilliant and inspiring Canadian, Lady Flora McCrea Eaton, who challenged us to “Have an open mind, trust, learn every day, and keep doing it as long as you live.” Creative, curious, warm – members of Lady Eaton College are known for their welcoming nature, their dedication to their studies, and their artistic flair.

MOTTO

Sapientia et Humanitas (Striving for wisdom and humanity in all that we do)

MASCOT

The toad, emerging from traditions formed in the early years of the college's opening

ARCHITECTURE

The LEC experience unfolds against a backdrop that is a triumph of modernist architecture, artfully designed to blend into the breathtaking natural environment surrounding it. Inside the colleges are remarkable spaces accented by hand-crafted fixtures and furniture from master architect Ron Thom.

WHAT WE'RE KNOWN FOR

We affectionately refer to the Dining Hall as “Toad Hall” and we are known for our Great Toad Hunt whose secret traditions have been passed on to LEC members for 50 years.

LIVING LEARNING COMMUNITIES

Creative Expressions; Leadership & Civic Engagement

Catharine Parr Trail College

#TrailWow! One of Trent's original colleges and the only college located in downtown Peterborough, Trail is a community of forward-thinking and creative “Trailblazers.” Named after nineteenth-century author and naturalist Catharine Parr Traill, our College is a student oasis situated five minutes away from the centre of Peterborough. The College feels like a small university within the larger university and that's the point. Here, students may lose themselves in their books, but they will never be lost in the crowd. A downtown hub, Trail is a place where students of all years of study congregate together to create an environment where diversity and blending of ideas thrive.

MOTTO

Nunc cognosco ex parte (Now I know in part)

MASCOT

The Happy Box...you know, because you're meant to think outside of it.

ARCHITECTURE

Trail College is designed with unique historic buildings, many built in the late nineteenth century and named for historic women of achievement. Trail also features Wallis Hall, designed by master architect Ron Thom.

WHAT WE'RE KNOWN FOR

Movies and media nights, musical and theatrical performances, guest speakers on history and law as well as the Writers Reading Series, featuring some of Canada's most prominent authors.

LIVING LEARNING COMMUNITIES

Trail to Law

REST YOUR MIND. FEED YOUR SOUL. MOVE YOUR SPIRIT.

If healthy minds and bodies lead to more productive thinking, Trent students are likely some of the most productive thinkers around. Health and wellness is built into our DNA.

At Trent, your residence is housed within the walls of your college and campus, providing you the room to relax, the spaces to think and the connections to make friends for life. Your culinary experience is inspired by the lands around you and flavours from afar – enjoy hyper-local farm to table options and cultural flavours from around the world. Stay fit and active by joining an intramural team, climbing the rock wall in the rec centre, or jogging alongside the Otonabee or Lake Ontario waterfront.

MOVE

Find Your Fit at Trent

Become a Trent student and automatically enjoy exclusive membership at state-of-the-art fitness and recreation facilities right on (or next to) campus.

In Peterborough, students have access to the ultramodern Trent Athletics Centre, offering cutting-edge indoor and outdoor facilities: Justin Chiu Stadium, North America's most advanced indoor rowing tank, 25m competitive pool, indoor climbing wall, fitness studios, beach volleyball courts, East Bank sports fields, and cardio loft and weight room, featuring spectacular views of the Otonabee River.

In Durham, your membership to all City of Oshawa recreation facilities includes the Civic Recreational Complex (right next door to campus) with access to an indoor soccer stadium, pool, aerobics studio, weight room, indoor track, tennis, squash and badminton courts.

Outdoor recreation more your style? At Trent you're in luck. Nature areas and networks of trails can be found at the doorstep of both campuses. Bike, stroll, play, run, hike. The options to get moving are endless at Trent.

DINE

Food that Fuels You

At Trent you have countless options to make the most of your flexible meal plan:

- Grab a bite on campus at one of our four college dining halls, featuring comfort food and on-the-go favourites, or at the cooperative vegetarian café, The Seasoned Spoon
- Pick up your favourite latte and snack at Starbucks
- Enjoy traditional pub fare at The Ceilie or The Trend
- Explore the tastes of Peterborough and Oshawa using your TrentUCard at a variety of local downtown restaurants

We value making a difference in everything we do, which is why we purchase fresh, local produce from Ontario farms (even using Trent's own Market Garden) and stock our dining halls with a selection of fair trade coffee, slow batch roasted exclusively for Trent University. We also have one of the most successful reusable ecotray programs in North America – just some of the reasons we are home to not one, but two, of Canada's only on-campus 3 Star Certified Green Restaurants.

Feeling gourmet? We serve premium meals once a month created by our very own Chef. Lobster, steak, prime rib... What are you craving?

And if you have specific dietary needs, we have you covered. Vegan, gluten-free, halal, nut and seed specifications – at Trent we cater to your tastes.

REST

The Trent College Residence Advantage

No matter where you live on campus, or which college you choose, the same transformational residence experience awaits you at Trent. Here in our college residences, a community of scholars becomes a society of friends.

YOUR SPOT GUARANTEED: Complete the application requirements by the deadline and we'll save you a room.

THE CHOICE IS YOURS: Choose from single, double or triple rooms, traditional and suite style... you can even choose your roommate!

FLEXIBLE DINING: Spend your dining plan dollars on campus or downtown, on everything from cafeteria-style food to vegan and international cuisine (read more on the previous page).

ALL THE AMENITIES: Wi-Fi, free laundry, fully furnished rooms... it's all right here.

SAFE & SUPPORTIVE: From dons and residence life coordinators to academic advisors and faculty mentors, our teams are here to help you make the most of your time at Trent.

Varsity & Athletics

The stories you'll tell

FIND YOUR *Community*

You don't just attend Trent. You become Trent—and Trent becomes a part of you.

Ask an alum about their time here and be prepared to clear your schedule. Like them, the stories (novels) told from your time at Trent will be meaningful, inspirational, and most importantly, unforgettable.

At Trent, academics are just the beginning of your university experience. Outside the lecture hall or lab, you'll find a community, club, group, or cause to engage with, explore your passions and discover yourself.

WITH 100+ CLUBS AND GROUPS TO CHOOSE FROM, WHICH ONE(S) WILL YOU DISCOVER?

01 Join the (Academic) Club

Complement your in-class experience as you build connections to other students in your program. Clubs like the Philosophy Society, the Society for Undergraduate Mathematics Students or the Trent University Geographical Society bring together like-minded students in spaces and activities to socialize and connect with leading faculty, too.

02 Explore Student Government

Your student association – the Trent Central Student Association (TCSA) or Trent Durham Student Association (TDSA) – not only provides pivotal services for students, by students, they also offer many opportunities to get involved on campus and in the community.

03 Make Cultural Connections

Looking to connect with the diverse cultures and experiences that come together at Trent? Clubs and groups like the Trent International Student Association, Trent African Caribbean Student Union and the Trent Southeast Asian Organization are great ways to get involved.

04 Unlock Career Aspirations

Do you have a keen entrepreneurial spirit? Or maybe you've always wanted to be a veterinarian? Clubs like the Trent Business Student Association, the Future Vet Club or the Trent Youth Entrepreneurship Society are great places for future-focused students to meet up.

05 Get Moving

From inner-tube water polo and dodgeball to yoga and dance, there are numerous clubs and activities to help you get active on campus, make new friends and have fun.

06 Learn to Lead

Our wide range of skill-building opportunities will help prepare you for variety of leadership roles. Become a peer mentor, orientation leader, club executive, or sign up for one of Trent's leadership certificate programs.

07 Expand your Hobbies & Interests

Whether you love anime or science fiction, grew up riding horses, have a passion for wildlife, or anything in between – there is a club for you at Trent.

Don't see a club or group that matches your interests? If what you're into is new to Trent, you're provided the means and encouragement to bring it to life.

MANY ATHLETES. ONE TEAM.

Compete with the best at the highest level of competition in university sport with the Trent Excalibur. Following a long tradition of athletic and academic excellence, Trent varsity student-athletes represent the green and white in the pursuit of championships, while learning and applying the important values of leadership, discipline and teamwork.

2019/20 Season Highlights

2019 OUA Patterson Cup Champions: Women's Lacrosse

OUA All Stars: Women's Rugby, Men's Rugby, Women's Lacrosse

Stories of Learning

The ways
you'll learn

DEGREES OF *Distinction*

*Personal. Purposeful. Transformative.
Your Trent experience awaits.*

Learning is Key, Questioning is Crucial

Trent is known for its flexible, interdisciplinary approach to learning and its commitment to real-world, hands-on experience, in the classroom and beyond. Here, students learn in small-group settings, giving you the opportunity to build strong relationships with our caring and committed faculty – gifted teachers who also happen to be top experts in their fields. Imagine what an edge this can give you when you're looking for a letter of recommendation in support of your career or academic next move.

Take advantage of the intimate class sizes, stellar labs and facilities, meaningful connections with your fellow students, and invaluable collaborations with your professors. Whether you prefer to study privately in the beautiful Bata Library, remotely from home, or with a group in a nearby coffee shop, we will support you with mentorship, tools, and experiences to reach your full potential.

Twenty-to-One

Picture yourself in a class of just 20 students and one professor in your first year of university. Yes, at Trent, it is possible. Critical Engagement (UNIV 1004H) is a small-class first-year university course offered in person and online that allows students in the humanities, social sciences and sciences to connect with a world-class professor and get to know peers – socially and intellectually – at a time when bringing learners together is more important than ever. Twenty-to-one is also the average ratio of students to faculty at Trent, so no matter what program you choose, you will never be a number here.

Get Hands-on in World-Class Facilities

One of the top water analysis labs in the world; a state-of-the-art forensics crime scene facility (also Canada's first certified zero-carbon building); the internationally-recognized Centre for Aging & Society; the first accredited nursing simulation lab at a Canadian university; a renowned wildlife forensic DNA laboratory; and a library of the future, home to an innovative makerspace and 3-D printers. Just imagine where you can learn at Trent University.

Go Virtual, Study Anywhere

Your laptop can be a virtual gateway to the Trent community, experience, and education. From fully-online courses and programs, to hybrid on-campus and virtual options, your Trent experience will provide you with access to everything you need to not only grow in your chosen academic field, but also connect with our circle of scholars. A personal education from anywhere.

PREPARE FOR YOUR *Tomorrow*

If you're looking for hands-on learning and real-world experience, look no further. Life lessons gained through experiential learning are paramount to the Trent experience. In fact, here at Trent, **every student is guaranteed to have meaningful, purposeful, and recorded career-boosting learning opportunities** that will contribute to your success as you enter the workforce.

The best way to get experience is to go get experience. Here's how at Trent:

Work for Credit: Internships, Co-op and More

Students in nearly every program can earn academic credit in a variety of settings, including specialized internships or competitive co-op streams. In fact, *100% of our programs offer courses that feature an experiential learning component.*

Placements with Leading Organizations & Businesses

Our popular placement program coordinated through our School of Business, and open to students in all programs, gives students the opportunity to work and gain experience with some of the country's top organizations and businesses. Royal Bank, local hospitals, Ontario Power Generation, and Pepsico, are just a few. Many other programs at Trent also offer dynamic placements.

Make a Difference

Lead a project that makes a big impact with a community organization such as the New Canadians Centre, Peterborough Police Service, Youth Emergency Shelter, or Peterborough Green-Up.

Learn Alongside the Experts

Conduct hands-on research with leading professors and researchers starting as early as your first year – assist in an archaeological dig in Belize, study medieval texts or test samples in our Water Quality Centre.

Go International

Scale up your competitive edge as you incorporate international experiences with field placements, research projects, intensive language programs and internships. Take on a world of experience including opportunities to do business in Japan, teach in England or study marine life in Taiwan.

The Trent Careerspace Advantage

No matter what subject you study at Trent, we will help you relate it to your career success. By combining your academic subject and in-class learning with real-world hands-on experiences, we ensure all students are job ready upon graduation. Along the way, Careerspace at Trent provides you with resources, tools and supports to help you explore your passions and find your path. Resumé and cover letter writing workshops; mentorship opportunities; networking events; job search support; and one-on-one career development sessions. Careerspace offers it all.

STUDY, RESEARCH, GAIN EXPERIENCE ABROAD

Want to live your education in a global way? Study at Trent and explore the world through a study abroad experience. Choose from a formal exchange with more than 50 partner universities or design your own experience in one of 35 countries worldwide.

Year Abroad

Master a new language, or gain career experience (and study too!) through a volunteer placement or internship. Studying abroad allows you to experience other countries, cultures or languages up-close and first-hand.

Academic Summer Field Courses

Academic credit for a summer abroad? Yes please! Explore environmental issues in the Mediterranean Marine system, earn credit on an archaeological dig in Greece, learn about Indigenous culture in Mexico, or study pink dolphins in Taiwan. The opportunities for these shorter-term courses are nearly limitless.

International Placements and Internships

Gain international knowledge and cultural insight, all while developing your career prospects overseas. Whether it's for a couple of weeks or a summer term, Trent can help you get international work experience.

Exchange Programs

It's a simple swap: spend a semester or year at another university and a student from that school will come to Trent. If our exchange program doesn't offer the destination you want, we'll help you set up a personalized study-abroad opportunity at the school of your choice.

TRENT HELPS YOU TAKE FLIGHT

Worried about the cost of studying abroad? Trent's bursaries, awards, and prizes can all be used towards funding this once-in-a-lifetime study experience.

A TRULY INTERNATIONAL CAMPUS EXPERIENCE

Trent International brings the world to Trent and Trent to the world. Our vibrant international learning community is made up of students from around the globe, all coming together to study and learn. Whether you're from Peterborough or Paraguay, you have plenty of opportunities to get involved and engaged in global discussions with people from around the world – right here on campus.

"To anyone considering studying abroad as part of their degree, I can't recommend it enough. The opportunity to study across the world while still working on your degree is incredible! It has given me new perspectives, ideas and opinions about the world, myself and my field of study."

Nicole Boere, Environmental & Resource Studies and Sustainable Agriculture & Food Systems joint major; spent a year studying abroad in the U.K.

Hello
World

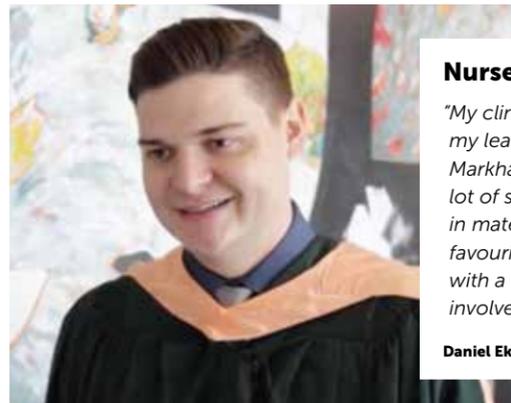

STORIES OF Learning

The Road to Rhodes

Following in the footsteps of presidents, prime ministers, scientists and world business leaders, Trent's **Joshua Low** is our most recent Oxford University Rhodes Scholar – the oldest and most celebrated international fellowship award in the world. An International Development Studies and International Political Economy grad, Joshua attributes part of his success as a recipient of the coveted scholarship to the personalized learning environment at Trent and the academic rigour of the IDS program.

"At Trent, professors care about you both personally and intellectually. Studying international development, I have loved the intellectual challenge and the tight knit community of the program. My time at Trent has been very meaningful for me and full of many key experiences and cherished friendships."

Nurse your education to a fulfilling career

"My clinical placements were fantastic; they were where I did most of my learning. I did clinical placements at PRHC, Ross Memorial Hospital, Markham-Stouffville Hospital and Sunnybrook Hospital. I worked with a lot of surgical patients for the majority of my placements. I also worked in maternity, community placements, and complex continuing care. My favourite placement was probably at Sunnybrook for neurosurgery. I worked with a lot of post-op patients and spinal decompressions. Being active and involved helped me get the most out of my Trent experience."

Daniel Ekker, recent Bachelor of Science in Nursing graduate

Beyond the numbers

"In the summer after my second year, I was granted an undergraduate student research award. It was just like co-op. I was able to work with my professor and gain skills in my discipline as well as learn a lot of things that I would be able to use in my upper-year courses."

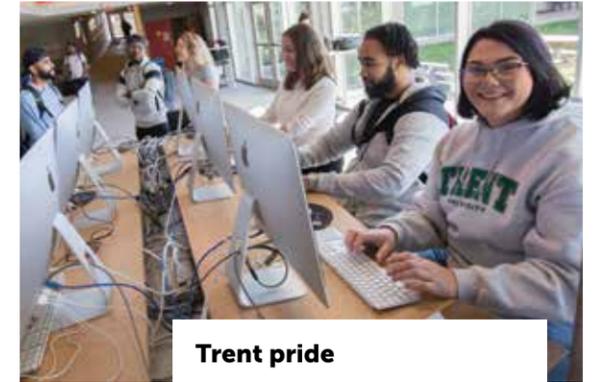

Mathematics grad **Melissa Vanbussel** had many hands-on experiences during her time at Trent. In addition to her research experience, she was also part of a small group of students to go on a field trip to Cornell University where they conducted real-time research at one of only six synchrotrons in North America.

Learn more, do more, grow more

"Trent changed my definition of what learning is. I remember a Computer Science/Business class when the professor arranged for us to have an online question and answer session with the creators of a quiz we had all taken. Previously we had only looked at the test as something to complete; we never really thought of what went on behind the curtains. This experience really demonstrated to me the importance of accounting for everyone's perspective. It's a lesson I use now in my personal life too. Now I look at everything I do as a chance to learn more."

Abhishek Nigam, international student from India studying in the School of Business pursuing a B.B.A. with a specialization in Information Systems and E-commerce

Trent pride

"After two years at Trent University, I have worked with staff who genuinely love to see our student body thrive. I'm constantly surprised by how many friendly faces I see on campus, and how much professors care about each of their students. I was always told that when I came to university I would be a number, but this couldn't be further from the truth at Trent. Since coming here I've discovered the person I want to be and made friendships that will last for a lifetime. To say I am proud of my university would be an understatement."

Kayla MacDonald, Trill College, Philosophy student pursuing an option in Applied Ethics

Getting involved leads to getting to know yourself

"Trent was just the place to break out of my shell and start to learn who I really was. I had an amazing orientation experience, loved my residence experience, joined three clubs and groups, and became an orientation leader. An extra bonus, we won the Great Race last year! Trent presented me with work opportunities, volunteer opportunities, a great education, friendships and connections that will last me a lifetime. Trent was exactly what I pictured and exactly what I needed."

In addition to being a proud LECer and orientation leader, **Tyanna Craig** is also a member of the Trent synchronized swimming club and the Trent Marketing Association.

A voice for Indigenous health

A uniquely focused degree in Biomedical Science with a minor in Indigenous Studies. A passion for community building and cultural revitalization. A vision for delivering quality health care for Indigenous peoples in Canada. These qualities of **Tonya-Leah Watts** led her to be honoured with a 2019 3M National Student Fellowship – a prestigious award given to only ten top college and university students in all of Canada.

"The majority of my life has been spent looking for ways to pursue my own dreams of promoting positive change for Indigenous peoples in Canada while encouraging others to do the same. I take the 3M honour as nothing less than a sign that I am headed in the right direction."

Choose to study in our arts, sciences, social sciences or professional programs – or any combination. Through access to world-class research facilities and connections with leading professors, you'll graduate from Trent ready to take on the world equipped with astute analytical skills, meaningful career experience and the ability to think outside the box. From here, you will find success in any path you choose.

A HANDY LIST OF ACADEMIC TERMS

DEGREES: Also known as “Bachelor’s degree” or “undergraduate degree”, this is the first level of study at a university, often a three (general) or four year (honours) program that prepares you for your future profession or the next step of your academic career.

Browse our degree programs on pages 42 to 69.

MAJOR: The primary area of study within a degree program, a major involves intensive focus on a particular discipline.

MINOR: An optional secondary field of study that can be related to or different from your major, a minor is usually selected after you begin your studies.

OPTIONS: Often referred to as “mini minors,” options are a prescribed set of courses in a discipline outside of your degree. These specific areas of study can be completed alongside almost any undergraduate degree program. A unique focus to your degree provides you with a distinct advantage in the career of your choice.

Explore your options on pages 70 and 71.

SPECIALIZATIONS: Distinguish your degree by adding a specialization and gain deeper understanding of your chosen discipline. Adding a specialization shows future employers or graduate schools that you’re focused and interested in becoming an expert in your field.

See specializations listed under related degrees.

DIPLOMAS: Diploma programs are a great choice for enhancing your broad-based knowledge. They can be completed in 12-24 months, and often lead to a degree program.

Discover your path to a diploma by reviewing our program pages.

POST-GRADUATE CERTIFICATES: These certificate programs are designed to complement the skills and knowledge acquired through the completion of an undergraduate degree to boost your professional skills for in-demand fields.

Learn more about post grad certificates on pages 58 and 62.

 Bachelor of Social Work (B.S.W.)
 Bachelor of Science in Nursing (B.Sc.N.)
 Bachelor of Education (B.Ed.)

ANCIENT GREEK & ROMAN STUDIES (B.A.)

Immerse yourself in the world of Ancient Greece and Rome. This program allows students to step back in time to examine the everyday life, arts and culture, politics and power structures of the Ancient Mediterranean. Dive into topics like human creativity, cultural heritage and religion. Gain a greater understanding of how the military might and democratic ideals of ancient people shaped our modern systems. As an AGRS student, you will come to understand your own humanity and identity by analyzing antiquity.

The Trent Advantage

Delve deep into the history, literature and material culture of the ancient Mediterranean from 3000 B.C. to 650 A.D. taking courses based on the active research of accomplished faculty and scholars.

Resumé Boosters

- Get theatrical (either on stage or behind-the-scenes) with the Classics Drama Group as you bring an ancient Greek play to life (in English) for a live audience
- Travel to the Mediterranean and participate in an exciting archaeological fieldwork project – trips to Greece, Turkey or North Africa can be counted as credit towards your degree
- Be a champion for the classics as part of the Greco-Roman Enthusiasts at Trent, adding experiences to your record of involvement to help you land that job post graduation

Career Paths

Museum Curator; Archaeologist; Archivist; Naval Officer; Computer Programmer; Teacher; Editor; Library and Information Systems Specialist; Professor; Entrepreneur; Journalist

Popular Courses

The Trojan War; Gods, Heroes, Monsters; Latin; War in the Desert; Olympians and Gladiators

trentu.ca/futurestudents/agrs

Specialization

GREEK & LATIN

trentu.ca/futurestudents/greeklatin

Take your studies of archaeology, history, and literature even further by heading back in time to study writings by the original thinkers. Through language training in Greek and Latin, students pursuing a degree this specialization will be able to read foundational texts in their original formats and gain insight into the way these languages cascade into every field of study.

ANTHROPOLOGY (B.A. OR B.Sc.)

Are you curious about human societies and how they've evolved over time? This is the program for you. Anthropology is the study of humankind, from the earliest peoples to our contemporary digital society. Learn about different peoples, languages, and cultures from around the world and across time as you study the four principal fields of the discipline – archaeological, biological, cultural, and linguistic anthropology. Here, you'll explore the extraordinary variability in human adaptation, organization and belief systems, and discover the common circumstances that unite us.

The Trent Advantage

Learn from renowned experts and researchers in one of the most highly regarded Anthropology programs in Canada.

Resumé Boosters

- Get your hands dirty on a global scale through our archaeological field schools in Belize, Greece, or right here on campus in Ontario
- Explore the evolution of human beings as both physical and social creatures, from the first tool-makers to the modern global population
- Learn how to communicate more effectively by understanding other people's perspectives and priorities
- Study different cultures firsthand through a year abroad program in virtually any country – Ghana, Thailand, France... the choice is yours

Career Paths

Cultural and Heritage Consultant; Foreign Services Officer; Environmental Impact Assessor; Ethnographer; Forensic Anthropologist; Immigration and Human Rights Lawyer; Public Health Officer; Museum Curator

Popular Courses

Biological Anthropology; Contemporary Legends; Culture and Food; Ethnography and Culture; Forensic Anthropology; General Anthropology; Plagues and People; Culture and Mortality; Theories of Society and Culture; Virtual Worlds

trentu.ca/futurestudents/anthropology

ARCHAEOLOGY (B.A. OR B.Sc.)

Uncovering the ancient past can be a fulfilling pathway to your future. Study archaeology in one of the most diverse programs in Canada. Your studies will focus on the material history of human culture, studying artifacts, architecture,

and ancient environments. You'll learn the field methods and lab techniques used to examine physical evidence, as well as theories archaeologists use to understand the ancient cultures and past civilizations of the Americas, Europe, and the pre-Classical and Classical Mediterranean world.

The Trent Advantage

Join one of the largest and most esteemed archaeology programs in Canada, and learn from faculty experts who cross disciplinary boundaries, including the Canada Research Chair in Environmental Archeology.

Resumé Boosters

- Perform hands-on research (even during your undergrad degree!) in specialized on-campus labs for bioarchaeology, remote sensing and Geographic Information Systems (GIS), archaeozoology, and lithic and ceramic analysis
- Immerse yourself in the global community and engage with professors conducting ongoing research in the Arctic, Asia, Canada, Central and South America, and the Mediterranean and North Africa
- Spend a summer unearthing the past as you excavate and process the treasures of ancient civilizations through our summer field study experience in Greece
- Master the latest techniques of chemical analysis to better understand how humans interacted with past environments through the Trent Environmental Archaeology Laboratory

Career Paths

Archaeological Field Technician; Archaeologist; Archaeotourism Professional; Archivist; Cultural Resource Manager; First Nations Liaison Officer; Heritage Management Consultant; Laboratory Supervisor; Museum Curator; Teacher

Popular Courses

Archaeology I: Accessing the Past; Archaeology of Natural Disasters; Human Osteology; Egyptian Archaeology; Environmental Archaeology; Forensic Anthropology; Human-Animal Interactions; Mortuary Archaeology; Palaeopathology; The Trojan War

trentu.ca/futurestudents/archaeology

Specializations

ENVIRONMENTAL ARCHAEOLOGY

trentu.ca/futurestudents/enviroarchaeology

Become an expert in the intriguing relationships between past civilizations and plants, animals and even climate change

in this one-of-a-kind specialization. You'll gain hands-on experience applying geological, biological, and physical sciences concepts to archaeological field studies, expanding the extraordinary complexity of humanity's long-term relationship with our environment.

MEDITERRANEAN ARCHAEOLOGY

trentu.ca/futurestudents/mediterranean

Discover the complex and diverse history of human activity in the ancient Mediterranean. Move beyond the traditional study of the Classical world by exploring the cultures that preceded and developed alongside ancient Greece and Rome. You'll gain an appreciation not only for the rich and varied cultural landscape of this dynamic region, but also for the ways in which past human activities continue to shape our modern world.

ARTS, HONOURS (B.A.)

Looking to immerse yourself in critical thinking and idea exploration, but not sure which program interests you most? In Trent's Honours Arts path you can begin your first year expanding your horizons, engaging in discussion with faculty experts and exploring a few different areas of study before declaring a major or joint-major in second year. This first-year pathway gives students the flexibility to combine different disciplines and take courses from programs across the humanities and social sciences.

The Trent Advantage

- Develop your skills as a thoughtful, critical, and effective communicator through discussion-based lectures led by professors who are leading authors, artists, and researchers
- Become a creative problem-solver by studying across disciplines in the social sciences and humanities to explore different and complementary ways of thinking
- Get hands-on experience in courses that allow you to put your creativity to use at Trent, in the community, and beyond

Program Paths

Start in Honours Arts in first year and move into the humanities or social sciences program of your choice in second year – English, History, Economics, Anthropology, Media Studies, International Development... choose from 30+ B.A. degrees.

Popular Courses

Explore your interests by taking a variety of introductory first-year courses in virtually any arts discipline, including: Gods,

Heroes, Monsters; Introduction to the Integrated Arts; Making a Scene; Gender, Race and Popular Culture; Ten Days That Shook the World; Critical Thinking

trentu.ca/futurestudents/honoursarts

BACHELOR OF ARTS & SCIENCE (B.A.S.)

Knowledge in both arts and sciences is key to understanding and embracing the challenges and complicated issues of today's ever-changing world. As a top student whose intellectual curiosity is fueled by both science and the arts equally, you will be drawn to Trent's unique B.A.S. degree program by the chance to confront and compare differing ideologies by connecting the best of both worlds.

This broad yet focused degree enables you to explore a variety of scientific, social, and humanist perspectives, applying them to a range of diverse issues such as healthcare, climate change, human rights, and law. B.A.S. graduates are uniquely qualified for further studies at medical or professional schools, post-graduate study and research, or specialized careers in interdisciplinary and growing fields such as scientific journalism. Challenge yourself through the examination of multiple topics in the arts and sciences, exploring how these diverse subjects intersect in interesting and exciting ways.

The Trent Advantage

Get the best of both worlds, as you explore ideas in interactive labs and learning facilities where you can engage in lively discussion with faculty experts and fellow students. Choose your educational adventure as you enjoy more variety of choices than almost any other B.A.S. degree program in Canada.

Resumé Boosters

- Get hands-on in labs and think critically as you cross disciplinary boundaries that prepare you for career success
- Gain professional experience performing and presenting independent research for the Arts and Science Colloquium
- Take advantage of several internship opportunities within one or more of your chosen majors
- Participate in a community-based research project with guidance from faculty members in a variety of disciplines
- Choose a single or double major and up to two minors to create a program and set of experiences as unique as you are – a bonus for any resumé!

Career Paths

Doctor; Scientific Journalist; Public Policy

Analyst; Teacher; Filmmaker; Civil Servant; Business Consultant; Publisher; Politician; Medical Expert; Lawyer

Popular Courses

Human Anatomy; Documentary Film; Science Fiction; Game Studies; Truth, Lies & Storytelling; Biomedical Ethics; Sociology of Health & Illness; The Writing Life; Speculative Fiction & Literature; Critical World Building; Environmental Art

trentu.ca/futurestudents/bas

B.A.S. to Medical Sciences Pathway*

Looking to tackle some of the largest health and social issues of our time? A unique new pathway between Trent University and Swansea University in the UK will help you reach your goals. It starts with two years crossing disciplinary boundaries in the B.A.S. program at Trent. Next, you will head across the Atlantic to complete a Bachelor of Science (B.Sc.) Honours degree at Swansea University in the UK in one of their dedicated medical pathway programs in Applied Medical Science, Medical Pharmacology, or Population Health and Medical Science. From there, successful grads are guaranteed an interview into Swansea's prestigious School of Medicine. High-achieving students in this program also have the option of completing a graduate degree at Swansea, transferring to a Master of Science in Medical Biochemistry or Medical Genetics.

trentu.ca/bas/swansea

*pending approval

BIOCHEMISTRY & MOLECULAR BIOLOGY (B.Sc.)

Life is diverse, but all life shares a common heritage at the molecular level. What are these common features and how does diversity arise? How do we use this information to advance our knowledge further and to meet our needs in health, the economy and the environment? The study of Biochemistry & Molecular Biology investigates these fundamental questions and more by exploring how molecules work in living systems and learning about a wide range of chemical and biological disciplines. In this program, you'll achieve a robust and comprehensive understanding of the processes that control and mediate health, illness, reproduction, growth, and ultimately life itself.

The Trent Advantage

Gain valuable hands-on experience in our state-of-the-art research laboratories through summer work positions, thesis projects for course credit, or volunteer work.

Resumé Boosters

- Gain advanced access to top notch lab and research facilities
- Learn alongside research experts and explore unique undergraduate hands-on research opportunities across a wide range of topics including gene expression, applied enzymology, biomaterials, characterization of biomolecular structures, and more
- Conduct experimental research toward completion of a specialized thesis in hands-on project courses
- Present results from Honours thesis research projects in undergraduate conferences such as Ontario Biology Day and the Southern Ontario Undergraduate Student Chemistry Conference

Career Paths

Molecular Biologist; Biochemist; Biomaterials Chemist; Genetic Counsellor; Food Chemist; Drug and Therapeutics Researcher; Microbiologist; Virologist; Physician; Dentist; Veterinarian

Popular Courses

Biochemical Concepts; Molecular Biology; Cell Biology; Microbiology; Protein Chemistry & Enzymology; Metabolism; Bioinorganic Chemistry; Immunology

trentu.ca/futurestudents/biochem

Specialization

HEALTH SCIENCES

trentu.ca/futurestudents/healthsciences

The Specialization in Health Sciences is ideal for students who are interested in a career related to healthcare or health-related research. This specialization allows students to select a program of study from a subset of courses related to health and other medically relevant topics. Students also have the option of completing a health-based research thesis project in Biology or Biochemistry.

BIOLOGY (B.Sc.)

Biology is central to comprehending today's most pressing concerns, from managing the spread of infectious diseases to sustainably feeding a planet of more than seven billion people to revitalizing biodiversity in habitats around the world. Explore the fascinating interconnectedness among living things while exploring practical applications in agriculture, medicine, biotechnology, environmental protection, and conservation. In collaboration with expert faculty, researchers and scientists, you will study and develop career-ready skills in cutting-edge labs.

The Trent Advantage

Explore life as you get hands-on in the state-of-the-art Life and Health Science Building, within the greenhouse and in field placements alongside faculty mentors who provide undergraduate researchers with opportunities to find answers to their most intriguing questions about the living world.

Resumé Boosters

- Undertake multiple internship or placement opportunities in Conservation Biology, Health Sciences or Medical Sciences with collaborating organizations such as the Ministry of Natural Resources and Forestry, Parks Canada and conservation authorities
- Take immersive field courses held in Canada or around the world, through the Ontario Universities Program in Field Biology
- Apply skills and research methods that you will learn in lectures, labs and fieldwork to our planet's most significant biological challenges in wildlife conservation, and health sciences
- Pursue opportunities to undertake and lead your own independent research project

Career Paths

Fish and Wildlife Technician; Bioinformation Specialist; Biomedical Sales Representative; Conservation Biologist; Genetic Counsellor; Zoologist; Toxicologist; Veterinarian; Physician

Popular Courses

Pathophysiology of Disease; Epidemiology; Immunology; Infectious Disease Biology; Biology of Invasions; Species-at-Risk Biology and Policy

Accelerated Masters

Earn your M.Sc. in Environmental and Life Sciences within one year of graduating with your honours B.Sc. in Biology.

trentu.ca/futurestudents/biology

Specializations

CONSERVATION BIOLOGY

trentu.ca/futurestudents/specialization/conservation-biology

With so many of the world's species currently at risk, there is an essential need for experts who are capable of creating innovative solutions to counteract the growing loss of wildlife and their habitat. At Trent you can study the important field of Conservation Biology to better understand solutions to worldwide declines in biological diversity. This specialization features an opportunity to complete a community placement and access expertise from regional, provincial and national agencies.

HEALTH SCIENCES

trentu.ca/futurestudents/specialization/healthsciences

The Specialization in Health Sciences is ideal for students who are interested in a career related to health care or health-related research. This specialization allows students to select a program of study from a subset of courses related to health and other medically relevant topics. Students also have the option of completing a health-related research thesis project in Biology or Biochemistry.

BIOMEDICAL SCIENCE (B.Sc.)

Trent's unique Biomedical Science degree combines the study of biology and medicine, and through local partnerships, gets students involved in medical research and healthcare experiences not typically experienced at the undergrad level. The result? Graduates who are engaged, connected and ready to take on and succeed in careers in health research and medicine. In this competitive program, you'll study a range of medical and health-related topics such as cell biology, anatomy, and biochemistry. You will also gain a better understanding of how the many levels and approaches to health and medicine are complementary, and will learn to apply these principles to assess and solve problems as they relate to real-world health issues.

The Trent Advantage

Trent's Biomedical Science program is the only one of its kind in Ontario and gives you the opportunity to step ahead in your future medical or health research career working alongside leading professors in world-class laboratories and facilities.

Resumé Boosters

- Gain valuable, real-world experience in a medical or health-care related setting through a capstone internship or placement courses – something that no other Ontario university offers in a four-year Biomedical Science degree
- Connect with a mentor and work alongside leading faculty in state-of-the-art research facilities, as well as healthcare professionals in the community
- Get hands-on through a placement in health sciences working with medical practitioners and health care providers
- Complete a fourth-year honours research thesis as you assess and analyze real-world health issues

Career Paths

Medical Researcher; Pathologist; Research Scientist; Geneticist; Neurobiologist;

Scientific Journalist; Physiotherapist; Podiatrist; Optometrist; Occupational Therapist; Audiologist; Paramedic; Optometrist; Pharmacologist; Physiotherapist; Cell Biologist

Popular Courses

Principles of the Nervous System; Critical Nutrition; Virology; Microbiology; Neuropsychology; Epidemiology; Developmental Biology; Immunology; Pharmacology; Pathophysiology

trentu.ca/futurestudents/biomedical

SCHOOL OF BUSINESS

Trent's prestigious School of Business offers all the advantages of a traditional Bachelor of Business Administration (B.B.A.), with several unique opportunities to help you map your own path. No matter how the journey unfolds, students in our Business programs develop into the versatile candidates that today's companies demand.

Six Ways to do Business at Trent

1. Bachelor of Business Administration (B.B.A.)

Focuses on economics, management, and entrepreneurship with a full slate of accounting courses to prepare you for the CPA or CHRP designation or as a launch pad to an M.B.A.

2. Business and Arts Joint Major B.A.

Combine business courses with any arts courses from English and Cultural Studies to Sociology and Economics.

3. Business and Science Joint Major B.Sc.

Combine business courses with any science courses from Biology and Psychology to Environmental & Resource Science and Computer Science.

4. B.B.A. with Specialization

Choose from Accounting, Entrepreneurship, Finance, Marketing and Consumer

Culture, Human Resource Management, Niigaaniwin: The Art of Leading, Economics, Ethics and Sustainability or Information Systems and E-Commerce.

5. Law & Business (LL.B. & B.B.A.)

Earn your business degree and your law degree, and gain international experience, all within six years in this unique dual degree program. Learn more on page XX.

6. Business Administration Minor

Combine business as a minor with any other arts or science major – if you can imagine it, you can do it in business at Trent.

BACHELOR OF BUSINESS ADMINISTRATION (B.B.A.)

You want to become an innovative leader or entrepreneur. No other program will help you reach your career goals better than Trent's exemplary Bachelor Business Administration. By examining a range of contemporary business models, from corporate and online to small business and self-employment, you'll learn the fundamentals of leadership and management, gaining a deep understanding of the organization of business and its role in today's ever-evolving and highly-digital world.

The Trent Advantage

In business, it's all about connections. Build your network and tap into the knowledge and expertise of a dedicated community of business leaders and mentors as you prepare for your CPA or CHRP designation or springboard to an M.B.A.

Resumé Boosters

- 100 hours of hands-on professional experience completing placements with diverse companies and organizations
- Gain leadership experience as part of the Trent Business Student Association – a student-run organization that creates engaging and career-ready experiences for Business students.
- Leave your mark at Trent through a fourth-year legacy project or undertake a community-based research project with local businesses
- Benefit from a new partnership with Aspire, linking you directly to work placement opportunities in the financial services sector
- Connect with forward-thinkers in

the new Entrepreneurship and Social Innovation Centre and access supports and work placements to transition successfully to the competitive workforce

- Sharpen your entrepreneurial skillset as you take part in a hands-on exercise on new venture planning and design or compete in local and national business competitions, including Jeux du Commerce, Pitch It, Durham Ideas Den, and Cubs' Lair
- Network with industry experts and organizations through Global Entrepreneurship Week events and by connecting into local Chambers of Commerce in Peterborough and Durham

Career Paths

Accountant; Human Resource Manager; Market Researcher; Financial Analyst; Retail Strategist; Investment Banker; Consultant; Indigenous Business Officer; Entrepreneur; Labour Relations Specialist; Fundraising Manager

Popular Courses

Management Skills; Entrepreneurship; Financial and Managerial Accounting; Leadership, Training and Development: A Cross-Cultural Approach; Branding; Advertising; Business Ethics and Corporations; Introduction to Retail Marketing

trentu.ca/futurestudents/businessadmin

Specializations

ACCOUNTING

trentu.ca/futurestudents/accounting

Making sound decisions. Managing business growth. Creating short-term and long-term strategies. Each of these things (and more) are rooted in a sound understanding of accounting. This specialization allows students to gain a thorough understanding of accounting and prepare for a potential future as a Chartered Professional Accountant (CPA).

ECONOMICS

trentu.ca/futurestudents/econ

Students can choose to excel with a specialization in Economics. Understand both the strong and subtle forces that shape our global markets and financial systems. With this specialization, you bring theories and techniques to life, and explore how they work in business. Hone your skills as a creative and innovative business change maker, and explore a range of topics in micro and macroeconomics, and international finance.

ENTREPRENEURSHIP trentu.ca/futurestudents/entrepreneurship

For highly-innovative Business students, the Entrepreneurship specialization is an excellent avenue for exploring an independent path in business leadership and enterprise. Learn how to plan and build your own business, develop online marketing strategies, and shape your ground-breaking ideas into a viable and thriving business.

ETHICS & SUSTAINABILITY trentu.ca/futurestudents/sustainability

Business headlines today often include news of companies compromising ethics in favour of the bottom line. With the private sector having a big influence on people's livelihoods, the world needs business experts who can guide moral decision making. In this important specialization, B.B.A. students gain a foundational knowledge of social and environmental ethics as they relate to business, equipping them with the tools needed to transform the corporate world for the better.

FINANCE trentu.ca/futurestudents/finance

Graduate with the training and knowledge needed to understand how to manage money, investments, and assets. This specialization provides B.B.A. students with a strong foundation in financial planning, investment management, and corporate finance.

HUMAN RESOURCE MANAGEMENT trentu.ca/futurestudents/hr

Few businesses can succeed without a skilled, happy, and healthy workforce, making human resources professionals an invaluable and in-demand asset to any team. This practical specialization will provide business students with the skills necessary to effectively manage people, while also satisfying course requirements for the Certified Human Resources Professional Designation.™

INFORMATION SYSTEMS & E-COMMERCE trentu.ca/futurestudents/ecomm

In today's digital business world, those who become experts in harnessing the potential of information technology will be a step ahead. By completing this specialization, B.B.A students gain the knowledge and

experience to become an e-business entrepreneur, digital consultant, or a top employee in marketing, human resources, or finance operations.

MARKETING & CONSUMER CULTURE trentu.ca/futurestudents/consumerculture

Almost 200 new businesses are started worldwide every minute. With specialized expertise in marketing, you can play a significant role in helping businesses – new and old, big and small – thrive as products and services continuously enter the marketplace. This specialization equips you with the knowledge and understanding to effectively reach your future customers. Learn techniques and best practices in consumer behaviour and decision making, leverage digital platforms to spread your message, and master social media for enterprises – all to successfully reach and build relationships with your target audience.

NIIGAANIWIN: THE ART OF LEADING trentu.ca/futurestudents/niigaaniwin

This specialization brings together today's business practices and Indigenous knowledge and ideologies, developing students' ability to work with mindfulness and agility in the 21st-century business environment. Business majors have the unique opportunity to connect to their business education with a knowledge of lessons learned through the history of Indigenous economic development.

BUSINESS & ARTS (JOINT MAJOR B.A.) BUSINESS & SCIENCE (JOINT MAJOR B.Sc.)

Gain a competitive edge on the job market after graduation as you pursue your passions with a unique degree that combines your interest in business with other areas of study across the arts or the sciences. What drives you?

The Trent Advantage

Study at the only university in Canada to offer a wide range of joint majors in Business Administration for more career choice and flexibility.

Resumé Boosters

- Gain hands-on experience through the Business Administration placement program, internships and fourth-year

business legacy project

- Build professional business skills while delving into the diverse knowledge across disciplinary boundaries in programs and disciplines. The result? A degree as unique as you are

- Benefit from joining a community affiliated with the United Nations Principles for Responsible Management and Education

Popular Business Joint Majors

- Business & Psychology
- Business & Media Studies
- Business & Computer Science
- Business & Information Systems
- Business & Forensic Science
- Business & Political Studies
- Business & Environmental Resource Studies
- Business & International Development Studies
- Business & Economics

SCHOOL FOR THE STUDY OF CANADA

As the first university in Canada to establish a Canadian Studies program, Trent is a leader in developing a greater understanding of the diverse and often contested meaning of the Canadian experience. Home to over 40 Canadian Studies scholars and experts, the School for the Study of Canada provides a platform that challenges students at all levels of study to explore issues of relevance to Canada, and debate what it means to be Canadian.

CANADIAN STUDIES (B.A.)

How did Canada become the country that it is today, and what does it mean to be Canadian? Explore issues of relevance

to Canada's past and present through a critical examination of themes such as the environment, nationalism, indigeneity, diversity, and immigration. Canadian Studies will offer you unparalleled insight into the life and history of Canada and the role it plays in the world today.

The Trent Advantage

Canadian Studies was born at Trent. Study in the School for the Study of Canada at one of the first universities in the country to establish a Canadian Studies department.

Resumé Boosters

- Undertake a community research project with local museums, not-for-profits, and arts organizations
- Study alongside leading Canadian Studies scholars, many of whom are national and international experts in their field
- Participate in and learn from public lectures, seminars, and themed symposiums held on-campus throughout the year

Career Paths

Diplomat; Immigration Officer; Lawyer; Policy Analyst; Public Policy Officer; Elections Campaign Manager; Journalist; Teacher; Politician; Historian; Public Administrator; Foreign News Correspondent; Labour Relations Specialist; Biographer

Popular Courses

Conflicted Canada; Histories of the North; Canada: The Land; Global Canada; Local Lives: Everyday Dimensions of Canadian Life; Gender and Disability in Canada ; Documenting Canada, Canadian Women's Writing

Diploma in Canadian Studies also available

trentu.ca/futurestudents/canadianstudies

CHEMICAL ENGINEERING DUAL DEGREE (B.Sc. & B.ENG.)

Simultaneously earn both a B.Sc. and B.Eng. degree in just four years through a career-boosting partnership between Trent University and Swansea University in the UK. In this rewarding integrated dual degree, students spend the first two years studying Chemistry at Trent, gaining experience in modern experimental and theoretical chemistry, while using Trent's world-class lab and instrumentation facilities. From there, you'll head across the Atlantic to Swansea's picturesque seaside campus to complete a Chemical Engineering degree at one of the top 10 engineering schools in the UK.

Your Career in Engineering Starts at Trent

This professional degree crosses the boundaries between fundamental science and applied engineering, getting you ready to design, operate and optimize chemical and physical processes, turning raw materials into valuable products for human use. Your studies will focus on established chemical engineering areas with application to energy, health, food, water, and the environment.

The Dual Degree Advantage

Graduate with both a B.Sc. in Chemistry from Trent and a B.Eng. in Chemical Engineering from Swansea in just four years. You can even apply to Swansea's Masters in Engineering, adding just one more year to the program – an option available to top students in their third or fourth year at Swansea.

Resumé Boosters

- Globalize your degree by studying in Canada and the UK with expert researchers, state-of-the-art-facilities and inspiring campus communities
- Option to apply, though a competitive process, to complete a 12-month paid Year in Industry placement in the UK, which may be counted towards the 48 months of work experience needed to acquire your P.Eng. licence in Canada. Assessment of experience may vary depending on requirements for individual licensing bodies.
- Gain hands-on experience in engineering through summer engineering placements (uniquely available to students in the dual engineering degree) at Swansea
- Join the 97% of program graduates employed within six months of graduating

Career Paths

Chemical Engineer; Energy Manager; Analytical Chemist; Refinery Chemical Engineer; Petroleum Engineer; Product/Process Development Scientist; Mining Engineer; Technical Plant Manager; Applications Engineer; Wellsite Drilling Engineer

trentu.ca/futurestudents/engineering

CHEMICAL PHYSICS (B.Sc.)

From the medicines we take to the materials we make, Chemical Physics concerns the why and the how of matter in the world around us. As a student of Chemical Physics, you'll explore the physical and chemical properties of everything from an atomic perspective. Investigating the interactions of matter

with a telescoping view from the atomic, molecular, and solid state you'll master the techniques required to develop an understanding of the fundamental principles of our physical and chemical world. Balance theory and practice with unique opportunities to conduct hands-on research with world-class professors.

The Trent Advantage

Benefit from Trent's interactive small-group classes and labs, as well as mentoring from award-winning Chemistry and Physics faculty.

Resumé Boosters

- Conduct hands-on research as a student research assistant in leading-edge labs and facilities and work with advanced instrumentation including spectrophotometers, scanning laser microscopes, mass spectrometers, and biomaterials characterization tools
- Develop your own research through a project course spanning one or two semesters in your fourth year
- Put your advanced knowledge and skills to the test, preparing you for employment or graduate studies in science, technology and engineering

Career Paths

Chemical Physicist; Climate Modeller; Biophysicist; Electron Microscopist; Electronics Developer; Nuclear Scientist; Materials Researcher; Patent Lawyer; Teacher

Popular Courses

Quantum Mechanics and Reaction Kinetics; Thermodynamics; Photochemistry; Electricity and Magnetism; Modern Optics

trentu.ca/futurestudents/chemphysics

CHEMISTRY (B.Sc.)

Get up-close and personal as you explore the world from a molecular level and beyond. Studying Chemistry at Trent allows you to gain experiences in the lab and engage with leading experts in the chemical sciences. An intellectually challenging and rewarding subject, Chemistry prepares you to look at the world differently. You'll learn about fundamental discoveries in chemistry, while making discoveries of your own as you gain experience in modern chemical research, experimental design and technical laboratory skills.

The Trent Advantage

Study in a program accredited by the Canadian Society for Chemistry and benefit from direct access to world-class

labs and instrumentation facilities at the undergraduate level.

Resumé Boosters

- Assist in research projects with experts who are as engaged in active research as they are in the classroom
- Gain experience working with specialized equipment for modern experimental and theoretical chemistry
- Get involved as a member of the popular Trent Chemistry Undergraduate Society, which provides peer tutoring and builds community among faculty and fellow students

Career Paths

Chemist; Research Scientist; Pharmacist; Geneticist; Food and Drug Inspector; Pollution Controller; Medical Doctor; Veterinarian; Quality Control Manager; Toxicologist; Patent Examiner

Popular Courses

Green Chemistry; Analytical Chemistry; Biochemical Concepts; Atmospheric Environmental Chemistry; Molecules of Murder; Modern Organic Synthesis; Polymeric Materials; Photochemistry

Accelerated Masters

Get a head start on taking your academic experience to the next level, by earning your M.Sc. in Environmental & Life Sciences in only 12-16 months after graduating from your honours B.Sc.

trentu.ca/futurestudents/chemistry

CHILD & YOUTH STUDIES (B.A.)

The Child & Youth Studies program focuses on the different ways children learn and develop. Knowledge gained from lively and interactive in-class discussions are complemented and enhanced by opportunities to gain hands-on work experience with community partners. You'll gain essential expertise in understanding the child and youth experience through exploration in emotional and cognitive development, relationships and social interaction, diversity and social justice, laws and rights, and teaching and programming. This interdisciplinary approach to learning helps prepare you for a variety of careers connecting you with your future goals.

The Trent Advantage

Get a head start on a teaching career with a direct pathway into Trent's Bachelor of Education (B.Ed.) program. A number of guaranteed spaces are reserved for Child & Youth Studies graduates.

Resumé Boosters

- Complete a community placement, working with health centres, cultural

centres, community agencies, group homes, or youth programs

- Take part in workshops that explore important topics like the importance of imagination as portrayed through the cultural environment of children
- Expand your learning through courses that encompass a wide range of disciplines – this breadth of knowledge will help you find a meaningful and impactful career
- Undertake an undergraduate independent research thesis or research practicum and work one-on-one with award-winning faculty – this translates into solid references for grad school or your jobs after graduation

Career Paths

Child Protection Worker; Teacher; Autism Specialist; Youth Outreach Worker; Counsellor; Social Worker; Administrator; Youth Program Developer; Researcher; Children's Rights Activist; Policy Analyst; Music/Play-based Therapist

Popular Courses

Child and Youth Theory and Voice; Playful Pedagogy; Child and Youth Rights and Legal Issues; Learning Through Arts; Imagination and Youth Culture; Indigenous Knowledge for Children and Youth; Children's Knowledge of Death, Dying and Bereavement

trentu.ca/futurestudents/childyouth

COMMUNICATIONS (B.A.) NEW

The ability to understand how we communicate with one another across multiple platforms is an integral part of our world. Trent's Communications degree offered exclusively at our Durham GTA Campus allows you to develop the skills and expertise you need to stand out in a competitive job market. The ability to think critically and responsively about the ever-changing media landscape, dominated by social media innovation, is a much-valued skill. Understanding the history of communication can assist you in shaping its future. A degree in Communications opens the doors for you to work in a broad range of career options enabling you to find a career in a field you are passionate about.

The Trent Advantage

Get career-ready as you work alongside faculty experts who will equip you with the key skills needed in the careers of today: in communication, critical thinking, and writing.

Resumé Boosters

- Make a difference in the local community through a final-year capstone project,

allowing you to develop and refine communications, team-building and critical thinking skills

- Take courses that teach high demand and long-lasting skills that help you manage complex projects, work well with others, and write clearly and persuasively
- Undertake hands-on projects (like podcasts and social media analyses) in courses that will also put your presentation skills to the test

Career Paths

Project Manager; Lawyer; Social Media Manager; Communications Strategist; Research Officer; Chief Information Officer; Content Creator; Development Officer; Public Relations Specialist; Entrepreneur

Popular Courses

Becoming Digital; Write in Time; Workplace Communication; Capstone Project Course

trentu.ca/futurestudents/commstudies

Specializations

BUSINESS COMMUNICATIONS

trentu.ca/futurestudents/businesscomms

The business world thrives on good communication. A specialization in Business Communications gives you the edge you need to effectively communicate ideas and messages across organizations and through multiple channels. Learn how to tailor your writing to your target audience, create strategies to effectively share ideas, and master the latest communications tools by specializing in this essential business skill.

MEDIA RELATIONS

trentu.ca/futurestudents/mediarelations

Love the idea of pitching stories to the media, or thinking strategically on how a brand is represented? Then a specialization in Media Relations is ideal for you. Learn to think critically about what you see and read as you discover a better understanding of how media is consumed. Create content that engages your audience and tells the story you want to share. Focus your studies on learning the key strategies needed for a successful career in media relations.

COMPUTER SCIENCE (B.Sc.) CO-OP / COMPUTING SYSTEMS (B.A.)

Society is in the midst of a technology revolution, which is fueled by the

advancement of knowledge in computing. The ability to create, manipulate, and speak the language of technology have become some of the most valued skills applicable to almost every industry. When you study Computer Science, you will be prepared to design, implement and integrate software applications for devices from supercomputers to game boards. This degree prepares you for a career that blends technology like databases, networks, and telecommunications, with elements of ethics, law and culture in the ever-changing tech sector.

The Trent Advantage

Get advanced use of the latest science and digital technologies, with assistance from professors who are experts in their fields.

Resumé Boosters

- Pursue the competitive co-op stream: graduate with 12 months of relevant experience through three paid work terms in the information technology industry, working with such employers as TD Bank, Shopify, and Canadian Border Services
- Work with real-world clients from industry, government, and education through a third-year internship course and fourth-year project course
- Undertake an undergraduate research thesis and investigate a specific field of interest with the expert guidance of your prof

Career Paths

Mobile App Developer; Database Administrator; Entrepreneur; Software Systems Developer; Network Systems Administrator; Data Scientist; Software Engineer; Computer Systems Analyst; Web Developer

Popular Courses

Web Application Development; Computer Crime & Forensics; Intro to Data Science; Project Management; Multimedia and Design; Computer Networks; Artificial Intelligence; Systems Programming; Computer Graphics; Human-Computer Interaction; Data Mining

trentu.ca/futurestudents/compsystems

Specializations

SOFTWARE ENGINEERING

trentu.ca/futurestudents/softwareeng

The world is becoming more digital every day. In this important specialization, students learn how to design and test the software that shape our lives and work towards becoming a leader in the tech industry. Through a focus on teamwork

and collaboration both in and out of the classroom, you'll gain the hands-on experience required to launch your career.

DATA ANALYTICS

trentu.ca/futurestudents/specialization/data-analytics

The field of data analytics has quickly become one of the most sought-after careers around the world. The efficient analysis of large scientific and retail datasets will require a generation of programmers, analysts, and developers who are familiar with techniques suitable for the analysis of large datasets. This specialization is a great way to build a solid foundation in data analysis techniques, including parallel programming, visualization, data mining and predictive modelling.

THEORETICAL COMPUTER SCIENCE

trentu.ca/futurestudents/compscience

This specialization is your all-access pass to understanding technology and the science behind it. Work one-on-one with your professors to explore and develop applications that manipulate the speed and power of digital computation, design new models of computation, and uncover new methods of problem-solving.

COMPUTER SCIENCE & PHYSICS (B.Sc.)

As the world becomes more dependent on digital technology and devices, demand for individuals with a deep understanding of the physical properties of the offline world is growing. Computer Science & Physics at Trent gives you the opportunity to apply the underlying principles of physics and mathematics to a whole wide world of subjects, including hardware and software interfaces, electronics, software design, networks, distributed operating systems. An understanding of leading-edge technology combined with a foundation in physics will help you answer questions about the particles and forces composing our universe, along with the rich complexities that arise through their interactions.

The Trent Advantage

Benefit from small-group lab work and develop a strong foundation for further education through graduate studies at the masters and Ph.D. level, and beyond.

Resumé Boosters

- Spend your summer gaining valuable experience assisting your prof with a

hands-on research project

- Take one of our advanced research project courses and apply what you've learned inside the classroom to the lab environment and beyond
- One-on-one learning with leading profs equals great references for grad school or your first career move

Career Paths

Database Administrator; Information Systems Specialist; Network Specialist; Research Scientist; Software Systems Developer; Software Engineer; Computer Systems Analyst; Web Designer, Data Scientist

Popular Courses

Computer Organization; Electricity and Magnetism; High Performance Computing; Introductory Quantum Physics; Modern Optics; Digital Logic; Statistical and Thermal Physics

trentu.ca/futurestudents/compphysics

CONSERVATION BIOLOGY (B.Sc.) CO-OP

Species are disappearing at a pace unprecedented in human history. Be part of the solution by becoming an expert capable of creating innovative techniques and tactics to counteract the growing loss of wildlife and their habitat. In Conservation Biology at Trent you'll study the science behind the decline of biological diversity to better understand the solutions to this worldwide crisis.

The Trent Advantage

In this program – the only one of its kind in Canada – gain hands-on, valuable career experience working with groups like the Ministry of Natural Resources & Forestry, Nature Conservancy Canada, Toronto Zoo, Parks Canada, and more.

Resumé Boosters

- Apply for the competitive five-year co-op stream for the opportunity to graduate with experience and complete three paid work terms with leading conservation organizations and agencies
- Choose the four-year placement option: spend the last eight months of your degree gaining practical, real-world experience in the field
- Get hands-on in our state-of-the-art, on-campus DNA research laboratories
- Benefit from the mentorship of unique combinations of experts in topics including large northern mammals, migratory birds and the impacts of humans on aquatic ecosystems

Career Paths

Species-at-Risk Biologist; Environmental Lawyer; Botanist; Research Scientist; Ecologist; Marine Biologist; Ecological Consultant; Conservation Manager; Veterinarian

Popular Courses

Communicating Conservation Biology; Biology of Invasions; Population Dynamics; Mammalogy; Ornithology; Herpetology; Advanced Ecology; Species-at-Risk Biology and Policy

Accelerated Masters

Fast-track your education, by earning your M.Sc. in Environmental & Life Sciences in only 12-16 months after graduating from your honours B.Sc.

trentu.ca/futurestudents/conservationbio

CRIMINOLOGY (B.A.)* NEW

Justice served is about so much more than crime and punishment. In Trent's new Criminology degree, you will gain a foundational understanding of the influence of social inequality as a cause of crime. Learning alongside faculty experts in Sociology, Law, Gender & Social Justice and Indigenous Studies, you will be able to apply your skills and knowledge to better understand the systems at play for both criminals and victims. In this hybrid-model program, students will study online and in person on campus. Students also have the potential to perform independent research on homelessness, the criminalization of women, as well as gain critical understanding of the realities of Indigenous peoples' and the criminal justice system.

The Trent Advantage

Gain critical and interdisciplinary understanding of criminalization and punishment, in a program that places critical focus on systemic oppression including the historical and contemporary realities of Indigenous peoples' victimization, over-criminalization, and over-incarceration.

Resumé Boosters

- Complete a full-year work placement with community organizations and agencies including Correctional Services Ontario, the Crown Attorney, Kawartha Haliburton Children's Aid Society, Elizabeth Fry Society, Canadian Mental Health Association, or Youth Emergency Shelter
- Familiarize yourself with case law research by learning from and working with practicing legal professionals
- Take a prison-based course that explores restorative justice in a real-world context

- Gain a solid foundation in legal research methodology and theoretical application that will prepare you for success in a variety of workplace settings

Career Paths

Civilian Crime Analyst; Police Officer; Youth Worker; Law Professional; Victim Service Worker; Corrections Officer; Policy Consultant; Border Services Officer; Community Development Worker; Crime Prevention Worker; Probation and Parole Officer

Popular Courses

Monsters & Misfits; Social Inequality; Families of Prisoners; Deviance & Social Control; Punishing & Policing Poverty; Criminalizing & Punishing Women; The Politics of Incarceration; Gender, Sexualities and the Law; Media & Moral Panics

trentu.ca/futurestudents/criminology

* Pending Ministry and Quality Assurance approvals

CULTURAL STUDIES (B.A.)

Cultural Studies is a deep, critical dive into our own culture, helping explain the hidden politics of everyday life. As a student in this program, you will gain the tools to critique and create cultural objects and practices – everything from games to graffiti, print to painting, and music to film. You'll study culture by reading, talking, and doing, taking lecture and workshop courses in literature, fine art, media, and theory. And you'll ask (and seek answers to) the questions about how culture shapes our lives, and vice versa.

The Trent Advantage

In this program, the only one of its kind in Canada, explore both theoretical and practical paths into visual arts, media, film, theatre, and music.

Resumé Boosters

- Gain work experience in fields like theatre, media and galleries through our fourth-year Internship in Media and Cultural Studies
- Put your skills to the test through immersive workshop courses exploring everything from visual arts and staging to electronic music production and experimental film
- Immerse yourself in workshops led by renowned theatre directors, artists, musicians, writers, and filmmakers
- Complete hands-on course work that gives you the opportunity to engage with a variety of media, including photography, theatre, music, film, radio, and podcasting

Career Paths

Filmmaker; Photographer; Communications Director; Art Critic;

Fundraising Director; Game Designer; Advertising and Marketing Executive; Web Content Manager; Cultural Events Planner

Popular Courses

Science Fiction; Music and Society; Game Studies; Television Studies; Theatre Workshop; Global Media; Experimental Film Workshop; Pop After Rock; Climate Change Fiction; Ecological Art Workshop

Accelerated Masters

Earn your Master's degree in Cultural Studies within one year of graduation from your honours B.A.

trentu.ca/futurestudents/culturalstudies

Specializations

CULTURE & THEORY

trentu.ca/futurestudents/culturetheory

Culture informs everything we do, but we don't always pay enough attention to it. The courses in this specialization draw on everything from Marxism to psychoanalysis to literary theory in order to help you think systematically about the complicated relationship between culture and the different parts of our lives – politics, psychology, art, the media, gender and sexuality, the body, globalization, technology, ethics, and more.

FILM & MEDIA

trentu.ca/futurestudents/film

Break outside the box of conventional media by asking how film, radio, television, popular culture, and social media influence culture. Through hands-on workshops in game design, filmmaking, podcasting, and more, and by focusing on topics as varied as war photography, the concentration of the communications industry, and augmented reality, this specialization will help you develop your media literacy and prepare you for a variety of dynamic careers.

LITERATURE & NARRATIVE

trentu.ca/futurestudents/literature

How do we tell our stories? As a Cultural Studies major completing the Literature and Narrative specialization, you'll take your studies beyond the book to look at how storytelling changes when told through theatre, oral narrative, television, and film, and how history, geography, and genre influence storytelling.

INTEGRATED ARTS

trentu.ca/futurestudents/integratedarts

Learn from professors who are actively

practicing artists, musicians, actors, and directors through this dynamic specialization for Cultural Studies majors. Explore how culture, history, media, and politics all intersect in modern, contemporary, and experimental visual art, music, theatre and film. Enhance your understanding of how these themes permeate our world and how applying this knowledge creates a well-rounded way of thinking. Through a combination of theory and hands-on workshops and courses, you will develop an artistic lens that can be applied to your studies across disciplines and future careers.

ECONOMICS (B.A. OR B.Sc.)

At both a national and global level, the most significant social issues involve economics. Through your studies in Economics, you'll gain a thorough understanding of the methods and tools required to analyze complex economic issues such as unemployment, inflation, economic growth, and market regulation. Your studies will enable you to use national and international data to explore trends and tendencies, test economic models, and will give you the ability to recommend policies addressing inadequacies with market outcomes.

The Trent Advantage

Pursue either a B.A. or B.Sc. degree in Economics, learning alongside expert faculty and thought leaders in small-group classes, seminars and workshops.

Resumé Boosters

- Gain career-ready research skills as you work with faculty and fellow students on hands-on and theoretical research projects
- Benefit from a new partnership with Aspire, linking you directly to work placement opportunities in the financial services sector
- Dive deep into data and sharpen your analytical skills as you explore the story behind statistics
- Get involved on campus with fellow business-minded students with clubs including the very active Trent Business Student Association (TBSA) or the extracurricular program, FastStart
- Meet top economic thinkers through guest speaker series and events

Career Paths

Chartered Accountant; Actuary; Commodity Analyst/Trader; Public Policy Analyst; Market Research Analyst; Media Buyer; Securities Broker; Tax Economist; International Trade Specialist; Statistician;

Financial Analyst; Investment Banker

Popular Courses

The Canadian Economy; International Finance; Economics of Developing Countries; Environmental Economics; Labour Economics

trentu.ca/futurestudents/economics

SCHOOL OF EDUCATION

Trent's prestigious School of Education offers future educators an extraordinarily active and highly collaborative experience that prepares students to enter a competitive education job market. Our guiding principles are deeply rooted in social justice, ecologically sustainable practices, Indigenous Knowledge inclusion, and providing an enriching interactive learning environment today for tomorrow's teachers.

TEACHER EDUCATION STREAM (B.A. OR B.Sc.)

Forge your own path to a rewarding career in education through Trent's distinctive Teacher Education Stream (TES). If your dream is to become a teacher, this one-of-a-kind program is the best pathway. TES will provide you with a strong foundation for application to a consecutive B.Ed. teacher education program, giving you an opportunity to design your B.A. or B.Sc. degree according to your individual interests. Gain relevant practical and theoretical knowledge through coursework and experiential opportunities such as teaching placements and other hands-on experiences.

The Trent Advantage

Go further with guaranteed entry into Trent's competitive two-year Bachelor of Education (B.Ed.) program upon successful completion of all requirements with a minimum average of 85%.

Resumé Boosters

- Pursue education-related placements in EVERY year of the program, starting in year one, in schools, daycares, zoos, senior centres, libraries, and more

- Take specialized courses in teacher education throughout your undergrad degree

Career Paths

Teacher; Child Care Worker; Educational Author; Publisher; Curriculum Designer; Educational Researcher; Outdoor Educator; Employee Trainer; Academic Advisor; Librarian; Guidance Counsellor; Early Childhood Educator

Popular Courses

Understanding Teaching and Learning; Concepts and Dispositions in Teaching and Learning; Learning and Literacy; Topics in Mathematics Education; A STEAM Driven Classroom

trentu.ca/futurestudents/tes

BACHELOR OF EDUCATION (B.Ed.)

As a teacher you're more than just an instructor; you're also a mentor, facilitator and well-rounded educator. What kind of teacher will you be? Available upon completion of your undergraduate degree, the Consecutive Education program at Trent gives you the certification you need to teach at the elementary or secondary level in Ontario. This specialized two-year program is guided by philosophies rooted in curriculum excellence, environmental sustainability, activism and justice, Indigenous Knowledge and ways of knowing, inclusive education and well-being, and a commitment to professionalism.

The Trent Advantage

You will experience high quality coursework with exceptional faculty expertise, extended classroom teaching opportunities, and small class sizes.

Resumé Boosters

- Complete 95 days of placements at four different schools through our Classroom Practicum
- Benefit from 75 hours of hands-on experience through the Alternative Settings Placement: teaching abroad; Indigenous land-based learning and garden outdoor programs; gaming as learning; Camp fYrefly programming; community outreach. The options are practically endless.
- Gain experience responding to students with special needs through our Supporting Literacy Placement
- Complete the Eco-Mentorship Certificate Program and show your future principal you are committed to bringing environmental education to your students

Career Paths

Teacher; Career Counsellor; Curriculum Designer; Literacy Specialist; Training/ Adult Education Consultant ; Educational Researcher; School Board Administrator; Language Instructor

trentu.ca/futurestudents/bed

INDIGENOUS BACHELOR OF EDUCATION (B.Ed.)

Schools all over Canada are in need of Indigenous educators, and an educational environment that honours the culture, language, and knowledges of Indigenous students is critical. Trent's highly unique Indigenous B.Ed. program puts Indigenous knowledge and perspectives at the forefront of teacher preparation, providing self-identified First Nations, Métis, Inuit and Indigenous students with the opportunity to become exceptional educators.

The Trent Advantage

A fully-accredited educational experience, this concurrent five-year program – the first of its kind in North America – allows students to complete three years of undergraduate studies and two years of professional studies that leads to teaching certification, all in one program.

Resumé Boosters

- Enjoy education placement opportunities in every year of your degree
- Attend traditional gatherings and connect with elders, traditional knowledge holders and surrounding Indigenous communities
- Benefit from Mohawk or Ojibwe language instruction and learning opportunities on the land and water
- Ontario College of Teachers Certification

Career Paths

Teacher; Counsellor; Government Worker; Policy Officer; Educational Consultant; Indigenous Education Advisor; Training Consultant; Educational Publisher

ENGLISH FOR UNIVERSITY: TRENT-ESL

Are you an international student who wants to study at Trent but needs to improve your English speaking and writing skills before starting your degree? With the Trent-ESL: English for University program, you're able to take advantage of the full university experience while at the same time building your language, research, and

academic abilities. If you are admitted to Trent and your English proficiency does not meet our minimum requirements, you will receive conditional admission to the academic program you have applied to with a pathway through Trent-ESL. Successful completion of this English language and academic skills program will guarantee your place in the academic program with no further IELTS or TOEFL testing required. This is an ideal way to immerse in English, live the full campus experience, and form new friendships in Trent's close-knit campus community.

The Trent Advantage

- Receive exceptional personalized attention from experienced instructors in a supportive learning environment through small class sizes with an average of 14 students
- Study ESL and degree courses at the same time – begin taking credit courses towards your degree in Foundations for University I and II
- Take advantage of flexible programming, with four start times each year (September, January, April, and June)

trentu.ca/futurestudents/esl

ENGLISH LITERATURE (B.A.)

When you study English Literature at Trent you are able to pursue your passions through poetry, prose, plays and other texts. Whether you are enthusiastic about novels or enjoy the succinctness of critical writing, in English at Trent you can explore the lasting impact of how we write and share stories of the human experience. Get career-ready with creativity, critical inquiry, and strong communication skills. Explore the written word across time periods ranging from medieval romance to the Harlem renaissance to contemporary graphic fiction.

The Trent Advantage

In English at Trent you'll discover a variety of voices across centuries, genres and cultures as you explore offerings in historical periods; creative writing; feminism, race and social justice; national, transnational and global literatures; popular culture; health; the modern world; theatre and performance; theories and methods. Get to know professors who embrace the collegiality that Trent is known for and immerse yourself in an educational adventure.

Resumé Boosters

- Take your love of books global and travel to a globally-known literary heritage site - from the fjords of Norway to the paths of pilgrims in the Canterbury Tales - by

competing for the Barbara Rooke Travel Prize

- Engage with acclaimed authors, including guests hosted through Trent's Writers Reading series, and explore a range of hands-on learning experiences including dramatic performance, music, creative writing, peer-assessed active learning, or blogging
- Participate in seminar and workshop classes that provide opportunities for discussion, critical thinking, and interaction with leading scholars and teachers who care about their students

Career Paths

Broadcaster; Editor; Journalist; Speech Writer; PR Specialist; Teacher; Librarian; Information Services Consultant; Translator; Archivist; Drama Critic; Publicist; Lawyer; Social Media Manager; Foreign Service Officer; Marketing Executive

Popular Courses

Children's Literature; Contemporary African Fiction; Studies in Shakespeare; Producing Punk; Theatre & Journalism; Writing the Body; Horror, Terror and the Gothic; Graphic Fiction; Indigenous Fiction; Chaucer's Canterbury Tales; Creative Non-Fiction Workshop

Accelerated Masters

Earn your Master's degree in English (Public Texts) within one year of graduating with your honours B.A.

Specialization

LITERARY HISTORY

trentu.ca/futurestudents/literaryhistory

How has the written word evolved since the days of The Canterbury Tales and King Arthur? For English majors considering grad studies or a career in the literary tradition, this captivating specialization provides a great opportunity to explore a broad spectrum of historical literary knowledge – essential expertise for any future scholar, teacher or author.

SCHOOL OF THE ENVIRONMENT

Students in the Trent School of the Environment are trained and mentored to become the next generation of environmental leaders. Here, at one of Canada's most sought-after locations for environmental research you will be digging into unparalleled hands-on learning opportunities – from on-campus field work to international study options, and everything in between.

BACHELOR OF ENVIRONMENTAL SCIENCE/STUDIES (B.E.S.S.)

Studying the environment is about more than just understanding nature. Trent's B.E.S.S. degree offers students a holistic understanding of the environment, bringing together topics in science and the arts to solve key environmental issues. You'll learn about water, air, soil, ecosystems, as well as the relationships between the environment and policy, planning and human interactions. You'll also gain an understanding of how humans experience the environment, as well as contemporary environmental issues, to help shape an environmentally sustainable future.

The Trent Advantage

There is no better place to study the environment – with 140 course options to choose from and tremendous scholarships available, there are good reasons why Trent has proudly been Canada's top postsecondary environmental institution for more than 50 years.

Resumé Boosters

- Conduct hands-on research in state-of-the-art labs and Trent's extensive on-campus "living laboratory"
- Minimum entrance and performance requirements challenge you to maintain a high standard of academic performance
- Apply your learning through a hands-on field course, capstone or community-based research project such as exploring sustainable development along waterways or environmental restoration of forests and lakes
- Work alongside leading faculty as you write and defend an undergraduate honours thesis

Career Paths

Environment Protection Officer; Sustainability Coordinator; Environmental Educator; Environmental Engineer; Climatologist; Environmental Risk

Assessor; Policy Advisor; Urban and Regional Planner; Eco-tourism Planner

Popular Courses

Environmental Science and Politics; Ecological Assessment for Natural Resources Management; Ecology and Management of Wetland Systems; Urban Environments; Environmental Health; Climatic Change; Organic Agriculture; Environmental Geology; Animals & Society

trentu.ca/futurestudents/bess

CIRCUMPOLAR STUDIES DIPLOMA (ONLINE)

Challenge yourself to think beyond the "remote" and "cold" stereotypes of the Arctic and its communities. This one-of-a-kind, interdisciplinary program will teach you about Northern people and landscapes, geographical and historical contexts, and issues of security in a changing political and environmental climate. You'll explore the rich diversity of the region, discuss everything from Indigenous issues to sustainable development and physical geography, and learn about how the North is fundamental to the global environment and economy. Developed by the University of the Arctic in partnership with Trent's School of Environment, the Chanie Wenjack School for Indigenous Studies, and the School for the Study of Canada, this flexible learning opportunity will prepare you for a future focused on the Canadian North and beyond.

The Trent Advantage

Be a groundbreaker – study in the first fully online Circumpolar Studies diploma offered at a Canadian university.

Resumé Boosters

- Take your learning from the comfort of home to the Arctic through study abroad opportunities with the University of the Arctic
- Diversify your perspectives through engaging online discussions with students from near and far in a small group environment
- Benefit from flexible options which allow you to move into a related undergraduate program at Trent or supplement your existing degree

Career Paths

Public Service; Cultural and Heritage Consultant; Immigration and Human Rights; Public Health; Geoscience Consultant; Diplomat; Journalist; United Nations Official; International Civil Servant; Educator; Policy Professional

trentu.ca/futurestudents/circumpolar

ECOLOGICAL RESTORATION (B.Sc.)

By working to ensure our world's precious ecosystems are preserved, the vision of Ecological Restoration is that of a better tomorrow for the world's living organisms, including humans. Through a partnership with Fleming College, this unique degree program gives you the practical and theoretical knowledge needed to make your mark in the green revolution, teaching you how to restore our natural environment so that it survives and thrives for present and future generations.

The Trent/Fleming Advantage

Graduate in four years with both a college diploma and university degree.

Resumé Boosters

- Get hands on experience into ecological problem solving with projects that include preserving and restoring natural wetlands through field camps, field courses and community based research
- Combine skills and experiences from a broad range of disciplines at both college and university – the best of both worlds
- Apply classroom knowledge to the field through internships and international study opportunities

Career Paths

Landscape Restoration Ecologist; Stewardship Assistant; Shoreline Naturalization Biologist; Watershed Planning Technician; Wetland Habitat Ecologist; Environmental Consultant; Reclamation Ecologist; Soil Technician

Popular Courses

Environmental Ethics; Ecological Design; Environmental Law and Regulation; Ecology and the Management of Wetland Systems; Indigenous Environmental Studies

Accelerated Masters

Earn your M.Sc. in Environmental & Life Sciences in only 12-16 months after graduating with your honours B.Sc.

trentu.ca/futurestudents/ecologicalrestoration

ENVIRONMENTAL CHEMISTRY (B.Sc.)

Explore your passion for the environment at the molecular level, studying how the tiniest components of matter have a big effect on the living world. Your studies in Environmental Chemistry will introduce you to contemporary approaches to identifying contaminants present in the environment, where they come from, how they ended up at a particular site, their cycles and the impact they have on organisms and ecosystems in the

environment. In this program, you will learn to understand the big picture of diverse environments by examining its smallest components.

The Trent Advantage

Study at one of the top 100 green campuses in the world, learning modern analytical techniques in Trent's state-of-the-art laboratory facilities.

Resumé Boosters

- Undertake undergrad research opportunities working with leading professors and groups
- Benefit from practical work experience through a placement with environmental agencies, organizations or corporations
- Gain experience with advanced instrumentation and modern analytical techniques including research into mineral-water-gas interactions and carbon sequestration

Career Paths

Analytical Laboratory Scientist; Environmental Auditor; Water Purification Chemist; Environmental Health Inspector; Hydrogeologist; Policy Advisor; Pollution Control Engineer; Environmental Modeler

Popular Courses

Atmospheric Environmental Chemistry; Aquatic Environmental Chemistry; Ocean and River Chemistry; Environmental Air Pollution; Environmental Toxicology

Accelerated Masters

Earn your M.Sc. in Environmental & Life Sciences in only 12-16 months after graduating from your honours B.Sc.

trentu.ca/futurestudents/envirochem

ENVIRONMENTAL GEOSCIENCE (B.Sc.)

Geoscientists play a crucial role in the sustainable development of Earth resources that individuals, industries, and countries, such as Canada, rely upon every day. Students in Trent's Environmental Geoscience program study the Earth's geologic and natural systems to understand the environment and the impacts of human activities. With experiential learning at its core, this professionally accredited program equips students with the skills needed to tackle pressing environmental challenges from climate change to contaminated groundwater to geohazards, leading you to an exciting career as geoscientist or another environmental path.

The Trent Advantage

Receive specialized training in

environmental techniques used in geotechnical investigations, as you obtain the knowledge requirements to prepare for your Professional Geoscientists of Ontario (P.Geo) accreditation.

Resumé Boosters

- Translate knowledge into career experience through environmental field placements like geological surveying in the Northwest Territories
- Participate in a hands-on fourth year capstone experiential learning opportunity
- Work directly with leading experts who are making a positive impact on the health of our planet like Dr. Ian Power, Canada Research Chair in Environmental Geoscience
- Gain the academic credentials required to apply to become a Professional Geoscientist (P.Geo) in Training

Career Paths

Environmental Geoscientist; Geomorphologist; Environmental Consultant; Geochemist; Earth Scientist; Hydrogeologist; Environmental Geologist

Popular Courses

Applied and Environmental Geophysics; Field Methods in Environmental Geoscience; Introduction to Mineralogy and Petrology; Structural Geology

trentu.ca/futurestudents/envirogeoscience

ENVIRONMENTAL & RESOURCE STUDIES/SCIENCE (B.A. OR B.Sc.)

Environmental issues are one of the most pressing global challenges of today, and addressing these challenges requires expertise in both environmental science and arts. Trent's Environmental & Resource Studies/Science programs gives you the choice to specialize your skill set to help make your mark on this world in a thoughtful and sustainable way. Choose to complete a B.A. degree and explore topics in environmental law, global environmental policy and management to inform sustainable solutions. With the B.Sc. option, you'll obtain an advanced scientific understanding of the environment, diving into everything from environmental chemistry to restoration ecology.

The Trent Advantage

Study in one of the only Environmental Careers Organization (ECO)-Canada accredited environmental science programs in the country, choosing from the broadest range of environmental courses available at any Canadian university.

Resumé Boosters

- Conduct hands-on research in Trent's 12 on campus nature areas, everything from rivers to wildlife sanctuaries to meadows and marshes
- Develop practical field and laboratory skills working with internationally recognized environmental scientists
- Spend a year studying abroad in a multitude of international research placements, including Iceland and the UK

Career Paths

Ecologist; Climatologist; Eco-Tourism Professional; Energy Analyst; Conservation Authority Director; Environmental Activist; Environmental Risk Assessor; Fisheries Biologist; Policy Advisor; Agricultural Economist

Popular Courses

Environmental Science and Politics; Global Environmental Policy; Pollution Ecology; Environment and Development; Climatic Change

trentu.ca/futurestudents/ers

Specialization NEW

CLIMATE CHANGE SCIENCE & POLICY*
trentu.ca/futurestudents/climatechange

Climate change is the leading global environmental issue, but its impacts extend beyond the natural world, into business operations, politics and policy development, social justice movements, law and more. If you find yourself trading the car for public transit, reviewing a company's environmental initiatives or participating alongside millions of others in global Climate Marches, this specialization is for you. Trent's Climate Change Science & Policy specialization draws on faculty specialties in Trent's School of the Environment (TSE) and from affiliated departments, providing students with a robust, well-rounded education that could lead to a variety of careers supporting climate solutions that can have profound impacts on societies for future generations.

**This specialization is also available to Geography majors*

GEOGRAPHY (B.A. OR B.Sc.)

Explore the relationship between people, societies and their physical environments through a Geography degree at Trent. As a Geography student, you will go beyond the classroom to dive into the study of spatial formations and patterns. From migration, to urbanization, to the relationship between gender and space, B.A. students focus their studies on human

geography, particularly how people encounter and shape their environments. B.Sc. students take a deeper look into the human and natural forces that shape the physical world, studying topics like hydrology, topography, earth materials and climate.

The Trent Advantage

Get hands-on experience experimenting with top-notch research facilities including Trent's on-campus wind tunnel lab and social/water interaction and transport chamber.

Resumé Boosters

- Participate in a capstone or community-based research bringing geographic information to life exploring topics from the economic impacts of migration in Ontario communities to support systems for vulnerable youth
- Work alongside leading faculty as an undergraduate research assistant where you can put theory into practice
- Write and defend an undergraduate honours thesis delving into topics including sustainable development, infrastructure, tourism and the impacts of recreation on wildlife

Career Paths

Urban Planner; Engineer; Environmental Health Specialist; Geologist; Policy Analyst; GIS Applications Specialist; Population Growth and Migration Specialist; Land Surveyor; Water Resources Manager; Geoscience Consultant; Ecologist; Park Ranger; Meteorologist; Geomatics Specialist; Demographer

Popular Courses

The Global Climate System; Geography of the Polar Regions; Urban and Regional Planning; Soil Science; Wilderness Resources; Rural Community Sustainability

Accelerated Masters

Earn your M.Sc. in Environmental & Life Sciences in only 12-16 months after graduating from your honours B.Sc.

trentu.ca/futurestudents/geography

SUSTAINABLE AGRICULTURE & FOOD SYSTEMS (B.A. OR B.Sc.)

Humans need to eat, and while this shared necessity unites us in many ways, discovering new ways to grow enough food for seven billion people sustainably has become an increasingly crucial global challenge. By studying sustainable agriculture, you can learn to create food systems that are responsible, justice-oriented, efficient, effective, and viable. In this program, you'll examine the pathways

between farm and table and their implications for people, the economy, and the planet. Learn about the challenges and benefits of producing and distributing healthy, affordable food in sustainable ways, and prepare for a career in which you can affect change and positively impact your community.

The Trent Advantage

Work to advance the study of sustainable agriculture in real-time by getting your hands dirty in Trent's rooftop gardens and experimental farm, a 33-acre living laboratory located right on campus.

Resumé Boosters

- Make your mark in our engaged student community by joining the Sustainable Agriculture and Food Systems Society, Trent Apiary, or Food Services Sustainability Committee
- Join a new crop of entrepreneurs working in the Trent Market Garden, which provides fresh vegetables to cafeterias right here on campus, or volunteer with the student-run organic café The Seasoned Spoon
- Work alongside leading experts, thought leaders in agriculture businesses and community organizations as you explore real-world implications of topics like small-scale food production and local food movements

Career Paths

Agri-Tourism Business Operator; Organic Farmer; Community Food Activist; Food Policy Analyst; Land Use Consultant; Agricultural Research Assistant; Urban Agricultural Coordinator; Nutrition & Food Industry Specialist

Popular Courses

Environmental Implications of Agriculture; The World Food System; Ecological Agriculture; Soil Science; Culture and Food; Nutritional Anthropology

Accelerated Masters

Fast-track your education, by earning your M.Sc. in Environmental & Life Sciences in only 12-16 months after graduating from your honours B.Sc.

trentu.ca/futurestudents/agriculture

WATER SCIENCES (B.Sc.)

Plants, animals, and humans all require fresh water to survive, and many living species make water ecosystems their home. As a student in this program, you'll learn about topics that are foundational to efforts to conserve our most precious resource: freshwater, which accounts for less than two per cent of the Earth's

water supply. You'll complete a series of practical and theoretical courses drawn from four primary subjects (biology, chemistry, geography, and environmental science) important to examining the science of water and the aquatic environment. By studying at Trent, you'll gain a thorough understanding of contemporary water challenges, as well as the knowledge and skills necessary to respond to aquatic issues in Canada and around the world.

The Trent Advantage

Study with internationally-recognized water scientists in state-of-the-art labs and learning facilities, including the Trent Water Quality Centre, the most comprehensive mass spectrometry facility in Canada.

Resumé Boosters

- Gain real experience in the study of water and the aquatic environment in the lab and out in the field
- Get hands-on in your undergrad at the most comprehensive mass spectrometry facility in Canada, as you analyze biological materials and build industry connections
- Make an impact in the community through a capstone research project with a community environmental organization or supporting on-campus research in start-up companies like Noblegen
- Take your education global – study abroad and complete an international research placement

Career Paths

Environmental Impact Assessment Consultant; Hydrologist; Fisheries Manager; Drinking Water Policy Specialist; Regional Land and Water Resources Manager; Water Quality Analyst; Wetland Monitoring Specialist; Watershed Planner; Aquatic Recovery Analyst

Popular Courses

Limnology; Global Change of Aquatic Ecosystems; Aquatic Environmental Chemistry; Hydrology; Water Policy

Accelerated Masters

Earn your M.Sc. in Environmental & Life Sciences in only 12-16 months after graduating from your honours B.Sc.

trentu.ca/futurestudents/watersciences

FINANCIAL ANALYTICS (B.Sc.)

Canada's financial industry has a growing demand for graduates who possess quantitative analytical skills beyond crunching numbers – skills that help

guide businesses and individuals with their most important investment decisions. Combining mathematics, statistics, economics, business, and computing, this one-of-a-kind degree program will teach you to analyze investment industry trends and implement real-world data models, setting you up for an exciting career in an increasingly complex financial world.

The Trent Advantage

Through this one-of-a-kind degree, you will combine skills in mathematics and business to learn the science behind investing, preparing you for a successful career in business finance, banking, investment, or another path.

Resumé Boosters

- Construct your own financial models based on real-world financial data
- Work alongside leaders from Trent's prestigious School of Business and the Departments of Mathematics and Economics
- From computer labs and case analyses, to hands-on research projects, extend your knowledge beyond the classroom into career boosting experiences
- Make fast-paced decisions participating in 'virtual trading floor' competitions
- Experience using industry-standard software

Career Paths

Business Intelligence Consultant; Brokerage Specialist; Credit Risk Analyst; Personal Financial Advisor; Financial Reporter; Actuary; Financial Analyst; Stockbroker; Investment Manager

Popular Courses

Financial Accounting; Econometrics; Investments; Derivatives; Linear Programming; Mathematical Risk Management

trentu.ca/futurestudents/financialanalytics

FORENSIC SCIENCE

Do you have an inquiring mind, a deep interest in science and a curiosity about how and why things happen? A career in Forensic Science could be an ideal path for you – and Trent is proud to offer a wide variety

of professional forensic science programs, each one giving you access to the industry's best forensic lab facilities and expert faculty. Go beyond the classroom and get practical career experience as you gain a breadth and depth of forensic expertise, including an emphasis on law that you can't find at any other Canadian university.

Explore Your Forensic Science Options

Trent University offers future Forensic Scientists a choice of four different degree options, each with its own advantages. Which will you choose?

1. **Bachelor of Science in Forensic Science (B.Sc.F.S.)**
2. **Bachelor of Science in Forensic Biology (B.Sc.)**
3. **Bachelor of Science in Forensic Chemistry (B.Sc.)**
4. **Joint Major in Forensics – combine with another program of your choice (B.A. or B.Sc.)**

Resumé Boosters

All Forensics degree options include:

- Access to Trent's new sector-leading Forensic Crime Scene Facility – a first-of-its-kind building constructed on a Canadian university campus – offering a unique opportunity to learn about and research crime scene investigations from cutting edge forensic science experts
- A third-year work placement in a subdiscipline of your choice, which could include federal government internships with Border Services, RCMP, Health Canada, Food Inspection Services
- Opportunities to research and work directly with scientists in labs and professionals in the field
- Direct access to leading experts in DNA profiling, and in the Forensic Science program, at the Natural Resources DNA Profiling and Forensics Centre, and in the Ontario Ministry of Natural Resources and Forestry

FORENSIC SCIENCE (B.Sc.F.S.)

This highly-rewarding discipline integrates the study of science and law with investigative practice and theory. By studying Forensic Science at Trent, you'll learn the foundational science of forensics through the study of anthropology, biology, and chemistry, along with uniquely specialized forensics courses. BScFS students are fully immersed in a functioning forensic research and service environment from their first year and onward, in a program that emphasizes emerging developments in DNA forensic applications and crime scene investigation through courses in laboratory techniques and related case work.

The Trent Advantage

As a graduate of this advanced program, you will apply your skills to uncover evidence recovered at crime scenes, draw impartial conclusions based on physical evidence, and clearly and confidently present these findings using your foundational knowledge in science.

Career Paths

Crime Scene Technician; Criminologist; Police Officer; DNA Analyst; Polygraph Examiner; Forensic Pathologist; Medical Research Scientist; Document Analyst; Border Services Agent; Lawyer; Forensic Toxicologist; Fingerprint Technician; Computer Forensics Expert; Research Scientist

Popular Courses

Crime Scene Investigation; Laboratory DNA Forensics; Trends in Forensic Science; Bloodstain Pattern Analysis; Biocrime and Bioterrorism; Computer Crime and Forensics; Criminology in Forensics; Police Powers; Forensic Toxicology; Workplace Readiness and Professional Ethics

trentu.ca/futurestudents/forensicscience

FORENSIC BIOLOGY (B.Sc.)

Analyzing blood or hair specimens at crime scenes; identifying illegal products from endangered species; and deciphering the cause of death of an individual based on human remains – just a few examples of the role forensic biologists play in the field of forensic science. Trent's Forensics Biology degree gives you all the advantages of hands-on forensic studies, while developing your expertise as a biological scientist. Students of the Forensic Biology degree program receive a comprehensive biology education that includes the study of life – from the level of molecules and cells to populations and communities – applying this knowledge

practically as they practice case work and learn to work as a team in crime scenes and criminal investigations.

The Trent Advantage

Graduate with unique qualifications having been mentored by experts in forensic biology, this new degree gives you all the advantages of a degree in Forensic Science, something you won't get through any other forensics program in Canada.

Career Paths

Crime Scene Technician; Criminalist; DNA Analyst; Genetic Counsellor; Coroner; Wildlife Forensic Scientist; Research Scientist; Forensic Pathologist; Medical Research Scientist; Forensic Anthropologist; DNA Scientist; Bloodstain Pattern Analyst; Forensic Toxicologist; Wildlife Forensics Expert

Popular Courses

Biocrime and Bioterrorism; Bloodstain Pattern Analysis; Cell Biology; Forensic Entomology; Human Osteology; Laboratory DNA Forensics; Non-Human DNA Forensics; Workplace Readiness and Professional Ethics; Bioinformatics

trentu.ca/futurestudents/forensicbio

FORENSIC CHEMISTRY (B.Sc.)

Have an interest in analytical chemistry and its applications in forensic investigation? This program is for you. In addition to the hands-on learning received in the fundamental forensic science course options, the Forensic Chemistry program gives you a comprehensive education in chemical analysis and toxicology, studying everything from biochemical and environmental chemistry to inorganic, organic and physical chemistry.

The Trent Advantage

High-achieving students in this program – the only one of its kind at any Canadian university – are able to gain hands-on experience through thesis projects, present at conferences and study in courses alongside graduate level students. The result? Graduates that are uniquely qualified for careers in forensic science and toxicology.

Career Paths

Chemist; Crime Scene Investigator; Criminalist; Research Scientist; Forensic Toxicologist; Forensic Chemist; Laboratory Analyst; Forensic Pathologist; Evidence Technician

Popular Courses

Analytical Chemistry; Biochemical Concepts; Chromatography; Molecules of Murder; Organic Chemistry; Spectroscopy

& Spectroscopy; Forensic Toxicology; Transition Metal Chemistry; Chemical Sensors and Biosensors; Workplace Readiness and Professional Ethics

trentu.ca/futurestudents/forensicchem

JOINT MAJOR IN FORENSICS (B.A. OR B.Sc. HONOURS)

Trent is the only university in Canada to offer students the chance to combine your study of forensic science with one of several different academic disciplines. Choose a joint major in forensics in combination with a vast array of complementary areas of study in either the arts or the sciences. Interested in a career in forensic science specializing in ballistics? A joint degree with Physics could come in handy. Want to analyze the mental state of criminals, or become a criminal profiler? Combine your Forensic Science degree with a B.A. in Psychology. Want a role in uncovering cyberterrorism? A joint major with Computing Systems can help you stand out from the crowd. No matter what your forensic career ambitions are, you have plenty of options at Trent.

trentu.ca/futurestudents/forensicsjoint

Specialization

LAW & POLICING

trentu.ca/futurestudents/lawpolicing

Add this specialization to any Forensics degree at Trent!

A specialization in Law & Policing provides you with a greater focus on the application of forensic scientific principles and techniques within the Canadian legal system, crime scenes, and policing. As a Forensic Science major with this one-of-a-kind specialization, you will be ideally suited to meet the changing demands of forensic investigation in the law enforcement community.

FRENCH & FRANCOPHONE STUDIES (B.A.)

With 220 million French speakers worldwide (projected to be more than 700 million by 2050), French language and knowledge of Francophone cultures has become a highly sought after and valuable skill. French & Francophone Studies is about more than just learning a language. It's also about understanding the world and culture that the language reflects. In this program, you'll examine the diversity of

Canadian and International Francophonies. Through explorations of history, literature, cinema and contemporary topics, you will discover where the words, phrases and slang you speak come from and reaffirm yourself as a French-speaking citizen.

The Trent Advantage

An emphasis on all French-Canadian cultures distinguishes our program from other universities in Ontario, with courses not only on Québec culture and literature but also on Acadian and Franco-Ontarian literatures, including Indigenous writers working in French.

Resumé Boosters

- Enhance your language comprehension through French language events, public readings, and student-run mini conferences
- Build global connections in Trent's longest-established study abroad program as you refine your French skills in a European context in Nantes, France.
- Study languages more in-depth through a Concentration in Linguistics
- Access other language courses through the Trent Centre for Language and Linguistics – study Chinese, German, and Spanish, all with no background required

Career Paths

Cultural Affairs Coordinator; Foreign Services Officer; Immigration Officer; Interpreter; Linguist; Marketing Consultant; Teacher; Translator; Writer

Popular Courses

Culture and Society; Franco-Ontarian Literature; Francophone Cinema; French Classicism; French Language Indigenous Literature

trentu.ca/futurestudents/frenchstudies

Specialization

QUÉBEC & FRANCO-CANADIAN STUDIES

trentu.ca/futurestudents/francostudies

Go beyond the boundaries of your French major, exploring French as a linguistic force that exceeds provincial borders and has influence across the globe as a language of power. Immerse yourself in the culture, literature, and history of Québec and French Canada to understand the social and political dimensions of Canada's second official language.

GENDER & SOCIAL JUSTICE

Explore the way gender relations have

shaped culture, history and contemporary society. In this program, you will explore a broad range of feminist perspectives from a lens of social justice. Dive deep into conversations about labour, health, history, popular culture, law, the environment, social policy, literature, and globalization. At Trent, you will develop an interdisciplinary understanding of feminist thought and practice, and the ways that feminism intersects with critical race, disability, decolonial and critical sexuality studies.

The Trent Advantage

Engage with dedicated faculty who are actively involved in research in areas like gender research, education, and advocacy – including the Canada Research Chair in Feminist and Gender Studies.

Resumé Boosters

- Put your knowledge to the test through a community-based gender research project working with organizations like The Elizabeth Fry Society or the Ontario Public Research Interest Group
- Calibrate a skillset that includes a gendered lens on key issues, invaluable for those seeking careers in social work, teaching or policing

- Access awards and bursaries exclusive to Gender and Social Justice students
- Engage with guest lecturers, authors, and leaders in the field

Career Paths

Lawyer; Policy Advisor; Community Development Worker; Social Worker; Counsellor; Healthcare Professional; Equity Advisor; Human Rights Advocate; Researcher; Program Manager; Psychologist; Child Welfare Worker

Popular Courses

Gender, Race and Popular Culture; Criminalizing Women; Contemporary Feminisms; Decolonizing Feminisms; Gender, Sexualities and the Law; Troubling Trans: Trans Cultures, Theories, and Resistance; Doing Feminist Research; Gender, Health and the Environment

trentu.ca/futurestudents/genderstudies

HISTORY (B.A.)

There's a saying that the further back we look, the further forward we can see. In studying history you will hone your critical thinking skills and understand what has come before to lead us to this moment in time. One of the most established and versatile university majors, History paves the way for discovering society's behaviour patterns, seeing beyond stereotypes, and discerning the difference between assumption and fact. At Trent, you'll

explore a variety of political, social, and cultural themes while developing research, analytical, and communication skills for your future career.

The Trent Advantage

Learn from world-renowned historians who are sought out for their unique expertise as you tailor your courses by theme, such as colonialism or civil rights, or by time period and location, from classic Rome to modern-day Latin America.

Resumé Boosters

- Our small group teaching environment means you'll know your profs and they will know you – a great advantage for that personal reference after graduation
- A world of job opportunities await graduates with the analytical and writing skills that only history can provide
- Study history firsthand with the opportunity to study abroad in one of 35+ countries around the world
- Take advantage of a unique pathway to pursue the Museum Management and Curatorship postgraduate certificate program offered in partnership with Fleming College

Career Paths

Lawyer; Civil Servant; Diplomatic Corps; Parliamentary Assistant; Teacher; Private Sector Executive; Curator; Historical Consultant; Producer; Writer; Librarian; Archivist; Journalist; Parks & Recreation Manager; Biographer; Anthropologist; Genealogist

Popular Courses

Ten Days That Shook the World; Love, Sex, and Intimacy in History; The Making of Modernity; Canadian History Through Murder, Execution, Assassination, and Suicide; Public Health and Medicine; World War I and World War II

Accelerated Masters

Earn your Master's degree in History within one year of graduating from your honours B.A.

trentu.ca/futurestudents/history

HUMAN RESOURCE MANAGEMENT – POSTGRADUATE CERTIFICATE

In this age of globalization and innovation, the ability to acquire, develop, and motivate talented people has become the number one challenge for most organizations. The postgraduate certificate in Human Resource Management (HRM) is designed for students who wish to learn how HRM contributes positively to both organizations and the people who work for them. This

exceptional program is ideally suited to new graduates seeking further specialization, or working professionals wishing to further develop their understanding of human resource management. Develop new talent, drive organizational change, and become a true HR leader.

The Trent Advantage

Complete this professional certificate program in as little as eight months of full-time studies, or part-time in two years.

Resumé Booster

Gain the credentials and skills needed for your Certified Human Resources Professional (CHRP) designation.

Career Paths

Human Resources Manager; Employee Relations Manager; Compensation or Benefit Analyst/Manager; HR Information Systems Manager; Recruiter; Training and Development Manager; HR Consultant

Popular Courses

Organizational Behaviour; Leadership, Training, and Development; A Cross-Cultural Approach; Motivation and Compensation Systems; Organizational Selection in the Canadian Workplace

trentu.ca/futurestudents/hrmc

CHANIE WENJACK SCHOOL FOR INDIGENOUS STUDIES

A community committed to creating places of dignity and respect for Indigenous peoples in Canada and throughout the world. The Chanie Wenjack School for Indigenous Studies incorporates traditional teachings and perspectives into its curricular and extracurricular programming. Explore Trent University's history of Indigenous leadership, and join our extraordinary community of scholars who continue this legacy and make a difference in our world.

INDIGENOUS DIPLOMA PROGRAMS

Trent's exceptional Indigenous diploma programs provide a clear path for First Nations, Métis or Inuit students who wish to make the transition into university level studies. In a supportive and inclusive environment, students in the Foundations of Indigenous Learning and the Indigenous Environmental Studies diplomas bring their diverse cultures, values, histories and languages to the classroom. Students who complete an Indigenous Diploma Program may choose to continue their education and pursue a Bachelor's degree, transferring their diploma credits. The majority of students complete a diploma and degree within four years.

The Trent Advantage

- Benefit from an environment where Indigenous knowledge is respected and recognized as a valid means by which to understand the world
- Be a part of the only Indigenous Diploma Programs of their kind in Ontario, offering both diplomas and degree transfer credits

trentu.ca/futurestudents/indgdiploma

INDIGENOUS ENVIRONMENTAL STUDIES & SCIENCE (IES) (B.A. OR B.Sc.)

The natural world is intrinsic to human life, but people's experience with the environment varies widely and this impacts their values and how they learn to interact with the natural world. IESS at Trent brings together the principles of both Indigenous Knowledge and Western science to explore complex topics such as climate change, community sustainability, and Indigenous health and environment through a cross-cultural, transdisciplinary approach. You'll learn to generate solutions to complex local, regional, national, and international issues facing Indigenous and all peoples and communities around the world.

The Trent Advantage

In this program – the first of its kind anywhere in North America – you'll study a unique mix of Indigenous knowledges and teachings and Western sciences, learning from Indigenous and non-Indigenous faculty, elders, guest speakers and other scholars.

Resumé Boosters

- Take hands-on environmental fieldwork courses in Trent's 12 on-campus nature areas

- Lead a community-based research project and apply your knowledge to assist a local or national organization, including Curve Lake First Nation Band Council, Chiefs of Ontario, The Ayalik Fund, Inuit Tapiriit Kanatami, or Ontario Public Interest Research Group (OPIRG)

- Volunteer with the Trent Aboriginal Cultural Knowledge and Science youth outreach summer camp

Career Paths

Indigenous or non-Indigenous Government Policy Specialist; Environmental Educator; Natural Resource Manager or Researcher; Indigenous Corporate Liaison Officer; Environmental Lawyer; Consultant; Teacher, Indigenous/Private Sector Liaison; Park Warden; Environmental Activist

Popular Courses

Foundations in Indigenous Environmental Studies and Sciences; Indigenous Knowledge Systems and the Environment; Indigenous Peoples Health and Environment; Canada: The Land; Sustainable Indigenous Communities; Indigenous Food Systems

trentu.ca/futurestudents/ies

INDIGENOUS STUDIES (B.A.)

What does it mean to be an Indigenous person today? How do history and politics, the land and the law, the land, culture and contemporary issues shape relationships amongst and between Indigenous and non-Indigenous communities? Students in Trent's Indigenous Studies' programs will develop a complex understanding and appreciation of Indigenous experiences in Canada and around the world.

In this, the first Indigenous Studies program in Canada, having celebrated 50 years in 2019, you'll explore the multi-disciplinary nature of the program and find a distinct sense of community as you immerse yourself in diverse program offerings that explore the multidimensional, distinctive nature of different Indigenous Nations including the all aspects of the Indigenous experience and their many contributions to Canadian society.

The Trent Advantage

Immerse yourself in a multicultural education at the first university in Canada, and only second in North America, to establish an academic department dedicated to the study of Indigenous Peoples.

Resumé Boosters

- Study abroad and learn about Indigenous peoples in the USA, China, Thailand, New Zealand or Mexico

- Build career connections by getting involved with annual events that take place on campus like the Elders Gathering, Pine Tree Talks, CINSA, and the Indigenous Women's Symposium

- Develop your own Indigenous language skills as you study Nishnaabemowin or Mohawk

- Engage in hands-on research projects with agencies and organizations that make a difference in local communities

- Become an expert in the art of Indigenous performance as you take place in productions hosted in Nozhem: First Peoples Performance Space, the only publicly-funded space of its kind in Canada.

Career Paths

Lawyer; Teacher; Medical Professional; Social Worker; Treaties Negotiator; Historian; Public Servant; Project Manager; Economic Development Officer; Coach; Indigenous Linguist; Traditional Knowledge holder; Elder, Politician Journalist; Author; Performer; Filmmaker

Popular Courses

Foundations of Indigenous Learning; Introduction to Nishnaabemowin; Indigenous Environmental Studies; Critical Incidents in Modern Indigenous Life; Alliances: Indigenous/Non-Indigenous Relationships for Justice; Indigenous Peoples and State Relations; Introduction to Indigenous Knowledge; The Living History of Indigenous Dance and Theatre; Urbanization and Indigenous Peoples

trentu.ca/futurestudents/indigenoustudies

INFORMATION SYSTEMS (B.A. OR B.Sc.)

Virtually every organization and field of study relies on computers in order to succeed in today's hyper-digital age. As an Information Systems joint major, you'll look for better ways to accomplish tasks using computing technologies, exploring how the world processes, manages, and communicates information. Over the course of your degree, you'll develop a unique understanding of technical subjects such as databases, networks, data visualization, and telecommunications, as well as non-technical matters such as ethics, law, and digital culture.

The Trent Advantage

Get a personalized experience with professors who are experts in their fields with well-rounded technical, business and cultural perspectives, learning all about the latest science and digital technologies.

Resumé Boosters

- Put theory into real-world practice through a third year internship or fourth-year student driven project
- Learn alongside the experts as you pursue an undergraduate research thesis with your professor
- Take advantage of small class sizes to get to know your professors and take up challenges to apply learning to scenarios to test your own approaches to defining, analyzing and addressing real-world challenges

Career Paths

Information Systems Manager; Technical Support Specialist; Logistics Specialist; Business Intelligence Analyst; Computer Systems Designer; Web Developer; Application Manager; Research Specialist; Technical Writer; Graduate Studies; Data Scientist

Popular Courses

Systems Analysis and Design; Data Visualization; Project Management; Digital Culture; Human-Computer Interaction; Principles of Online Marketing; Data Mining; Computer Crime & Forensics; Database Management Systems

INTERNATIONAL DEVELOPMENT STUDIES (B.A.)

International Development Studies at Trent aims to give students an understanding of processes of societal transformation. Learning from a range of experts, including anthropologists, political scientists, and economists, you'll fuse theory and practical learning to explore wide-ranging themes such as global poverty and hunger, conflict, ecological degradation, and cultural identity, to understand the sources and consequences of human development around the world. Your studies will pay particular attention to the world's most vulnerable populations and their complex relations with the most powerful countries and international organizations.

The Trent Advantage

Be part of an internationally-recognized program that is the first of its kind in Canada.

Resumé Boosters

- Study and work in a developing country through the Trent in Ghana program – includes a 12-week placement with a development organization
- Translate learning into experience through our community-based research course, conducting an evaluation

of a community organization in Peterborough or Haliburton

- Join the Student Association for International Development and contribute to the student run Community Movements Conference

Career Paths

Human Rights Officer; Community Education Coordinator; Lawyer; Diplomat; United Nations Official; International Civil Servant; Humanitarian Assistance Worker; Refugee Affairs Program Officer; Economic Development Officer; Disaster Relief Specialist

Popular Courses

Human Inequality in Global Perspective; Gender and International Development; The World Food System; The Cinema of Development; Human Rights; Development & Radical Hope; Global Health; Peasants, Food & Agrarian Change; Global Metropolis; Citizen Rights & Development; Global Social Movements; Post-carbon Futures

trentu.ca/futurestudents/ids

Specializations

AFRICAN STUDIES

trentu.ca/futurestudents/africanstudies

Africa is a continent of great historical and contemporary global importance. By successfully completing a series of relevant credits and the Ghana year abroad program, students pursuing International Development Studies are eligible to add a specialization in African Studies to their degree.

LATIN AMERICAN STUDIES

trentu.ca/futurestudents/latinamerica

Study the complex history, politics, and biodiversity of Latin America while you explore and discover new approaches to understanding democracy, human rights, and sustainable development in the world's most urbanized regions. Adding a specialization to your IDS degree is a great way to showcase your expertise and develop your Spanish language skills.

INTERNATIONAL POLITICAL ECONOMY (B.A.)

What do factory closures, civil unrest and natural disasters have in common? While the effect of these unsettling events are immediate and intense in local communities, they also have a ripple effect on the global economy as well as people

and power structures around the world. In International Political Economy at Trent, students examine and analyze challenging global issues and the interconnected nature of politics and economics on the international level.

The Trent Advantage

One of the first International Political Economy programs offered in Canada, this joint major provides you with a strong foundation for a broad range of career or postgraduate opportunities in Canada and abroad.

Resumé Boosters

- Study the interconnected nature of politics and economics at the international and global levels
- Complete a joint major degree as unique as you (and your interests) – combine IPE with virtually any other program from Economics and International Development to Anthropology and Business
- Take your education global through a year abroad in virtually any country around the world

Career Paths

International Affairs Agent; Policy Analyst; Legislative Assistant; Non-governmental Advisor; Diplomat; Public Employee; Private Sector; Government Official

Popular Courses

World Politics; Growth of the Global Economy; Literature and Globalization; Causes of War; Environment and Development; Government and Politics of the Middle East

trentu.ca/futurestudents/ipe

JOINT MAJORS (B.A. OR B.Sc.)

Our students describe the joint major experience as having the best of both worlds. Can't decide between two programs? At Trent you don't have to! Pursue your passions and launch your career with a professional profile as unique as you are through Trent's joint major programs. You can combine courses in the arts, sciences, or business programs. Have a passion for social justice? Pair your Politics degree with Gender & Social Justice. Want to immerse yourself in today's technology? Join Media Studies and Computer Science. Mix and match programs that best appeal to your interests, preparing yourself for a future with more possibility.

The Trent Joint Major Advantage

- Create a unique educational focus based on your passions and interests, with an

interdisciplinary knowledge base

- Experience the ease of combining programs across the arts and sciences and Trent's one-of-a-kind professional programs
- Receive academic advising to support you throughout your joint major degree

Resumé Boosters

- Gain the diversity of knowledge today's employers are looking for by studying and specializing in not one, but two academic disciplines

- Hands-on learning experiences abound in all Trent programs – gain the competitive edge on your resumé

Career Paths

Limitless!

Popular Joint Majors

At Trent, you have the flexibility to combine nearly any two programs of your choice. To help you narrow it down, here's a list of some of our most popular combinations:

Media Studies & Psychology; Biology & Psychology; Environmental Studies & Biology; Child & Youth Studies & Psychology; Geography & Canadian Studies; Economics & Philosophy; Computer Science & Economics; English & Politics

trentu.ca/futurestudents/jointmajors

Explore other popular joint major combinations within our professional programs like Business Administration (see page 45) and Forensic Science (see page 56).

JOURNALISM & CREATIVE WRITING (B.A. & DIPLOMA)

This integrated degree and diploma program offered by Trent University Durham GTA and Durham College gets students career-ready with practical media production experience gained in college, and crucial critical thinking and writing skills developed in university. Through an emphasis on hands-on learning, you'll gain new confidence building a strong portfolio of work that will help launch your future journalism, broadcasting and media.

The Trent Advantage

Develop career-based skills in journalism, social media and content creation, earning both a university degree in Media Studies with an Option in Creative Writing, and a college diploma in Journalism/Mass Media – all in just four years.

Resumé Boosters

- Gain valuable work experience with a

seven week field placement, working with top media outlets such as the Toronto Star, CBC, CTV News, and Metroland

- Sharpen your skills participating in nonfiction and creative writing workshops
- Build a portfolio of work creating content on all media platforms, through a writing workshops and experience in Durham College's 'working newsroom'

Career Paths

Journalist; Content Creator; Editor; Social Media Manager; Author; Producer; Copywriter; Media Relations Specialist; Communications Officer; Broadcaster; Investigative Reporter; PR Professional; Website Developer; Digital Media Strategist

Popular Courses

Writing for Broadcast; Print & Web Design; Feature Writing & Publishing; Television Studies; Visual Media; Critical & Opinion Writing

KINESIOLOGY (B.Sc.Kin.)

Get moving on a career in Kinesiology with this interactive professional degree. Trent's four-year B.Sc.Kin. degree focuses on human performance and function across the life span. You're encouraged to get hands-on – in the lab and out in the community – working with everyone from Olympic hopefuls to senior citizens. Get advanced clinical and practical perspective through courses integrated with Trent's Nursing program, as well as classes in exercise physiology, anatomy, biomechanics, injury management, and exercise in chronic disease. By the time you graduate, you'll develop the expertise necessary to pursue certification as a registered kinesiologist (R.Kin.).

The Trent Advantage

Kinesiology students at Trent gain career-ready experience with opportunities for active learning. Throughout your undergraduate experience, you'll have a chance to work alongside leading experts in cutting-edge facilities, like Trent's full-equipped exercise physiology lab, learning to work with a variety of clients, including Olympic hopefuls, Indigenous groups, and aging communities.

Resumé Boosters

- Participate in a fourth-year placement, working alongside practitioners at facilities such as the Canadian Sport Institute Ontario, Coaching Association of Ontario, local sports clinics and camps, and Trent Health in Motion

- Engage in a variety of hands-on lab experience, including exercise testing, movement assessments, injury management techniques and functional anatomy
- Put your academic performance into practice at the state-of-the-art exercise physiology lab housed in the Trent Athletics Centre
- Engage in research in Kinesiology, as you complete a thesis under the mentorship of leading professors

Career Paths

Kinesiologist; Athletic Trainer; Coach; Ergonomist; Physical Therapist; Occupational Therapist; Chiropractor; Sports Nutritionist; Podiatrist; Rehabilitation Therapist; Health Promoter

Popular Courses

Sport Psychology; Introduction to Injury Management; Exercise Physiology; Brain and Body in Action; Anatomy of Human Movement; Exercise and Sport in Indigenous Health; Critical Perspectives on Aging

trentu.ca/futurestudents/kinesiology

LAW & ARTS/LAW & BUSINESS

TRENT/SWANSEA DUAL DEGREE (LL.B. AND B.A. OR LL.B AND B.B.A.)

Dreaming of a career in law? The Trent/Swansea Dual Degree program will get you there. In this one-of-a-kind program, you will undertake either a Bachelor of Arts Honours or a Bachelor of Business Administration degree at Trent, Ontario's #1 undergrad university, while also obtaining a law degree from Swansea University's renowned Hillary Rodham Clinton School of Law in the UK – no need to write the LSATs.

The Trent/Swansea Advantage

Graduate with two degrees in just six years, while taking your education across the Atlantic to Wales as you

live, learn, travel, explore, and live abroad.

Your Law Career Starts Here

The first two years of your degree take place at Trent, where you'll pursue your choice of 16 degree options. In third year, you'll transfer to the coastal city of Swansea in Wales to complete three years of law studies, earning your Bachelor of Laws degree. Once your LL.B. is complete, you'll return to Trent to complete your Honours degree credentials. By simultaneously taking several Canadian Law courses in your final year at Trent, you'll be well-prepared for the National Committee on Accreditation (NCA) exams, enabling you to take the required steps to practice law in Canada.

Degree Program Options

Business Administration*; Canadian Studies; Cultural Studies; Economics; English Literature*; Environmental & Resource Studies; Geography; Gender & Social Justice; History*; Indigenous Studies; International Development Studies; Media Studies*; Philosophy*; Political Studies; Sociology*

* degree option offered at both Peterborough and Trent Durham GTA campuses

Resumé Boosters

- Combining your law degree with your choice of B.A. or B.B.A. degree means that you will graduate with a unique set of skills and perspectives
- Meet and learn from top law professionals through our Visiting Lawyers in Residence program – where Trent Chancellor and entertainment lawyer has been known to stop in
- Take a step on your Trail to a career in law at Trill College – a space based on and steeped in tradition and scholarship, complete with a new immersive Law Lab for mock courtroom experiences
- Join the Trent Law Society and benefit from field trips, workshops, and events, all with a focus on law and the legal system

Join fellow students in putting your courtroom skills to the test as you compete in an international moot competition.

Career Paths

Lawyer; Advisor; Mediator; Arbitrator; Politician; Policy Analyst; Consultant; Lobbyist; Law Clerk; Judge; Human Resources Professional; Ombudsperson; International Development Officer; Paralegal

Popular Courses

History of Incarceration; Introduction to Canadian Justice; Justice and Rights; The Legal Environment of Business; Law, Rights, and Development; Philosophy of Law; Criminal Code; Local Dynamics of Change; Global Migration; Government and Politics in the Middle East

trentu.ca/futurestudents/law

PRE-LAW PATHWAYS (B.A. OR B.Sc. HONOURS)

Set on going to law school in Canada? Trent prepares you for success – whether you choose to study in the humanities, sciences, or social sciences. We are known for exceptionally preparing students in all degree programs with the foundational knowledge and skills needed to be successful in LSAT examinations and law school applications. If you wish to specialize your honours degree further, Trent offers an Option in Legal Studies to enhance your degree and your understanding of the legal system in Canada and Canadian Law (see page 71 for more information). And for honours Sociology students, Trent also offers a specialization in Criminology & Sociological Studies (learn more on page 50).

Interested in Law & Science? You'll want to explore Trent's new Law & Policing specialization, available to all Forensic Science majors. Find out more about this one-of-a-kind specialization on page 57.

LOGISTICS & SUPPLY CHAIN MANAGEMENT (B.A.)* NEW

The current global and competitive economic landscapes require greater efficiency, speed and productivity from companies and organizations. Employers need multi-skilled professionals with a command of the most advanced management techniques, who are able to take full advantage of technological information systems and also know how to detect new business niches and even open up new markets. The B.A. in Logistics & Supply Chain Management will equip graduates with skills and experience required to succeed in the in-demand fields of purchasing, planning, production, logistics and distribution. The program is designed to produce managers for

a career in supply chain management. It will also prepare students to achieve the Certified Supply Chain Management Professional (CSCMP) designation.

The Trent Advantage

Benefit from Trent's focus on experiential learning opportunities to connect you with future career prospects. Your in-class education will benefit from Trent's collaborative approach where you will study across disciplines to build a strong foundation of knowledge.

Resumé Boosters

- Take advantage of Trent University Durham GTA's central location with industry right at your doorstep while developing industry expertise through your fourth-year internship capstone as well as hands-on opportunities throughout the program
- Develop both technical and analytical skills required to excel in an emerging field
- Get on track to a fulfilling career in a fast-paced industry with one of our targeted work placements

Career Paths

Supply Chain Logistics Manager; Procurement Director; Logistics Coordinator; Inventory Manager; International Logistics Manager; Logistics Engineer; Purchasing Manager

Popular Courses

The Digital World; Transportation and Logistics Management; New Venture Planning and Design; Data Visualization

trentu.ca/futurestudents/logistics

* Pending Ministry and Quality Assurance approvals

MARKETING & ENTREPRENEURSHIP — POSTGRADUATE CERTIFICATE

Are you interested in starting your own business, inventing a new product, or working in a corporation or startup? In a world that values innovation, creative thinking and original ideas, Trent's Marketing & Entrepreneurship postgraduate certificate program will help you develop your business acumen and better prepare you for a rewarding career in marketing, sales, product development or brand management.

The Trent Advantage

This exciting career-boosting professional program can be completed in as little as eight months of full-time studies, or part-time in two years – after you complete your undergraduate degree.

Resumé Boosters

Studying and exploring topics such as entrepreneurship, marketing, branding and advertising will provide you with the foundational experience to start a business, pursue a passion for research and innovation, or simply to improve marketability to potential employers.

Career Paths

Entrepreneur; Sales Manager; Business Owner; Marketing Manager; Advertising Executive; Digital Marketing Specialist; Brand Consultant

Popular Courses

Entrepreneurship; Advertising; Online Marketing; Introduction to Retail Marketing; Social Enterprise and Social Innovation

MATHEMATICS (B.Sc.)

Astute problem solvers (a.k.a. math graduates) are in high demand throughout the world. In fact, mathematical science careers are estimated to be one of the fastest growing occupation sectors in the coming decade. By studying Mathematics at Trent, you gain a powerful and career-boosting skillset that is crucial for helping make sense of the world around us. In this program, you'll learn about the fundamental structure of the universe and the limits of human reason exploring topics like calculus, algebra, probability, and statistics.

The Trent Advantage

Learn and work alongside expert faculty members and find a community of mentors and scholars dedicated to challenging and strengthening your skills.

Resumé Boosters

- Test your math skills and knowledge in our Math Resource Room accessing mathematical and statistical software, such as Maple and MatLab
- Work alongside leading professors through summer research opportunities working on topics like statistical modelling of air pollution, and mathematical biology
- Take advantage of part-time employment opportunities available in marking and tutoring
- Become a member of our Society of Undergraduate Mathematics Students (SUMS) and join in events and workshops related to all things math

Career Paths

Economist; Financial Auditor; Account Executive; Purchasing Agent;

Econometrician; Accountant; Financial Analyst; Industry Researcher; Banker; Investor; Insurance Analyst; Architect; Robotics Programmer

Popular Courses

Linear Algebra; Statistics; Probability; Discrete Structures; Mathematical Reasoning; Ordinary Differential Equations; Linear Programming; Metric Geometry and Topology; Graph Theory; Mathematics Honours Projects

trentu.ca/futurestudents/math

Specializations

MATHEMATICAL FINANCE

trentu.ca/futurestudents/mathfinance

Mathematical finance is a dynamic new branch of mathematics. Now, more than ever, mathematics grads are sought after by top financial institutions. To help meet this need, enter this specialization for mathematics majors at Trent. Dive in and develop your mathematical modelling, data analysis, and computational skills using statistics, linear programming, and stochastic processes. You'll learn how best to apply these techniques to finance and investment strategy and market models.

STATISTICS

trentu.ca/futurestudents/statistics

Dive deep into the data to uncover insights into the world around you. Through a specialization in Statistics, students pursuing a degree in Mathematics will learn to incorporate pure math, big data, and computing to navigate the knowledge interwoven in numbers, paving the way for career success in everything from medicine and communications to marketing and technology.

MATHEMATICAL ECONOMICS (B.Sc.)

Explore the complex and ever-changing economic dilemmas that the world faces; examine the production and distribution of scarce resources – all as a Mathematical Economics student at Trent. By combining core courses in economics and mathematics, you'll learn how to analyze, strategize, understand bargaining and auctions (game theory), make sense of complex economic data (econometrics), maximize profit and minimize costs (optimization), and augment happiness (welfare economics).

The Trent Advantage

Rise to the challenge of complex material and problem solving as you acquire skills ideal for graduate studies or for a career in government, banking, or business.

Resumé Boosters

- Undertake a research project with your professor and gain hands-on experience working with an expert in the field on topics such as portfolio optimization and econometric modelling
- Take courses that encourage you to move beyond theory to applying your skills and knowledge outside the classroom, the University and beyond
- Where in the world do you want to learn more about math? Set your sights on the horizon and internationalize your degree with a study abroad experience.

Career Paths

Economist; Rate Analyst; Financial Auditor; Fraud Investigator; Account Executive; Economic Advisor; Econometrician; Financial Analyst; Banker; Investor; Insurance Analyst

Popular Courses

Statistics for Economics and Management; Mathematical Economics and Economics Models; Statistical Inference; Econometrics; The Canadian Economy; Mathematical Risk Management

trentu.ca/futurestudents/matheco

MATHEMATICAL PHYSICS (B.Sc.)

With Mathematical Physics you learn what makes the world go round...literally!. This combination of a math and physics degree gives you both the tools and framework needed to understand a variety of the world's most fascinating challenges – from climate change, to celestial mechanics and computational biophysics. Trent's Mathematical Physics program is the perfect balance of theory and practice for developing versatile analytical skills in an ever-changing modern world.

The Trent Advantage

Benefit from a small group, interactive learning environment, with access to state-of-the-art equipment for lab work, including high-powered computers, powerful lasers and microscopes, and biomaterial characterization tools.

Resumé Boosters

- Independent and group research projects allow you to put your skills to the test in real-world applications and settings
- Take your education around the globe

through the Trent Physics Study Abroad program

- Move beyond theory and put your skills and knowledge to work through practical and hands-on courses

Career Paths

Aerodynamics Specialist; Research and Development; Astrophysicist; Climate Modeller; Professor; Subatomic Physicist; Superconductivity Researcher; Financial Analyst; Secondary School Teacher

Popular Courses

Quantum Physics; Computational Physics; Probability; Complex Analysis; Quantum Mechanics; Methods of Applied Mathematics

trentu.ca/futurestudents/mathphysics

MEDIA STUDIES (B.A.)

Media dominate our world and shape our perceptions of reality. In this popular program, students are invited to engage with and navigate the mediated world both in theory and practice. In Media Studies, you'll examine the influence of advertising and ideology, the principles of multimedia design, the political economy of media corporations and best practices for effective storytelling across all mediums. You'll also benefit from our interdisciplinary curriculum, learning across subjects from the humanities to the sciences.

The Trent Advantage

Earn credit for doing as well as thinking, gaining hands-on experience by fabricating 3D-printed objects, bending circuits, shooting on 16mm film, or creating fake social media profiles.

Resumé Boosters

- Chart your own course by taking classes from a dozen contributing departments including Anthropology, Cultural Studies, Computer Science, and Political Studies
- Take workshop, internship, and community-based research courses with professors and media professionals and gain experience working with organizations like Artspace, Global TV, Trent Radio, and the ReFrame Film Festival
- Get hands-on as you build a portfolio of your work with media new and old: compose music, code video games, write blogs, create podcasts, take photos, and report the news

Career Paths

Internet, TV, and Radio Production Manager; Media Executive; App Developer; Music Industry Consultant; Journalist; Advertising and Marketing Executive;

Games Developer; Visual Arts Consultant; Exhibit Designer; Creative Consultant; Digital Media Specialist; Animator; Medical Illustrator

Popular Courses

Global Media; Workshop in Photography; Digital Media Lab; Branding; Virtual Worlds: The Anthropology of Online Communities; Human Computer Interaction; Game Studies; Producing Punk

Accelerated Masters

Earn your Master's degree in Cultural Studies within one year of graduation from your honours B.A.

trentu.ca/futurestudents/mediastudies

MEDICAL PROFESSIONAL STREAM (B.A. OR B.Sc.)

YOUR CAREER IN MEDICINE/VETERINARY STARTS AT TRENT

Through our unique Medical Professional Stream, you'll get the direction and assistance you need to achieve your medical, dentistry, veterinary, or pharmacy school dreams throughout your undergraduate degree. Medical schools and professional programs are looking for more than just good grades; they want well-rounded applicants who stand out from the crowd. The exclusive Medical Professional Stream (MPS) program at Trent provides support to meet these non-academic requirements by providing you with invaluable guidance when choosing courses, volunteer activities and other skills development opportunities.

The Trent Advantage

Trent's one-of-a-kind preparatory program is taken jointly with any B.A. or B.Sc. degree and gives you access to a variety of support and guidance services.

Program Highlights

- Select your major (or joint major) in a B.A. or B.Sc. program of your choice
- Tailored training experience that helps you secure the right courses to

prepare for the MCAT

- Small class sizes give you better access to professors, improving your chances of getting those much-needed reference letters
- Fast track your career in medicine and gain entry to Medical or Veterinary School through unique pathways for Trent graduates to receive direct entry to St. George's University (SGU), on the island of Grenada, West Indies, the University of Medical and Health Sciences in St. Kitt's, or Trinity Medical Sciences University in Saint Vincent and the Grenadines

Resumé Boosters

- Gain valuable volunteer experience in a range of healthcare oriented and other community settings, as well as not-for-profit organizations
- Benefit from faculty and physician mentoring through advising and information sessions
- Get published through undergraduate research opportunities in your chosen degree
- Join the Trent University Emergency First Response Team and the Premedical Society

Career Paths

Doctor; Veterinarian; Dentist; Pharmacist; General Practitioner; Surgeon; Medical Sales; Policy Advisor; Health Care Practitioner; Researcher; Professor; Medical Writer; Public Health Specialist

Popular Courses

Critical Thinking; Intro to Psychology; Human Physiology; Intro to Canadian Justice; Biological Anthropology; Becoming Human; Moral & Political Philosophy; Foundations of Biomedical Science; Digital World; Introductory Crime Scene Investigation

trentu.ca/premedicalstudies

MEDICAL PROFESSIONAL STREAM FOR INDIGENOUS STUDENTS

Are you a high school student who dreams of pursuing medical school? Do you self-identify as First Nations, Métis or Inuit? Trent's new pathway for Indigenous students within the Medical Professional Stream provides you with a clear and well-supported route to medical, dental, or veterinary

school. Learn more about making your medical dreams a reality.

trentu.ca/premedical/indigenous

MEDICAL & VETERINARY SCHOOL PATHWAYS

Aspiring to be a doctor or veterinarian? Trent has developed unique partnerships that set our students on the path to gain direct entry from the Medical Professional Stream into your choice of respected medical/veterinary schools in the sunny Caribbean:

St. George's University Medical & Veterinary School Pathway (Grenada)

Meet the requirements of this pathway and travel to the oceanfront campus of St. George's University in Grenada, West Indies where you will be guaranteed entry into either the School of Medicine or School of Veterinary Medicine. As part of the SGU medical school, students can complete clinical rotations at hospitals in the US or the UK. Graduates are qualified to write their US and Canadian licensure exams and complete residencies in the US, Canada or the UK. Students in the School of Veterinary Medicine complete their first three years of study at St. George's, before heading off for their final clinical year at affiliated veterinary schools in the US, UK, Canada, Australia or Ireland. Successful graduates of the St. Georges School of Veterinary Medicine can be licensed to practice in either Canada or the US.

trentu.ca/premedicalstudies/stgeorges

University of Medical and Health Sciences (St. Kitts)

After completing your undergrad in Trent's MPS you can pursue your MD at The University of Medical and Health Sciences (UMHS), one of the Caribbean's most prestigious medical schools in sunny St. Kitts. While studying at UMHS, students will gain a thorough understanding of biomedical sciences required for a career as a medical doctor before completing their degree in the U.S. on the UMHS's campus in Portland Maine. Here, students prepare for the United States Licensing Exams (Step 1), a requirement to proceed to the sixth semester. Students spend their final semesters completing clinical rotations with opportunities to attain residency and graduate with licensing across the US and Canada.

trentu.ca/premedicalstudies/stkitts

Trinity Medical Sciences University (Saint Vincent and the Grenadines)

Gain experience in three countries on the road to your medical degree. Through this pathway to Trinity Medical Science University, graduates of Trent's Medical Professional Stream will be able to pursue their MD at TMSU in Saint Vincent and the Grenadines, as well as their campuses in the United States. This partnership between Trent and Trinity also offers a competitive opportunity to pursue a mini clerkship in your second or third year at Trent at TMSU's teaching hospitals in the USA. At Trinity, one of the top accredited schools in the Caribbean, clinical experience begins in the first term as MD students, and continue throughout your training. Following two years of comprehensive study, including clinical experience, you can transition to the U.S. for clinical clerkships. Successful graduates of the SGU medical school are qualified to complete their residencies and write their licensure exams in the US or Canada.

trentu.ca/premedicalstudies/trinity

TRENT/FLEMING SCHOOL OF NURSING

The Trent/Fleming School of Nursing (TFSON) empowers future nursing professionals, providing students with strong scientific knowledge, compassion and social responsibility. Accredited by the Canadian Association of Schools of Nursing, Trent's nursing programs place an emphasis on experiential learning and a holistic approach to healthcare.

Four Program Options in the School of Nursing

The Trent/Fleming School of Nursing offers four program options in collaboration with Fleming College and in partnership with George Brown College:

1. **Integrated, collaborative four-year degree program leading to a Bachelor of Science in Nursing (B.Sc.N.) degree**
2. **Compressed 28-month program for students with sufficient university credits to fast track through the program**
3. **Post-bridge RPN to B.Sc.N. pathway program**
4. **Diploma in Foundations of Indigenous Studies for Future Nursing Students**

BACHELOR OF SCIENCE IN NURSING (B.Sc.N.)

At the frontlines of healthcare, nurses are figures of wellness, support, and strength. At Trent, we emphasize a well-rounded approach to healthcare and will prepare you for success whether you want to work in a hospital setting or somewhere less traditional. Beginning in year one, you will be immersed in both theory and practice through lectures, seminars, case studies, simulation labs, online coursework, and clinical practice. You will not only develop the important skills necessary for nursing, you'll also have the opportunity to practice what you've learned through a range of hospital and community placement settings.

The Trent Advantage

Develop a strong understanding of social justice and political advocacy in the healthcare environment by choosing courses with topics including aging, mental health, Indigenous communities, rural, and women's health and gender. You will study content across the five foci to deepen your knowledge in these areas.

Resumé Boosters

- Get hands-on experience with 1,300 hours of clinical, placements over four years of study
- Build your confidence and skills through hands-on learning in Trent's Life and Health Sciences facility, home to simulation labs that include the leading-edge clinical simulation learning centre, a maternal/ child and community care simulation space
- Present your work (and your expertise) at regional health conferences
- Study abroad in rural Honduras or Guatemala in field placements including

projects at the Reyes Irene School for Girls in Honduras.

Career Paths

Acute Care Nurse; Community Health Nurse; Mental Health Nurse; Clinical Instructor; Palliative Care Nurse; Nurse Educator or Manager; Occupational Health Nurse; Research Nurse; Pediatric Nurse

Popular Courses

Transcultural Concepts in Healthcare; Biomedical Ethics; Transitions in Health and Illness; Rural Nursing Practice; Contemporary Issues in Aging and Health

trentu.ca/futurestudents/nursing

TRENT ONLINE

Challenge the way you think... about how and where you complete your postsecondary education.

With Trent Online, you'll get a front row seat to an engaging learning environment and online community, filled with opportunities for you to interact with professors and fellow classmates. You'll have year-round access to a wide range of programs and courses taught by leading faculty, as well as rich multimedia content such as video, simulations, virtual gaming and more.

The Trent Online Advantage

- Freedom of flexibility: work at your own pace, negotiate your exam schedule and structure your courses and timetable to best suit you
- Choose from over 100 different courses offered each year across a diverse range of programs
- Get ahead in your studies by taking an online course in the summer

Popular Courses

Dreams and Dreaming; Death in the Peaceable Kingdom; Canadian History through Murder, Execution, Assassination and Suicide; The Revolution Will Be Recorded; Popular Culture, Gender and Social Movements; Computer Crime and Forensics; Artificial Intelligence; Introduction to Genetics; Love and Hate; Islam and Terrorism; Social Construction of Sexuality; Deviance and Social Control

trentu.ca/online

PHILOSOPHY (B.A.)

Philosophy engages with important and enduring questions about the world and our place in it. Studying Philosophy cultivates good reasoning and effective communication. As a Philosophy student at Trent, you will explore the nature of

reality, the limits of knowledge, and systems of value. You will be challenged to think critically and creatively as you develop your own ideas in relation to a wide range of philosophical perspectives.

The Trent Advantage

Experience philosophy through events including the Ryle Lecture Series, and become part of a vibrant, tight-knit community where professors value personalized interactions.

Resumé Boosters

- Put your work on display at the Trent Philosophy Society's annual student symposium
 - Learn and conduct research alongside leading faculty, including the Kenneth Mark Drain Chair in Ethics
 - Enjoy generous awards and scholarships available exclusively to Philosophy majors
 - Share your knowledge, papers and research with the world at conferences and symposiums
 - Interact with our strong network of Philosophy alumni which includes Yann Martel, bestselling author of *Life of Pi*
- Career Paths**
Arbitrator; Intelligence Analyst; Legislative Assistant; Entrepreneur; Politician; Hospital Administrator; Advertising Executive; Lawyer; Public Administrator; Human Rights Officer; Medical Ethicist; Doctor; Equity Advisor; Ethics Consultant; University President (ours is a philosophy grad!)

Popular Courses

Philosophy of Emotion; Biomedical Ethics; Critical Thinking; Love and Desire; Philosophy of Law; Death; The Meaning of Life; Philosophy of Mind; Moral Issues; and Cyberethics

trentu.ca/futurestudents/philosophy

Specialization

ETHICS

trentu.ca/futurestudents/ethics

From global pandemics and democratic participation, to the proliferation of information and the protection of online privacy — serious ethical questions arise as we respond to, and shape, changes in the world. We need individuals with a deep understanding of ethics across sectors to ask tough questions and to guide us through ethical debates. For students pursuing a single or joint-major Philosophy degree, this specialization offers a solid foundation in ethical theory and applied ethics related to the fields of medicine, resource management, computing, law, and business.

PHYSICS (B.Sc.)

Imagine studying the structure of galaxies, developing new technology in highspeed communications, or contributing to the advancement of medical science. As a student of Trent's Physics program, you'll learn to bring abstract yet powerful concepts to life by asking important questions about the most basic particles and forces in nature. Apply what you learn to complex systems such as quantum materials, lasers technologies, and celestial bodies. With a Physics B.Sc. degree, you will help shape and advance our understanding of the world as we know it.

The Trent Advantage

Benefit from a small-group and highly interactive learning environment, with access to the advanced equipment and instrumentation in on-campus computer labs, laser biophotonics facilities, and a biomaterials research centre.

Resumé Boosters

- Put your knowledge into action through hands-on research in courses, a senior thesis, or summer research project with world-expert professors exploring topics ranging from two-dimensional superconductivity, to galaxy formation and microwave fruit plasma
- Get involved in the Trent Physics Club, and expand your horizons through lab tours, events and participating in the annual Canadian Undergraduate Physics Conference
- Take your education global through Trent's Physics Study Abroad program

Career Paths

Astronomer; Biophysicist; Climatologist; Electronics Developer; Air Traffic Controller; Meteorologist; Nuclear Reactor Operator; Patent Lawyer; Financial Analyst; Materials Scientist; Optical Design Specialist; Molecular Physicist; Radiology Lab Director; Quantum Computing Specialist; Nanotechnologist

Popular Courses

Astrobiology: Life in the Universe; Quantum Physics; Atomic, Molecular and Nuclear Physics; Modern Optics; Condensed Matter Physics; Astrophysics; Galaxies and Cosmology

trentu.ca/futurestudents/physics

POLICING & COMMUNITY WELL-BEING (B.A.)

Interested in playing a vital role to keep members of your community safe, well, and healthy? Trent's new Policing & Community Well-Being degree is designed to shape the skills of tomorrow's

policing professionals in Canada. Prepare to empower citizens, and work as an integrated network of professionals that includes not only law enforcement agencies, but not-for-profit organizations, healthcare professionals and social workers. At Trent you can prepare to be part of a transformation that keeps society healthy and secure, as you learn from experts in Sociology, Indigenous Studies and Social Work. Through partnerships with social service, mental health and policing agencies across Ontario you will also gain hands-on experiences that put your course learning into meaningful practice, and give you an edge in the job market by solidifying social networks and enhancing future career development.

The Trent Advantage

Be a part of a truly unique degree experience: the only community-inclusive policing program of its kind in Canada.

Resumé Boosters

- Undertake an eight-month work placement in fourth year with social agencies that help to support marginalized community members, as well as police departments
- Apply the principals of collaboration, communication and inclusion to enhance community well-being and security through a work-integrated learning experience
- Put theory into practice through use and analysis of real-life data and direct exposure to societal issues including mental health, diversity, poverty and addiction
- Analyze community diversity challenges and initiatives in Ontario municipalities and offer inclusive solutions to community problems

Career Paths

Police Officer; Correctional Officer; Mental Health Worker; Canadian Border Security Officer; Community Outreach Worker; Conflict Mediator; Probation Officer; Crime Analyst; Lawyer; Policy Analyst

Popular Courses

Transformative Community Policing; Social Determinants of Health; Restorative Justice; Mental Health, Addiction & Community Well-Being; Violence in the Community; Problem Solving in a Complex and Diverse Community

trentu.ca/futurestudents/policing

POLITICAL STUDIES (B.A.)

What is power? How do power relations and structures shape Canadian society and

societies around the world? What is the relationship between states, businesses, nongovernmental organizations, social movements/protests and citizens? Why is consent to be governed provided and withdrawn? Explore these and many other questions in Political Studies at Trent, where you will sharpen your analytical skills and learn how to make a positive impact in the world. At Trent, you have an ability to focus on Canadian politics, world politics or political theory. Immerse yourself in understanding political structures and systems, as you engage in lively debates and discussions exploring ideas like democracy, liberalism, political protests and globalization.

The Trent Advantage

Small classes and interactive seminars allow students to make real connections to expert faculty as you contemplate important political issues and discover how to engage politically on a local, national and global scale. In doing so you will gain career-ready critical skills while tailoring a degree to your interests.

Resumé Boosters

- Apply your learning to the real world through a community engagement project, field placement, or research practicum, gaining valuable hands-on experience in qualitative research methods
- Get published — complete a fourth-year thesis under the supervision of expert faculty who are leaders in the field
- Go global and internationalize your degree (and experience) through a study abroad opportunity
- Build a foundation for more advanced study in various domains of political studies

Career Paths

Policy Analyst; Government Relations Specialist; Journalist; Lawyer; Communications Manager; Media Consultant; Entrepreneur; NGO Staffer; Public Relations Professional; Ministerial Assistant; Lobbyist; Political Researcher and Consultant; Political Campaign Organizer; Health & Social Policy Researcher; Campaign Manager

Popular Courses

Politics and Creativity; Green Politics; Globalization and Politics of Work; Poverty, Politics and Protest; Critical Security Studies; Causes of War; City, Policy, Economy; Gender and Politics in Canada; Political Imagination; Power & Resistance; Politics & Film

trentu.ca/futurestudents/politics

Specialization

PUBLIC POLICY

trentu.ca/futurestudents/publicpolicy

Looking to pursue a career in developing, analyzing and adapting innovative policy that strike a balance between the social, environmental and economic needs of today? The specialization in Public Policy is the ideal path for students in Political Studies who are interested in pursuing a career in public service, think tanks, as well as non-governmental and intergovernmental organizations.

PSYCHOLOGY (B.A. OR B.Sc.)

Psychology is the study of human behaviour, the brain, and the mind. More than that, it is an examination of how and why people act, think, and feel the way they do. At Trent, Psychology students dive into diverse topics, from personality and child development, to abnormal psychology and neuroscience, and beyond. No matter your area of interest, you will work closely with faculty who are devoted to teaching and research, and create opportunities for interactive, experiential learning for students to strengthen their knowledge and professional skills related to understanding ourselves.

The Trent Advantage

A degree as unique as you are — get credit for tailoring your interests, exploring courses in neuroscience, emotional intelligence, sexuality, anxiety, health, development, language impairment, perception, and memory.

Resumé Boosters

- Undertake an independent research thesis or practicum and work one-on-one with award-winning faculty
- Work through real-life scenarios with case studies that explore advanced abnormal psychology, substance-related disorders or educational psychology
- Apply the skills you learn in the classroom to a real-world healthcare setting through unique new research placement on aging
- Get excellent reference letters from your profs for grad school or your first job thanks to our highly personalized learning environment

Career Paths

Therapist; Counsellor; Crisis Intervention Officer; Police Officer; Behaviour Analyst; Rehabilitation Advisor; Social Worker; Family and Crisis Counsellor; Research

Analyst; Child Protection Worker; Behaviour Analyst; Statistician

Popular Courses

Drugs and Behaviour; Abnormal Psychology; Child Development; Neuropsychology; Human Sexuality; Environmental Psychology; Behaviour Modification; Health Psychology; Psychology of Evil

trentu.ca/futurestudents/psychology

Specialization

PSYCHOLOGICAL DEVELOPMENT

trentu.ca/futurestudents/psychdevelopment

Unravel the mystery of the mind and how the human brain develops from day one. Choose to focus your studies on children and youth or set your sights on adults and aging. Psychology majors can get real-world experience through practical and research opportunities in Trent's Living Lab or in the community.

SCIENCE, HONOURS (B.Sc.)

With so many leading-edge science facilities and notable faculty members at Trent, choosing the science degree you want to pursue can be challenging. If you're interested in general sciences but haven't yet decided on a specific program, this flexible first-year pathway is for you. Honours Science allows you to explore courses across various science programs before declaring a major or joint-major in your second year. You can even choose to combine different disciplines, taking courses from programs across both the sciences and arts.

The Trent Advantage

- Put your science interests to the test in world-class labs and on-campus science and research facilities including the Canadian Environmental Modeling Centre, Trent Water Quality Centre, and the DNA Profiling and Forensic Centre, to name a few
- Learn alongside the experts in a variety of science disciplines – who better to help you find your academic path?
- Get hands-on research experience starting as early as first-year with dedicated mentorship from instructors and faculty exploring research topics including climate change, infectious diseases and data analytics

Program Paths

Start in Honours Science in first year and

move into the science program of your choice in second year – Environmental Science, Biology, Chemistry, Mathematics, Physics, Psychology...which major will you choose?

Popular Courses

Explore your interests by taking a variety of introductory first-year courses in virtually any science discipline, including: Biological Anthropology: Becoming Human; Human Anatomy; The Digital World; Introductory Astronomy

trentu.ca/futurestudents/honoursscience

BACHELOR OF SOCIAL WORK (B.S.W.)

Social work is a career that is both challenging and highly rewarding. In studying Social Work at Trent, our truly interdisciplinary approach to this field allows students to broaden their perspectives and skills in important areas of study including anti-oppression, diversity and social justice. Learn firsthand how to make a positive impact on the lives of people facing challenges including poverty, substance use, crime, and racialized or sexualized violence, while developing a strong foundation of clinical knowledge, critical thinking, and social responsibility. Students who excel in the first two years of this program apply to move into the competitive professional (third and fourth) years, which feature an exclusive focus on social work theory and practice.

The Trent Advantage

Graduate from a fully accredited social work program that qualifies students for success in your chosen career path as a registered social worker with the Ontario College of Social Workers and Social Service Workers.

Resumé Boosters

- Complete 700 hours of hands-on supervised field placement in the professional years program, working with mental health associations, sexual assault centres, community counselling groups, shelters, and social services organizations
- Make a difference through social and community events that take place on campus every day or by joining the Trent Social Work Society
- Meet leading thinkers and social activists in the field through a variety of on campus lectures and workshops

Career Paths

Social Worker; Career Consultant; Life Coach; Community Developer; Child

Protection Manager; Probation/Parole Officer; Victim Services Worker; Mental Health Counsellor; Social Policy Analyst; Addictions Worker; Therapist

Popular Courses

Social Welfare; Social Work Research; Anti-oppressive Child Welfare; Substance Use, Mental Health, and Recovery; Feminist Informed Trauma Practice; Social Work Communication; Social Work and Indigenous Perspectives

trentu.ca/futurestudents/socialwork

SOCIOLOGY (B.A.)

How do social constructs like gender, race and class impact the experience of individuals? How do movements for social justice support progress towards a more equitable world? Students in Sociology at Trent explore the complex contexts of how people live their lives, and the societies in which we choose to organize ourselves. Rooted in the social sciences and inspired by a passion for social justice, this program is progressive, critical and timely in the way it engages students in understanding and acting on the consequences of social change. Through this degree, you'll explore and question a diverse range of social topics, completing your studies with a heightened understanding of human relationships and society. A Sociology degree is an excellent foundation for law school, teachers college, social work or similar programs.

The Trent Advantage

Gain firsthand research experience in a supportive environment as you work with experts in the fields of aging, law, medicine, popular culture, and sexuality.

Resumé Boosters

- Conduct original research with one of our award-winning faculty members, in areas of LGBTQ+ issues, the pharmaceutical industry, or human rights in prisons as part of our research practica opportunities
- Meet and learn from leading thinkers in the field through guest lectures and speaker series held throughout the year
- Present your work at a symposium with other undergraduate students

Career Paths

Social and Market Research; Community Development; Social Policy Analyst; Municipal, Provincial, Federal Civil Service; NGO Administration and Service; Parole/ Probation Officer; Mediator; Labour Analyst; Counsellor; Social Worker; Health Educator; Recreation Therapist

Popular Courses

Sociology of Education; Critical

Criminology; Sociology of Health and Illness; Sociology of Families and Households; Aging and the Lifecourse; Workplace Organizations, Diversity and Inclusion; Sociological Perspectives on Homelessness; Cultures of Knowledge; Sociology and Law

trentu.ca/futurestudents/sociology

Specializations

CRIMINOLOGY & SOCIO-LEGAL STUDIES

trentu.ca/futurestudents/criminology

For students pursuing an Honours Sociology degree, this standout specialization explores the study of crime and punishment, the influence of social inequality as a cause of crime, and how criminals and victims are treated by the criminal justice system. You'll apply your sociological knowledge and potentially perform independent research on homelessness, the criminalization of women, restorative justice or the impact on Indigenous peoples.

HEALTH STUDIES

trentu.ca/futurestudents/healthsciences

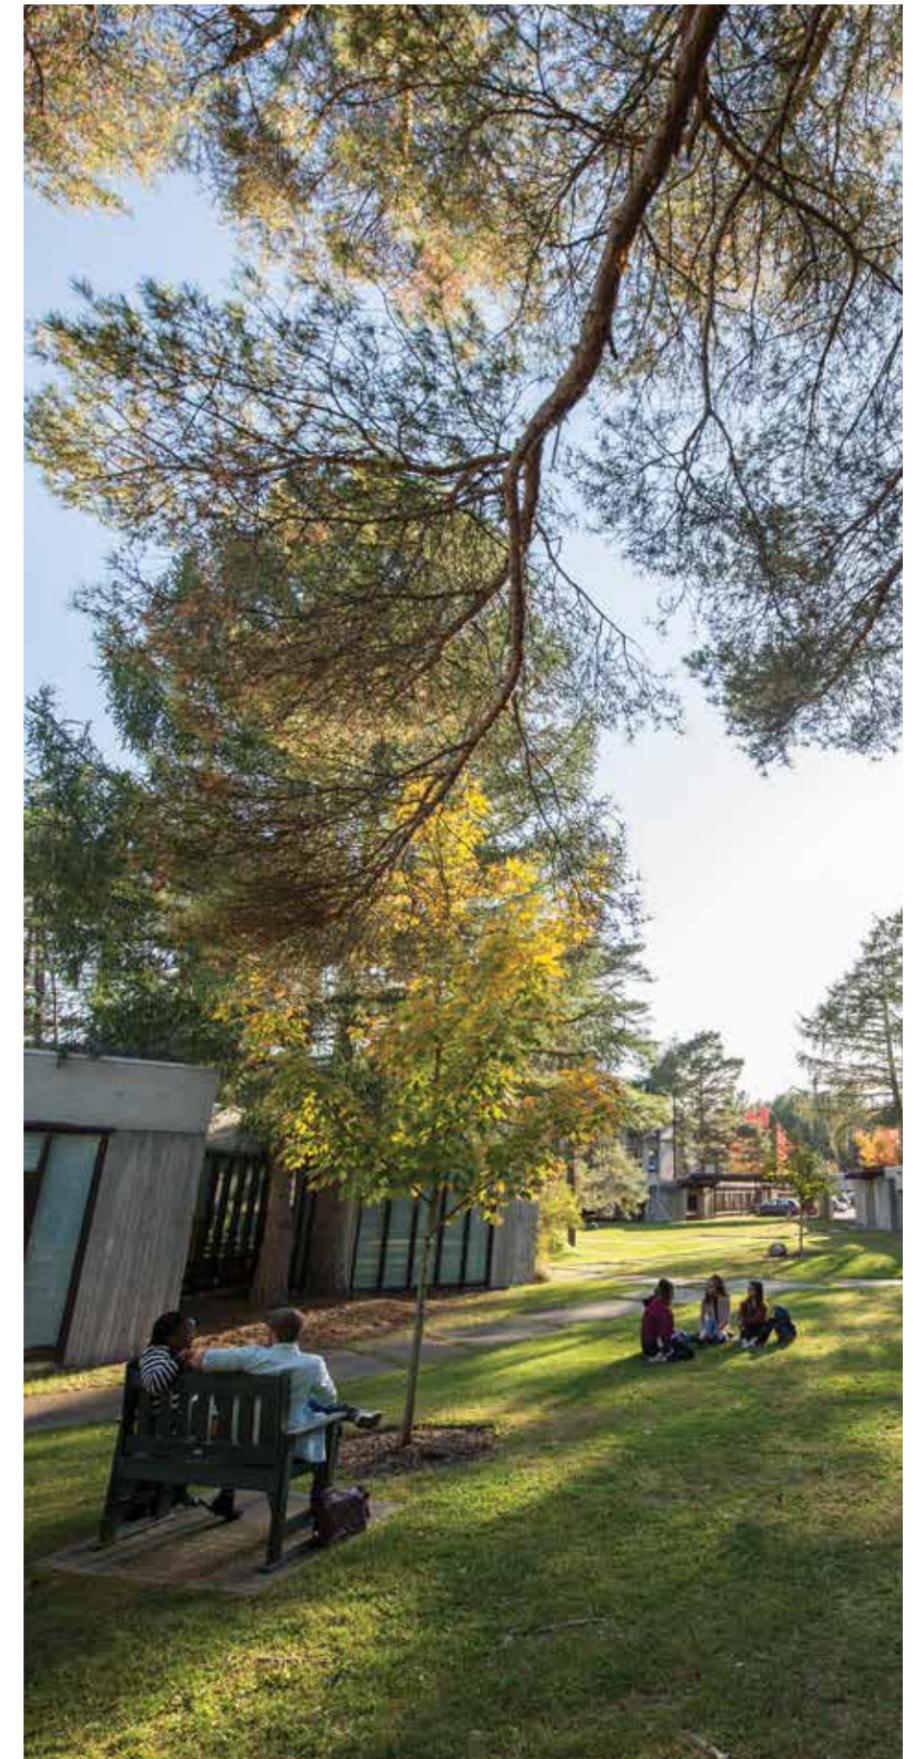

If your interest in wellness, illness, and medicine begins at the cellular level, Health Sciences is the specialization for you. Ideal for students who want to focus on the research and lab-based side of healthcare, Trent's Specialization in Health Sciences offers you the distinct opportunity to study the theoretical aspects of medicine and apply your knowledge through an internship with a collaborating agency or individual sponsor in a health-related setting.

SOCIAL JUSTICE & EQUITY STUDIES NEW

trentu.ca/futurestudents/socialjustice

Be a driving force behind the creation of a more inclusive world and broaden your understanding of the dimensions and intersections of social equality, including gender, race, class and sexualities. Gain insight into issues impacting equality in communities and workplaces in Canada and around the world. This specialization equips Sociology students to be sought-after talent in diverse career paths including advocacy, social work, policing and human resources.

YOU HAVE OPTIONS

An option is a “mini-minor” – a set of courses in one discipline that can be completed in conjunction with any undergraduate degree program, allowing you to focus on an additional subject of interest.

APPLIED ETHICS

With courses grounded in critical thinking, ethical theory and applied ethics, this emphasis is ideal if you are interested in everything

from advocacy and public policy issues to working in the fields of medicine, law, environmental resource management, business and computing.

trentu.ca/futurestudents/ethicsoption

CIRCUMPOLAR STUDIES

One of only a few programs of its kind in the world, the Circumpolar Studies option offers you a unique opportunity to broaden your knowledge and understanding of the lands, peoples, and critical issues of the Arctic.

The Circumpolar Studies Option is open to all existing undergraduate students at Trent University.

trentu.ca/futurestudents/circumpolaroption

COMMUNICATIONS

Further develop your creative and logical thinking, project management, teamwork, problem analysis, and clear and persuasive communication skills. In this option, you'll also have a chance to participate in the community-based capstone course.

trentu.ca/futurestudents/commsoption

CREATIVE WRITING

The ability to think creatively, write effectively, and craft interesting stories are extremely valuable skills for any degree major to

possess. Through workshops and writing assignments, this fun and practical option helps you develop new writing techniques, create invaluable writing communities, and build a growing portfolio of work in fiction, poetry, creative non-fiction, and script-writing.

trentu.ca/futurestudents/writingoption

EDUCATION

Learn to teach a wide variety of curriculum and subject – an important skill for all elementary and intermediate

school teachers. If you're planning on pursuing your B.Ed., this option provides you with a range of education-relevant courses in math, sciences, the arts and more.

trentu.ca/futurestudents/educationoption

GEOGRAPHICAL INFORMATION SYSTEMS

As an Archaeology, Geography or Environmental & Resource Science student, you can pursue an option in GIS, the field that connects

geography to data. Offered in partnership with Fleming College, this option will allow you to visualize, question, analyze, and interpret data to understand relationships, patterns, and trends.

trentu.ca/futurestudents/gisoption

GLOBAL POWER & POLITICS

The most urgent political problems of our time pose fundamental moral problems that require not only goodwill and commitment, but a deep

understanding of the mechanisms of global power and politics. Enter this option, designed to enable you to develop a critical understanding of the formal, informal, visible and hidden structures of power in the global age and the mechanisms that propel global power and politics.

trentu.ca/futurestudents/globalpoliticsoption

HEALTH & MEDICAL HUMANITIES NEW

Learn about arts-based approaches to health, what it takes to make good ethical decisions in a medical context, and how the arts

influence and are influenced by cultural views on health and wellness. This option encourages students to make connections between how we imagine health, illness, and disabilities and our lived experiences of them. Designed for students considering a wider range of health-related and caring professions, not only as doctors, nurses, social workers, and pharmacists, this option will prepare you for a career working in public health, bioethics, arts-based therapies, pharmaceutical sales, medical insurance, health communication, health administration, and health law.

trentu.ca/futurestudents/healthhumanitiesoption

INDIGENOUS RECONCILIATION & RESURGENCE

Over the last few decades, the resurgence of Indigenous peoples has largely animated the Canadian national project of reconciliation.

In this option, you will acquire the knowledge and skills necessary to effectively contribute to this nationwide conversation.

trentu.ca/futurestudents/indigenousoption

INTERNATIONAL DEVELOPMENT STUDIES

Gain a critical understanding of the processes of change that shape the globe. Explore the relationship between colonialism, development, and globalization to address issues of inequality, poverty, the environment, gender, human rights, migration, food, agriculture, health, culture, and ethnicity in different regions of the world.

trentu.ca/futurestudents/idsoption

LANGUAGES

As the world becomes increasingly connected, knowing how to communicate in multiple languages can be a valuable asset, opening professional opportunities across the globe. Through this option, students can select a series of engaging courses within a wide variety of languages. Chinese, French, German, Spanish – at Trent you can study them all.

trentu.ca/futurestudents/languagesoption

LEGAL STUDIES

Understanding the legal system in Canada is valuable for everyone, not just lawyers and policy makers. A complement to virtually any B.A. or B.Sc. degree, this option provides students with fundamental knowledge about Canadian law. You'll learn about rights and freedoms, what it takes to draft and pass new laws, and how the law influences and is influenced by society and culture.

trentu.ca/futurestudents/legaloption

LINGUISTICS

Embrace your love for communication. This option enables students to focus on courses designed specifically to complement your studies

in a language or languages. Following an introductory course in linguistics, students may choose from a variety of courses across a number of departments, including French & Francophone Studies, English Literature, Anthropology and Ancient Greek & Roman Studies. You can tailor this option to your specific interests in language and linguistics.

trentu.ca/futurestudents/linguisticsoption

MARKETING

Enhance your business acumen by gaining a basic understanding of core concepts and marketing principles in addition to learning the fundamentals of business, advertising, market research and beyond.

trentu.ca/futurestudents/marketingoption

PLANNING

The ideal program for future urban planners, this career-focused option will challenge you to develop and design healthy, sustainable and efficient urban communities. With plenty of hands-on intensive field work, you'll acquire advanced knowledge about urban planning and position yourself as an excellent candidate for grad school.

trentu.ca/futurestudents/planningoption

PRE-MEDICAL STUDIES

Medicine, dentistry, veterinary and pharmacy – just a few professional programs that require individuals to have a well-rounded background in

the physical sciences and life sciences, as well as the social sciences and humanities. This option will help prepare you for a future in a medical profession and will give you a significant advantage when it comes time to prep for examinations like the MCAT or DAT.

trentu.ca/futurestudents/premedoption

PRE-MODERN STUDIES

Enhance your understanding of the thought, literature, and history of the pre-industrial (pre-1800) world. The study of historical culture in world

civilizations from antiquity through early modernity will allow you to better understand the origins and development of culture informing modern global society.

trentu.ca/futurestudents/premodernoption

THEATRE STUDIES

Do you have a love for theatre and the performing arts? Combining areas of study from Ancient Greek and Roman Studies, Cultural Studies,

English Literature, Indigenous Studies and Modern Languages and Literatures, this multi-departmental emphasis offers you the opportunity to choose credits from a very diverse selection of courses, all rooted in the history of, theory and performance in theatre.

trentu.ca/futurestudents/theatreoption

VISUAL ARTS

Have a budding interest in drawing, photography, film or graphic arts? Express yourself with this option and study the visual arts

through both theory and practice. In addition to workshop classes in drawing, photography, film, and other visual media, you can take courses in theoretical, historical, and contemporary issues in the visual arts from a range of departments. This option is particularly appropriate for future primary and secondary school teachers.

INVESTING IN YOU.

Trent is #1 in scholarships and bursaries

At Trent, we believe in rewarding academic excellence and making transformative educational experiences financially accessible for all. That's why we invest more per student in Scholarship & Bursaries than any other university in Canada.

Entrance Scholarship Guarantee

If you're a top scholar with an average of 80% or higher you will automatically receive an entrance scholarship at Trent – no application required.

And it's not just a one-time thing. Trent's national entrance scholarships are RENEWABLE each year, when you maintain an 80% average. This can really pay off – with a total scholarship potential of \$12,000.

ENTERING AVERAGE	SCHOLARSHIP DISTRIBUTION	MAXIMUM SCHOLARSHIP POTENTIAL
95%+	\$3,000 x 4 years	\$12,000
90% - 95%	\$2,500 x 4 years	\$10,000
85% - 90%	\$1,500 x 4 years	\$6,000
80% - 85%	\$1,000 x 4 years	\$4,000

Trent University Prestigious Scholarships

Receive up to \$20,000 as a recipient of one of Trent's prestigious scholarships. Canadian students entering their first year at Trent with an average of 80% or higher are eligible to apply - and you only have to fill out a single application.

Champlain Scholarship 2 available (\$5,000/year; maximum potential \$20,000); **Board of Governor's Leadership Scholarship** (\$4,500/year; maximum potential \$18,000); **Special Admission Scholarship** 10 available (\$3,750/year; maximum potential \$15,000); **Canada Wide Science Fair Scholarship** (\$3,750/year; maximum potential \$15,000)

MORE SCHOLARSHIPS...

International Baccalaureate Scholarship \$2,000 to the Canadian High School student with the highest overall IB Diploma score

Specialist High Skills Major Scholarship \$2,000 to one Canadian High School student

PAYING FOR YOUR EDUCATION

A university education is an investment in your future. At Trent we'll help you find ways to make it affordable. Our financial aid team is dedicated to working with you to help you uncover ways to pay for your education. Here are a few:

- **Generous Entrance & In-Course Bursaries:** Over \$1.25M in funding available for students with demonstrated financial need
- **Ontario Student Assistance Program:** A combination of interest-free loans and non-repayable grants
- **Assistance for Out-of-Province Students:** Wherever you're coming from, Trent's financial aid team can help you navigate the funding you're eligible for
- **Trent Work-Study Program and On-Campus Jobs:** Hundreds of available on-campus jobs provide you with experience as you fund your education.

TRENTU.CA/STUDENTFINANCES

YOUR STUDENT BUDGET: HOW MUCH WILL IT COST?

Estimated Average Budget for an Academic Year

- \$6,118 Domestic tuition
- \$1,077-\$1,336 Ancillary Fees
- \$1,200 Books & Supplies
- \$10,000-\$15,000 Living away from Home (incl. on-campus room + meal plan or shared rental unit, transit, meals & other living expenses)
- \$4,200 Living at Home (transit, meals, etc.)

TOTAL Living away from home:

\$18,395-\$23,654

TOTAL Living at home:

\$12,595-\$12,854

These costs represent an approximate eight-month budget (based on 2020/21 costs). Your costs may decrease depending on personal lifestyle, number of trips home, long distance calls, new or used books, etc.

MAKE IT AFFORDABLE

Consider this...You're a first-year student, living on campus in residence. Your estimated total costs are approximately \$22,000. How will you pay for it? Don't worry. We're going to show you how to make your education more affordable.

Entrance Scholarship* \$3,000

Bursaries \$1,000

OSAP \$11,000

On Campus Job \$3,500

Personal Savings \$3,600

Total Resources: \$22,100*

* Amount of scholarships and various resources will vary for each individual student

Prince Edward Island	Eng 621 or 611 plus four academic 600 level courses	Biology 611 or 621	Chemistry 611 or 621	English 611 or 621	Math 611 or 621	Physics 621
Quebec – CEGEP	Eng 603 or 604 plus eleven academic credits	Biology 101	Chemistry 202	English 603 or 604	Math 201 or Calculus I and II	Physics 203
Saskatchewan	Eng A30 or B30 plus four academic 30 level courses	Biology 30	Chemistry 30	English 30	Math 30	Physics 30

A minimum 70% overall final average, calculated on grade 12 courses, is required. Grade 12 English at a minimum grade of 60% is required.

Further program specific requirements can be found on page 78-80.

ADMISSIONS OUTSIDE OF CANADA

International Baccalaureate (IB)

A minimum score of 26 in the IB Diploma. Transfer credits will be offered for IB HL courses with a grade of 5 and higher.

General Certificate of Education (GCE)

Minimum 'C' grade in five O-level (or IGCSE) subjects and two A-level (A2) subjects, or minimum 'C' grade in four O-level (or IGCSE) subjects and three A-level (A2) subjects. Two AS subjects may be substituted for one A2 subject. English proficiency test waived with 'C' grade in O-level English. Transfer credits may be offered for A2 courses with 'C' grade or better. Transfer credits will be offered for AP course exams with a grade of 4 or higher.

United States Secondary School

Minimum 'B' average (3.0 GPA on a 4.0 scale) in a recognized academic grade 12 program with a minimum of 70% in grade 12 English and at least four different senior level academic subjects.

Other International Secondary Schools

For country-specific requirements, program prerequisites, or equivalencies to Ontario curriculum, contact international@trentu.ca or visit trentu.ca/international

English Proficiency

The following test results are accepted as proof of English proficiency. Scores must be original and official results sent directly from the test centre.

Language Test Minimum Score

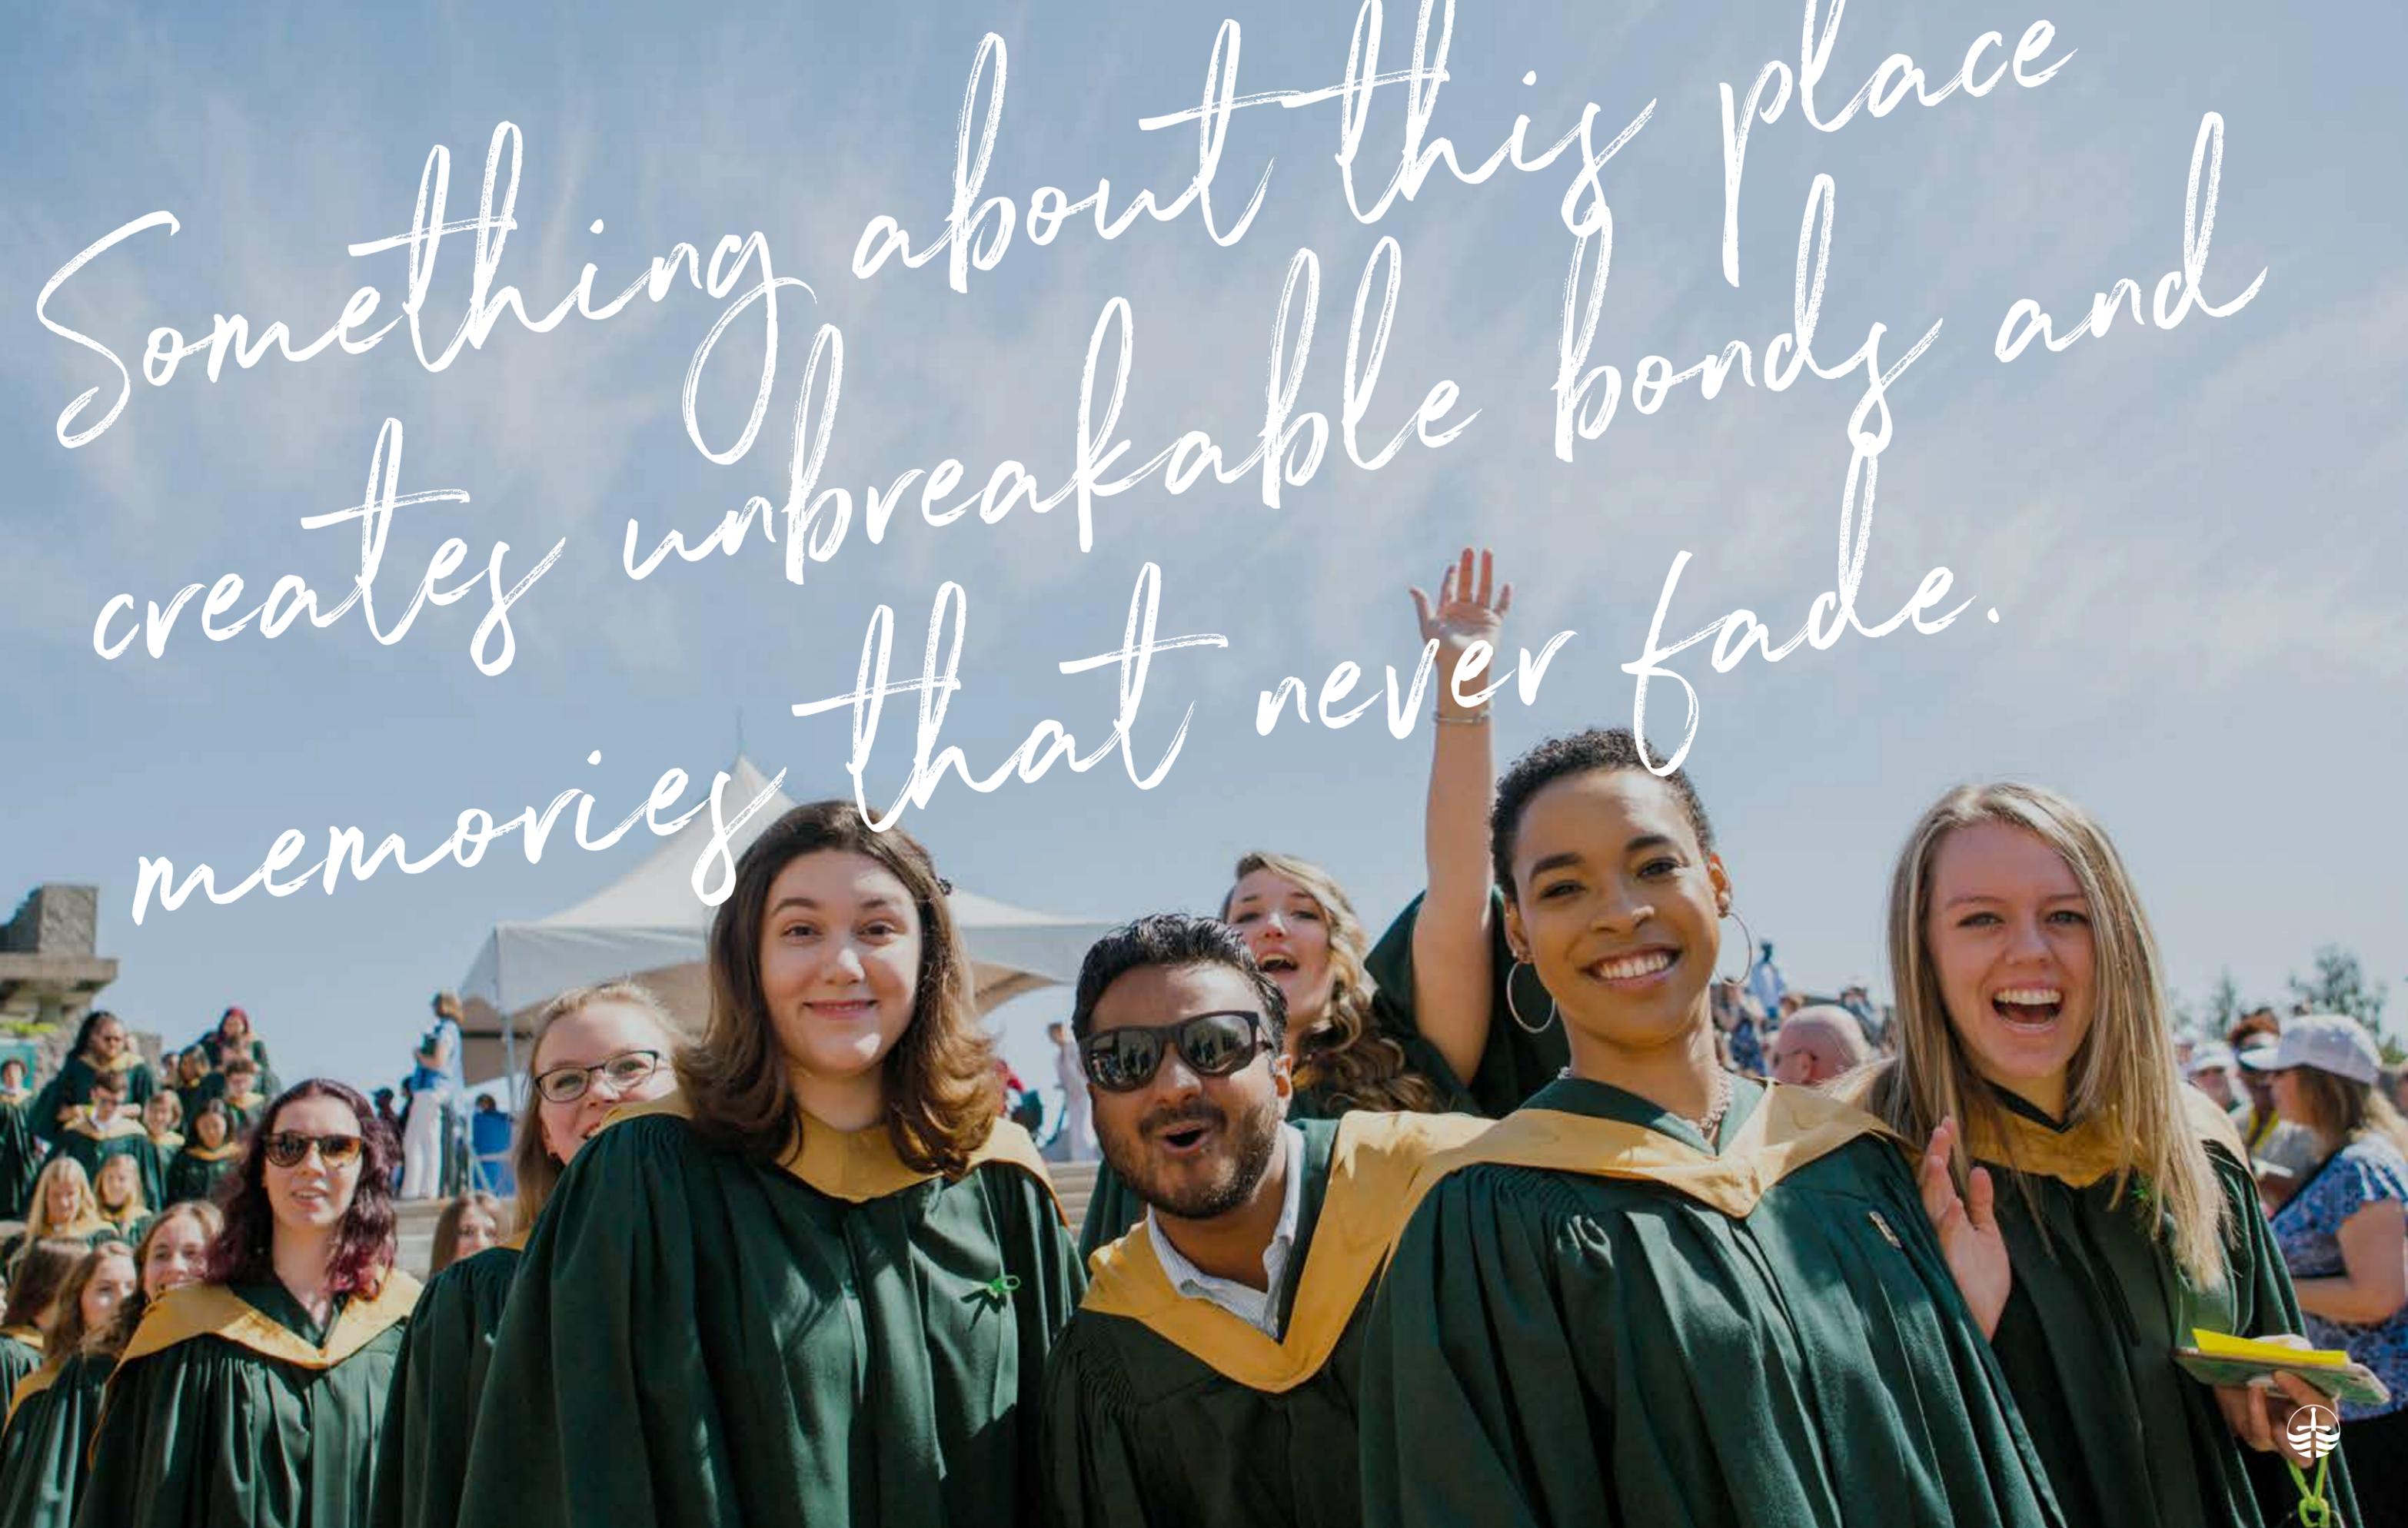

TOEFL (institutional code 0896) 86 IBT
IELTS 6.5, with no band lower than 6.0
CAEL 60
CPE C
PEARSON PTE (Academic) 59

Conditional Admission through Trent-ESL

Trent-ESL offers intensive English language and academic skills preparation. Trent allows gradual admission to degree studies for students who do not meet our English proficiency requirements or who feel they will benefit from additional language support. trentu.ca/esl

College and University Transfer Students

Applicants transferring to Trent University from an accredited foreign university must have successfully completed a minimum of one semester, with a final minimum average of 65% (GPA 2.0) to be considered for admission. Individual courses with a minimum grade of 60% (GPA 1.67) will be considered for transfer credits. Applicants who have completed at least one semester in an accredited foreign community college, with a minimum cumulative average of 65% (GPA 2.0) will be considered for admission. Each course with a minimum grade of 70% (GPA 2.67) will be considered for individual transfer credit. trentu.ca/transfer

Something about this place
creates unbreakable bonds and
memories that never fade.
